Dusan says

Much of the book I read (the parts requisite for my university course) went *whoosh* over my head. I suppose it's because my brain isn't calibrated to formal-logic thinking (i.e. I am dumb). The bits I did understand, though, were amusing and a great deal more informative, understandable and illustrated than Reyes' El abecé... That said, I have to ask: what *is* the point of pragmatics? Outside of theoretical considerations, I mean.

this book will help me to guide when i am doing my research.

Borislav Gueorguiev says

The best textbook in linguistic pragmatics.
