Marked by the Dragon King Caroline Hale

There are only two things that I know for sure. One, I will always be an embarrassment and an outcast because my magic is broken. Two, Dragons aren't real. Everybody knows that.

I've made peace with my strange life, trapped between the human world and the magical city hidden beneath it. I have a decent job. My own apartment. A cat. Oh, and my smoking hot boyfriend in my bed every night. Too bad he's just a dream. Or is he?

When I wake up with irrefutable evidence of his existence burned into my flesh, I really start to wonder. World shattering ramifications aside, my mundane life just got a lot more complicated. If Asher isn't just a pleasant distraction conjured by my mind every night, then all the crazy things I've been letting him do to me are... real. And he's going to expect a lot more than I'm willing to give when he finally wakes up.

Part 1 of a serial about a forbidden love between a broken witch and a cursed dragon. Novella length, approximately 21,000 words.

Diane Freeze O'Bryan says

Great story

I'm in love with Lindy and Asher! I guess I started with Book 2, but oh well I'm still loving it! Now to go read 3 & 4!

Patti Ashley says

Interesting start

Story is rather disjointed, but with so much potential I will read on just to see how it shakes out. The Dragon king is held in a dream world and only a witch with no magic can free him.

Pauletta Baker says

Amazing!

I have never read anything by Caroline Hale before. This book was great! I really enjoyed it.

The book revolves around a witch that has no powers. She's tried and tried to cast a spell that works but repeatedly fails. She is bullied. Even worse, her father is famous. She is plagued by the same dream every night. In it, a boy her age. One day while closing at the library she works at, a book falls on the floor. This is where the story gets going.

I don't want to spoil the book for you. I will tell you that she will have several mysteries to solve, deal with betrayal, save herself and someone she cares about. The story will have you in different realms of time. And, there is shape-shifting and lovemaking.

You really will enjoy Lindy and Asher's adventure and hunt for the truth. This is part of a series. See you in number two.

Virginia Lee says

A good start to the series, Can't wait to see what happens in the next book between Melinda and Ash

Stephanie Duncan says

i once read somewhere that its just as difficult to write a bad book than a good book. but i have to say the writing style of this author is broken, nothing flows and the descriptions of things are just... wrong. this book had potential, but i wont be buying the rest of the series.

Kaila says

this was pretty good. I enjoyed how they found each other in dreams and then finally in real life...the chemistry was amazing and overall this was a yummy story that was sweet and very good start

Audrey says

Good start. I like the characters and story line. The world and the path of the characters are intriguing. I want to read more. Have bought the second one.

Delta says

3.5 Dragon Magick & Romance Stars

Marked by the Dragon King is part 1 of a 4 part serial (all parts are out). You can also find it in the compilation book, Kissed by Fire.

Rosa Maria Garcia says

Wonderful

Love reading about dragons,witches, and magic. This was a great book and once you start reading, it's hard to put it down. I would recommended it to anyone who loves reading a book about paranormal.

Ciru says

Hmmm...great start...the Heroine though, one minute she's mad, the next she's going along with the plans....let's see in the next book how it goes.

mirba says

meh. Writing is not so bad, it's the whole world building that is quite unbelievable and pretty much pushing me off.

Brandi says

Really enjoyed this book. It was a quick read, but even more so bc I didn't want to put it down. The only thing I didn't like about it was the way the author tries to explain the beginning of Melinda and Asher's relationship. I felt like we needed more info, more details. But all in all it is a good book and I'm looking forward to reading then next in this series.

Mariam Markitani says

It was an okay book ,nothing particularly special but i liked the mix-up of dream/reality. That was pretty cool.

The Glassed And The Furious says

Huh well this was disappointing. I'm desperate to find a dragon book to love and this one had potential but frankly I was just disappointed.

The world building is ridiculous, the characters are superficial and show absolutely no development and the story is predictably lame.

Karen says

I LOVED THIS BOOK!!!! I am so disappointed that this book is only 63 pages long!!! This story is so good I love how original it is. I am going to have dreams about this for sure.

I want to get the next books in the series, they are only 99 cents on the Kindle.

I highly recommend this series to anyone into paranormal romance.
