She Likes It Irish Sophia Ryan

Kristin DeMarco vows to protect her broken heart and swear off men until she finishes her degree and starts her career. Survival sex—a vibrator and a sizzling-hot roommate—eases urges that can't be ignored, until her craving for a man propels her from the arms of Mr. Wrong to the door of Mr. Right. Irishman Sean O'Neill forces her to consider what she really wants. And what she wants is him in her bed. Too bad he's not cooperating.

Sean is only in America for six months to complete his degree and an archeology field school. He's as serious about his education as he is about keeping his sex life casual. When Kristin knocks on his door asking for condoms, the encounter forces him to rethink that single-minded focus. He wants Kristin for more than one night, but their secrets may end the relationship before it begins.

Stephanie says

For a free read, this was a pretty good book. Its a short read so I feel we missed a little character development, but over all it was really a treat.

Courtney says

So, apparently, I have a soft spot for NA campus romances. Probably because I met my husband during the University years and had many a romantic tryst on an extra-long twin bed. That being said, I saw this while looking for new-to-me authors on NetGalley and decided to take a risk. I'm glad I did.

Kristin is likable, though we only have one solid conversation about forensics. I wish there had been more academic talk, just to balance out the bedroom pages. She seems perfectly likable, but -as other pointed out – not necessarily deserving the love and devotion of three people AND the deep, meaningful friendship of a fourth. Considering we spent the majority of the book in her head, I would have liked to have a deeper connection with her.

Sean, at least, has a more developed background story and career trajectory. We understand what draws him to his career field and his words and actions seem to merit the friendship and enemies in his life. Honestly, though, I wish we'd spent more time in his head.

As for the storyline, their meet-cute was adorable and enjoyable. I loved their week of dates and how it built the tension and connection between them. Zoe was a predictable villain. Nothing she did surprised me and the drama in the story felt very contrived simply for the sake of having conflict. Sean's reactions were totally normal, and understandable. Kristen's reaction in the grocery store received an eye roll from me. It felt out of character and didn't make sense to me. Honestly, I would've enjoyed this more if it was a cute story about two nice people falling in loving and obtaining their HEA.

That being said, I enjoyed the campus setting and watching these two people be happy together. I will definitely keep my eyes out for more books by this author.

Scarlet Fanning says

Set at a college with the usual drama of roommates and classmates. Loads of sexual tension and play from a sexy Irishman. Erotic and sensual. You won't put this one down.

04/12/2013 --

Overall Rating = 2 Stars

Book Cover / Book Blurb = 4 / 3 = 3.5 Stars

Writer's Voice = 2 Stars

Character Development = 3 Stars

Story Appreciation = 2 Stars

Worth the Chili = 1 Star [I got it free, but normally \$4.99 on Amazon]

I actually liked parts of this story. But, the components I didn't like overshadowed anything good. The whole, going on romantic outings with Sean and then going back to your dorm room to your vibrator or your roommate's tongue was a bit much for me. Just a bit over the top pervie.

It does have some good. It is still free on Amazon. You may like it and the pervie points may not be pervie to you. Good luck!

You might be Happy Reading this one ... not for me.

Julie says

This wasn't a great read but it had its moments and the predictability of the story can be forgiven as it was kind of entertaining. It was a bit long and I did rush it a little as I hoped something spectacular would happen to spice the story along, give it a surprise. But for a freebie read it was ok! Sean was a specially good character, a very hot lead, I'd love to meet a man like him myself.
A story well worth looking at.

Janey says

3.5 stars
Funny, easy read..!

books4me says

Holy cow, was this HOT! Sean is one hot dude who wants Kristin. There is jealousy, friendship, and lots of loving. The suspense and waiting for Sean and Kristin to sleep together was frustrating but great to read.

My honest review is for a special copy I voluntarily read.

(Tori-Smexybooks) smexys_sidekick says

A steamy erotic NA with lots of hot loving, a sexy Irish hottie, a nympho roommate, unrequited love, and the perfect amount of emo drama.

Gabrielle Holcomb says

1.5/5 ?

Damn. This book, man, it was, something. Something not good.

