Legal Madison Faye

She's *way* off limits, and I know it. The problem is, I don't give a *f*ck* if she is.

Somehow, that innocent girl next door - that girl I had no business thinking about like that, grew up. And I HAVE to have her. I've never felt this way about anyone, even in my Navy days - obsessed and crazy to the point of madness. It's like something primal; a beast inside of me that roars whenever she's near. She might be my buddy's little girl, and my next door neighbor, and damn near half my age...

But she's *legal*, and I'm going to be her first; I'm going to claim and breed her. I don't care what the consequences are, because I'm going to make her mine if it's the last thing I do.

Nothing special just your typical smut filled book.

Deserie williams says

self note: hero is married in the beginning and h sees him having sex with his wife but hero is thinking of h. hmmm yeah definitely not for me. I know there is more to the story but I wouldn't be able to get Over that. just my personal preference.

friend: this book is not for everyone
me: sIGN ME UP

heard this is a low-key ddlg smut so *yeah...*

I am not normally a fan of these types of books but this book was hot! I actually did enjoy this minus the beginning where there was a short sex scene with the hero and his wife at the time, also def needs edits had quite a few grammar issues which was quite annoying.

Tink Magoo is bad at reviews says

Let me start this by saying that YES this needs a good edit to correct some silly grammatical errors and there were 3 or 4 occasions where Mr Harding's date was mistakenly referred to as his wife BUT I still thought this was one steamy read , I'm serious here when I say that if Mr Harding had lived next door to me I would have forced myself upon him.

He had me all

Seriously, fuck the silly mistakes, it doesn't make this book unreadable. This was such a hot book and what's not to like - older man, forbidden, massive cock! I don't need to say more, YOU KNOW YOU WANT IT!
TAKE IT YOU DIRTY GIRL

CharlieB says

This is a mindless, smut-filled, unrealistic, OTT read. Filled in a hour for me. Similar to authors like Alexa Riley and C.M Steele.

Julz says

Wow this book was fan yourself hot. If you are looking for a quick hot Insta love kinda read this is the book for you.

There were a few annoying bits like the constant mention of the age and how innocent her body parts were etc. That got a tad annoying. The part with his ex wife was weird too but other than that q good short read.

I freaking love Madison Faye but *Legal* was a toss up for me. It had so many cringy moments, like the MC, Chelsea, giving Jake her bathing suit bottom after they had sex. I wont dive into details about why that scene made me cringe but it did.

It didn't just stop there though, no, somehow she just kept leaving her underwear around there. Like hot damn women - keep the freaking underwear and go wash that shit.

Legal was a dual POV from Chelsea and Jake. Jake is the next door neighbor and her dad's best friend. Chelsea is the girl who dreams naughty things about her married neighbor. God sheds his light on them both because Jake ends up separating from his horrible cheating wife. Then of course these two magically end up together and having all kinds of wild and unprotected sex.

Shockingly she ends up super pregnant and they all live happily ever. (view spoiler)

Overall, it was an okay book. It was super quick and easy to read and I was kind of happy that it was over. I ended up liking it, even with all the cringing I was doing, and I will definitely dive into book 2 of this series.

Bring on the cringe people!

If you like to read older H breed younger h, go for it.

Too Many Errors!!!

This is the 2nd book I've read by Madison Faye and I did give the first book I read a 5 star rating. However in all good conscience I couldn't give this one the same rating even though I like this book too, but there was just tooooooooooo many editing errors!!!

I'm going to continue reading her books because I think she will be one of my favorite authors similar to Jordan Silver, Alexa Riley, C.M. Steele, etc. I am just hoping she will have others read her books to edit or at the very least use the spell check of whatever application she is using to write.

*****UPDATED REVIEW OF 2ND EDITION*****

I re-read this book and it seems that all of the errors that I read from the first book has now been fix (yay!) and though I haven't reviewed the differences there seems to be MUCH more steamy sex in this book (or at least expanded) than there was in the first edition! I like! I like VERY much! Thank you, Madison Faye!!!

Mindy Lou's Book Review says

I love a good older man/younger girl story and this one was pretty hot! There is no cheating even though the H is married in the beginning. The wife cheated on him and left him before anything happens between H and h.

There is two extra books w/this purchase. Baby It's Cold and Twice Tackled. Well worth the money!

A naughty yet very enjoyable and a little bit taboo always makes my day!!! Once again the author created a hot/mouth drooling story, where our heroine is young/innocent and have a crush for her older neighbor for years now as an adult and he is single she takes an opportunity and gives in her attraction for him.

Page after page my anticipation for what is going to happen or to finally happen between them was growing, their explicit scenes were very hot and primal also it had fast pace and read it without a pause.

The dialogues were also enjoyable and both characters were very lovable i liked how Chelsea became his world and devoured his mind/body and heart the whole unique slightly taboo romance story won me from the beginning i can't wait for the next beauty the author will write.

First off, if you don't like insta love/ breeding books- this ISNT for you

But if you do..

DAYUMMM

This was seriously a HOT read. The scenes- especially in the dining table and bathroom were insane (I didn't even mind the voyeur scene).

However, there was a lot of mention of "being young" and "fertile" and "cum" and reminder of him being old with some typos- but overall it was a yummy hot read!

Total 4.5 stars for hotness, .5 taken away for grammar :)

HOT HOT HOT HOT! Choo choo train to the super breeding trope.

Safe with exceptions

4.5/5

Kim says

I cringed a lot while reading this. The word "young" gets mentioned so much I think it must be going out of style, and the same goes for exclamation points!!!!!! If you want me to take it somewhat seriously then don't use them every time somebody says a line.

It was just way too ridiculous for my taste.
