Contemporary kids, magic, Celtic stuff, fairy-types. I followed Deitz into the second book of his series of likable wonder and was glad, but not awed.

A reread. I wanted to like this more on a re-read. And I'm not sure if it was me right now or the book that was the issue. I don't live in Georgia anymore and don't have the same affinity for the North Georgia Mountain area that I used to. I'm quite a bit removed from the age of the main characters. I don't read quite as much fantasy and it's been awhile since I read much Celtic inspired anything. But the book dragged in spots and just never felt like a joy to read. The characters hinted at becoming an interesting varied band but they never quite turned real. And the villains were kind of cardboard. And yet the plot was fine as were much of the details. Maybe I'll have better luck with the sequel. 3.5 of 5.
