### Pinky says

This was the creepiest volume of all. I remember this arc in the anime and it was crazy. I wasn't scared, but I couldn't stop watching. It was so cool and interesting. So I know what's going to happen but since it's been awhile, it still has that same affect. I hate that Mai has to go through this, but it's so interesting!

*"Because, unlike someone, I am blessed with looks and talent."*

Mai is forced to work for a ghost hunter nicknamed Naru after she broke his camera and injured his assistant. She goes on many adventures and makes many new friends. She has been dreaming a lot lately and it is very unusual. Through the darkest and bloodiest cases, Mai and her friends work together to solve the mysteries. [image error]

*"Those are the words of a careless man looking for an excuse to be lazy."*

I am so glad that Yasuhara is in this volume! I'm super excited to see what's going to happen next, since this volume ended in a cliff hanger. I loved how he tricked the elderly, it was hilarious, I wish this guy were real. Mai is awesome as usual, but she's been going through a rough time in this volume. I love how she said that she thought of everyone in the group as her family and how she felt happy to see them. It's so nice to see her character development. Monk always has his hand in Mai's hair, and it's so cute!!! Miko is another great character and she's pretty and snarky. Masako and Mai bickering at each other was another funny moment. Lin is a great character, it was nice to see him laugh for once. And John is a nice guy and I would like to hear more from him. I want to learn about Naru's past and Lin's past as well.

I look forward to reading more and I'll be off again!

Mai finds out who taught Shibuya about ghost hunting. They have a new case and it involves the Prime Minister of Japan. Mai senses something wrong right off. It also turns out that not only has the regular group been called in on this, but a group of similar adults has been called in on the case.

At least two people have disappeared from a building. There's also a reference to renovations being done every year even though nothing was actually necessary, which is like the Winchester mansion out west that a woman had renovated every year, thinking as long as she would do that she would not die.

The mansion the group is investigating is very similar to that one in structure and how there were things like

doors opening into a wall, or stairs leading to with no exit at the top.

"I don't want to die."

If possible, this series is still getting creepier...

Ghost Hunt -- Haunted Mansion edition! Actually a better job than usual with the scariness, but to b somehow humorous in its obvious foreignness as a genre to the writer and illustrator. The "mansion" is an oddly empty block of square rooms, and we get amusing exchanges like the "legend" of the Winchester Mystery House. *"The Winchester House is just a myth,"* dismisses one of the investigators. I guess things in a foreign country can seem mythical sometimes. Like that Australian country singer who sang, "There is no Arizona."

Anyway, the story. Not only our usual cast but a bunch of other psychics and ghost hunters have been called in to investigate a mansion in which a few people have disappeared over the years. Included is Yasuhara, the high schooler from the previous book, who is pretending to be the boss while Naru acts as his assistant, for reasons of avoiding publicity (not really explained).

Extremely cliff-hanger! Darn, wish I'd ordered the next book sooner.

## **Conan Tigard says**

Ghost Hunt: Volume 6 is a little better than the previous book, but it still isn't scary at all. The main problem I see with this series is that the characters seem to get side-tracked a lot. There is a lot of dialog that really doesn't mean anything as it pertains to the story. And then when certain items of the occult are explained, it is not easy to understand.

The translation and adaptation is what kills this series. It is absolutely horrible. It is too bad that the adapter doesn't have more control over what is being said.

As for the story, I am not even sure if there is a ghost, or if humans are to blame for the disappearances. That is another problem I have with this series: a lack of scary ghosts. Would the movie Ghostbusters have been a hit if there weren't any ghosts? No. there were a ton of ghosts and the audiences love it. So, why is there a manga series that is supposed to be about hunting ghosts have so few ghosts? Don't ask me . . . I didn't write it.

Still, the artwork is good, it is the writing that is lacking.

What is up with saying the the Winchester Mystery House is a myth? That is what is said in the book. The Winchester Mystery House is in San Jose, CA and you can go in the house any day (for a fee, of course). The house is not a myth, it is real.

The ending of the book is exciting, but the preview of the next book leads me to believe that Mai survives. Boy, wouldn't it be cool if she were killed and comes back to haunt Naru? That probably is not going to happen.

Overall, Ghost Hunt: Volume 6 is not bad and could have been a lot better with some minor changes. Will Mai survive? I guess I will have to read Ghost Hunt: Volume 7 to find out.

I rated this book a 6 out of 10.

I think this was one of the creepiest story I will ever read. It almost made me have nightmares, that's saying something. But everything turned out good at the end so I was happy. Also, Just what powers does Mia have?

This volume starts my favorite story arc from the anime! It's the most bad ass case! And also, Yasuhara!!!!  
Oh. My. Ra. Do I love that boy! XD He's so hilarious!!! I about died when he was talking to the old man  
about all the wars his great grandparents had lived through! He is the best!!

I'm happy to see Mai's hair has grown out a bit and I'm finding that when her and John are in the same room,  
I'm not confusing them as much! But she's still annoying :-p

That's really all I have to say... so enjoy this adorable picture of Yasuhara (with Mai...but honestly, who  
cares about her XD)

Amazing. i watched the anime before i read. it was scary watching it and even scarier reading it \*made me  
even cry\*

never realized a book can make me feel so terrified and yet make me want to finish it to see the end.

## Caidyn (SEMI-HIATUS; BW Reviews; he/him/his) says

Since I'm reading this after watching all the episodes they made of this manga, I already know all (or most;  
not sure if they actually did the whole series) the cases. However, this one still creeps me the fuck out.

Haunted house? Check.

House that is also built into a maze with secret rooms, corridors, etc? Check.

Terrifying visions that legit gave me nightmares the first time I watched the whole case? Check.

Actual footage of me reading this? Check.

This book, on the other hand, has more than just the capability of terrifying me. There's character building  
for Lin, who is largely left alone until this point. While it didn't give him much depth, a peek into his mind  
and himself was interesting. Also, it gave some clue as to why he and Naru get along so well. Still waiting on

more characterization for Naru.

As it stands, still love Monk the best. Naru is a close second with Lin as a third. Not a fan of Mai still. Her personality reminds me of a friend I kept for far too long, so I can't handle much of her at a time. Easier reading it than listening to the English dub. I do enjoy knowing a bit of her background, which also came out in this book. Monk is just adorable as a reaction.

(Also, totally watch at least this episode if you get a chance. Ghost Hunt, Bloodstained Labyrinth. It's all on Youtube since Netflix took it off.)

I think that this was the best installment in the *Ghost Hunt* series so far, definitely darker and deeper than usual.
