**Lecture- Tutorials for Introductory Astronomy** Edward E. Prather , Tim P. Slater , Jeff P. Adams  
**Lecture-Tutorials for Introductory Astronomy** provides a collection of 44 collaborative learning, inquiry-based activities to be used with introductory astronomy courses. Based on education research, these activities are "classroom ready" and lead to deeper, more complete understanding through a series of structured questions that prompt you to use reasoning and identify and correct their misconceptions. All content has been extensively field tested and six new tutorials have been added that respond to reviewer demand, numerous interviews, and nationally conducted workshops.