First, I dont understand why these two men are so "in love" with her. She doesnt seem to have any personality besides, Likes Sex. I dont mind that she had instant lust with Sean, the RA, because that is normal. What ISNT normal is "falling in love" with a man you have spent less than a week with.

Besides the insta-lust/insta-love thing, I had an issue with the bisexual roommate. It seems that the new trope is Villianize Your Gays instead of Kill Your Gays. I am not about it. The roommate becomes the driving force for plot intrigue. But I didnt even understand WHY she did what she did. Like what was the point??? She ruined her friendship for what? Because she was "in love" with our MC? what is it about her that everyone loves?

I did enjoy the talk about needing trust in a relationship and that our MC refused to take Sean back until he realized his mistakes and thoroughly apologized for doubting her.

Megan says

2.5 stars

Meh this one was alright, and it was a quick read.

There was some good parts to it and some just plain ridiculous parts as well.

I found it odd and a bit wrong how Kristin met Sean and all but fell all over him. Then she went out with Sean but then came back to her dorm room and hooked up with her roommate with Sean on her mind. I don't know it was all a bit strange. There were some steamy parts in it and it was an enjoyable read at times, but overall I felt it was lacking something.

ARC kindly provided to me by Net Galley in exchange for an honest review.

DKristin says

I think I got this book when it was free or 99 cents. Anyhow, it was one of those ones I picked up at a good price and said well if it's awful at least I didn't lose much... Unlike some experiences I have had, I am really glad I got it. This was an unexpected solidly written and wonderful book. It had a HOT guy with an accent, a brain, who can sing & play guitar, rides a motorcycle, and has a ginormous... heart. :D It was weird reading a book about a "Kristin" LOL! But it also added to the reading experience for me, especially at the steamier scenes.

I felt the addition of Zoe and the conflict that she brought was that really good drama where it irritates you, makes you really feel it in your stomach, but is still believable. It did get a little soap opera dramatic for awhile but who doesn't love that. I loved how these two really thought through their decisions, were victims to their own pride and fear, and actually grew together as the book went on.

I couldn't give it five stars because some of the lines were just too freaking cheesy and some of the situations were a bit hilarious as opposed to sad like they were supposed to be. I also found some of Kristin's naivete in regards to one relationship not to fit her character due to the fact she could identify and name all of that persons flaws and less attractive characteristics she appeared to be too aware to be that naive. Anyway, I liked it a lot!

Tammy says

This is an entertaining and steamy read. Kirsten and Sean are great characters with steamy chemistry and are so much fun together. The has plenty of drama and plenty of emotion. I was hooked from beginning to end. A good read.

Cariadne says

The writing wasn't bad, though a bit overwrought at times. What I wish is that the author ended things earlier and not draw it out to graduation day and the proposal. In fact, some tighter editing to make this story a bit shorter would've been appreciated once we got to the happily ever after reconciliation.

Shelby says

ARC was provided to me for a fair and honest review

Overall rating: 4.5/5 New adult campus romance story

Heroine (Kristin): 4.5/5 Archaeology undergrad focused on forensics who has sworn off serious relationships due to a previous one going wrong.

Hero (Sean): 4/5 Irish archaeology grad student focused on field work studying abroad in the US.

Plot: 4/5 Kristin asks Sean if he could spare a condom as she was about to seal the deal with his hall neighbor when they hit it off. As Kristin and Sean become closer her jealous ex-lovers plot to break them up.

Personal Review: The steamy scenes are very steamy, so if you're not looking for that type of book then best to put this one away. Those that are looking for a hot Irish guy in his mid twenties with a particularly large member then you're looking at a good book choice. This is a fun, very sexy new adult book featuring two college students with plenty of passion.

Mrs. says

I voluntarily read and reviewed an advanced copy of She Likes it Irish. All thoughts and opinions are my own.

Oh boy! This was a super guilty pleasure for me. I loved the drama, though some of it nearly tore me up...I was disgusted with Kristen at some points, cheering her on at others, and even crying with her during a few of her lowest moments. She was a likable character, who was strong in some of her relationships, yet almost a doormat in others. Sean was deserving of her attention and was just a joy to read about. His behavior and actions were spot-on believable and I just loved him. I will happily read work from this author again.

Thank you to NetGalley and Sophia Ryan for the ARC!
