## Horizon's Edge TurtleMe

Solitude is said to linger closely behind those with great power. Standing as a King with unrivaled strength, status, and fame... even more so. I, who once fought to live, lay drowned in my shallow throne with no will or purpose. There were many who were jealous of me, but I would gladly say, "Take it all from me! It'll be my gift!" One day, I finally got my gift- a new life.

With a second chance to right my wrongs and fulfill my regrets, allow me to show you what a (former) king can do!

4th Volume of the TBATE series.

## Horizon's Edge Details

Date : Published October 30th 2016

ISBN :

Author : TurtleMe

## **From Reader Review Horizon's Edge for online ebook**

**Michael w Hall says**

**I love this world**

I wish there were less character poverty switches and more of Arthur kicking greatness. I say this is a filler book trying to fill plot holes and build more story, but i know it's necessary. Kudos and best of luck to Turtle.

---

**David Glier says**

**\*Huge\* disappointment. Almost insultingly bad.**

Do you want to read a short book with no action until the last act, only to be trolled by a Bad End cliffhanger?

Are you tired of everything cool in the last few books, and ready to dive into highschool romantic drama and poorly written political conspiracies?

Are you ready for unexplained rocketing power levels and the meaningless deaths of side characters to show how bad the bad guys are?

Are you ready for this series to turn into a crappy anime?

If so, man, this is the book for you!

If that doesn't sound like it's up your alley, don't buy this book. It's short, boring and badly written.

I kept waiting for the book to pick up like the last three did, but all of a sudden it's the end and I feel robbed. At least a third, possibly half, of this book was filler that served no purpose in advancing the plot, building the characters, or even offering entertainment.

As a fan who was looking forward to this book, I am *\*deeply\** disappointed.

---

**Christian Jeffress says**

**Fantastic**

This was definitely another fantastic weekend and a great addition to the series that I thoroughly enjoyed. I am very much looking forward to book 5.

---

**Shannon Wolf says**

**Still a fun series**

This book put to rest my previous remarks that the earlier books in the series were too cute. Boy ol'boy did the last couple of chapters go dark. I did like the plot twist for Elijah. Getting better and better.

---

**Jonathan Wilson says**

4.25 Stars

---

**Dana Urrey says****I can't stop reading!**

This series has me hooked, the drama, intrigue, mystery, and action, action , and even magic action. And who wouldn't love the awkward boy trying to meld what a previous life made him with what this new one would have him become. Omg I have to read the next one right now!

---

**Conan Christensen says****Annoying storytelling**

Too many long POV changes taking us from main character, useless foreshadowing information overload, and upsetting cliffhanger as soon as the story finally starts.

---

**James says****Keep the books coming**

The newest book is just as great as the others and leaves you wanting more. I really can't say enough about this line of books they are just amazing!

---

**Iori says**

Better than the last book, cliffhanger might have killed me though.

---

**Katie R says****Holy Crap!!!**

Too many emotions are running through me, that I don't even know what to do! This book was soo stressful, ... totally scared to read the next one... but I will...too stupid to put it down...

---

**Rob Enderle says****Great read**

I've really enjoyed this series. Now I can hardly. Wait for the next book! Great action and the concepts of magic and the various races nicely defined. This one ends in a nasty cliff hanger though.

---

**Kim Vandermause says****Huh.**

Huh. Wow. Really? Wow. Huh. Really? Jeez. Omg. How. Good book. Good book. Really though? Serious shocker. I mean seriously.

---

**Eric Warren says****And now things are coming together**

Another good continuation and I hope there is another one written soon. I eagerly await the next one. Post haste

---

**Devan says****POV party bleh**

POV for me, POV for you, POV for everyone! This book drove me crazy. There were literally over a dozen POVs bouncing back and forth. I had to force myself to finish the book. Which was sucky because I have loved this series so far. It really took the pacing and immersion the book had and brought it to a complete halt. No Bueno!

---

**Trake Morris says****Quality has worsened.**

The first few books were great, introducing us to the characters and the world at large, with a well written story and thought out plot. The characters were intriguing, if a little cliché, and they've at least been well written, with only a very few being two dimensional. Until this book. The author has apparently decided that forced character development is the way to go, so that they could rush to the conflict with the demons in as

little time as possible. \*SPOILERS\* the end conflict, and the cliffhanger should have never happened, had our hero Arthur remained in character. He has been depicted as extremely protective when it comes to the people he cares about, willing to give his life to keep them safe. Yet, when the girl he loves, who's having trouble controlling the Beast Will he gave her, goes off to school, he let's her go by herself. This is very out of character for him, and mixed in with the rapid POV changes leaves you unsatisfied with the sudden cliffhanger. If I could, I would give this 2.5 stars, and I can only hope that the next one is better.
