At Animal Ark, Mandy Hope helps her parents treat animals of all shapes and sizes. Even outside the clinic, Mandy can't resist helping any animal in need. Mandy and James are staying with her parents at a vacation house in the Lake District when they spot a mischievous Labrador on the lawn. James's dog, Blackie, is thrilled to have found a friend, but with no identification or collar, how will the Hopes find her owner? And why does she seem so at home in the cottage?

Loved this series when I was younger. Still a huge animal lover and would like to read the rest of this series!

My 8-year-old LOVES this book! He says it is good for boys or girls, and a great chapter book for 2nd graders (who are good readers).

I'm happy that this series contains a TON of books; a good selection of which can always be found at Half-Price Books or library sales.

Lillian lives these books--generic tales of animal welfare. Thankfully, they are well-written & it was nice to take her up on her recommendation!

My favourite part was when the Labrador found her real home. The worst part was when she was lost and had to be taken care of by Mandy and her family. My favourite character was Mandy. There was no worst character. Aurnyn 11 years old, 2015

I love Labrador dogs, that's why I wanted to read the book. And the dog, and picture was the best part of it.
