Granddad's Fish Tank

Adrienne Body

Granddad's Fish Tank Adrienne Body

Come and meet all the cheeky and peculiar creatures that live in Granddad's fish tank. This full color children's picture book, written and illustrated by Adrienne Body, is a great book to encourage literacy development skills. It's rich in fun rhymes and rhythm, paired with bright and quirky water-color illustrations.

Mike says

Nice little rhyming book with fun pictures. As with Body's other books there's always more going on than you first notice. And there's even a bit of Kiwi-grammar at one point:

'The sucker fish, Mark,
has the ickiest task
of licking the slimy bits
off of the glass.'

This is an easier book for young children than Body's 'S is for Science' (I really enjoyed that one) and parents will have fun reading, I think.
