This was a great paranormal read. It's full of suspense, action, hot demons, and sizzling romance. Angelique Diaz whom everyone calls Angel, is a supermodel that has been in a horrible car accident leaving her permanently scarred and unable to return to her career. After countless Doctor's visits and reconstructive surgery nothing is fixing the scars that mar her once beautiful face. Coming from a family with a long history in voodoo magic, she thinks she has found the answer to her problem in an old spell book on conjuring the devil. What she doesn't plan on is falling in love, and paying for her beauty with her soul. After making her deal with the devil Angel is forced into the underworld to complete training. This is unlike anything she had witnessed before. I don't want to say too much more about the book and spoil it for anyone so I will just say its an easy fun read that has some hard times but over all def gives you a happy ending

In the beginning Angel was bearily tolerable. Her feelings towards Jacque were comical but she redeemed herself in the end. I will continue with series.

Sexiness, mayhem and magic.... A kick ass book!!

Angelique (Angel) Dias had the life. She was a top model, she had the car, the money, the clothes and the shoes to go with. I think that Robin Leach would be proud. Until the night a drunk driver hits her car. The accident leaves the one side of face scared from forehead to chin taking away her looks and livelihood. At the point where nothing can medically be done to help her, Angel makes a pack with the Devil. To get her beauty back, she must work with Lucifer for years.

Sexy Jacque Toussant, demon from hell (literally) and Lucifer's nephew, gets the task of training Angel. Jacque wants nothing to do with humans. He was a warrior not a trainer. He soon realizes that Angel is not a normal human so to speak and demons can't control who they fall for.

Vivi Dumas has an amazing start to her series with Soul Catcher. It has everything I love in a PNR. Great concept, strong female, action and the hot guys!! She has an excellent cast of characters with distinctive personalities that make them stand out and bring so much more depth to this story. Ms. Dumas had a talent for character writing. She left me wanting to know more of about many of the secondary characters (I am glad this is a part of a series)?! The blending of so many paranormal creatures was done flawlessly. Soul Catcher is a wild ride to hell and back, action packed, with whit, humor and hot romance. A must read for any PRN lover!

As a reader I see a lot of potential for this series. So many ways thing can go.... I hope to see many more books!

Rachel's Review

When super model, Angel Dias, loses her beauty, she's left with only one choice, contacting the devil. Selling her soul to Lucifer seems better than living with the scarring that mars the only thing she values, her beauty. But, she doesn't plan on Satan's crafty ways and soon finds herself submerged in his role to bring back escaped souls.

The leader of the Legions is left with training the human woman, a task he's not excited about. Through the trials of training and the battle that will ensue, a common respect is found that turns into love.

Dumas created a fast paced and exciting Urban Fantasy that is filled with heat and heart. A woman learns to love herself and to overcome her superficial concerns. A man learns to trust and overcome his fear of commitment. The two learn that together they can overcome anything, even the despair of Hell.

I really enjoyed this read and look forward to the continuation of this saga. The secondary characters promise to be as interesting as Angel and Jacque, and I can't wait to read on. I'm definitely recommending this read to everyone!!!

Angie ~aka Reading Machine~ says

Angelique (Angel) Dias is top supermodel until horrific automobile accident leaves her scarred and burned thus ruining her modeling career. Angel's mom Elise won't accept Angel being disfigured taking her to doctor after doctor unwilling to accept the truth. Angel knows that doctor's can't help her but thinks making a deal with The Devil to restore her beauty is the answer to her problems. Beauty's only skin deep right and Vanity isn't one of the Seven Deadly Sins so what's the harm in making a deal. Lucifer (Luc) offers Angel her beauty back on the condition she doesn't refuse any job he asks of her. Angel agrees to the terms readily in spite of lingering doubts about her decision. Luc tells Angel that she'll be meeting someone to get her into training. Jacque Toussant, a demon who wants nothing to do with humans period, is being sent by Luc to retrieve said human for training. Jacque is gifted with empathic abilities that sometimes can be overwhelming to him which is another reason why he avoids being around humans. Jacque upon seeing Angel his whole world is turned upside down and then some. Jacque's attraction to Angel is very much mutual yet Angel holds back a piece of herself from him. Jacque's ex Isabella (Bell) LaCoste becomes jealous of Jacque's attraction to Angel. Will Angel learn her true worth? Will Angel refuse a job? Can Angel get thru training? What will Bell do to Angel? Will Jacque gain control over his emotions? Will either Angel or Jacque act on their attraction? Your answers await you in Soul Catcher.

Soul Catcher is unique twist on making a deal with The Devil. You really almost want to like Luc yet find yourself hating him instead. I almost didn't really relate to Angel until her emotional scars became apparent.

Angel is a mixture of raw pain, filled with self-doubt and self-loathing, unloved, and despised. These venomous things are courtesy of her mother's own jealousy. Jacque is absolutely dreamy Alpha Male with his own set of flaws and shortcomings which is what makes him and Angel work as couple. I'll be honest I truly despise Bell from her voice, her actions, and her plotting drive me batty. Another hunk is Laurent, I hope we see more of him. I think the author did good job world building and established good main and secondary characters. I look forward to reading the next installment.

This is the first thing I've read by this author, and I'm going to be looking for more. The writing is solid, the characters well-developed, and there are nice, tight descriptive passages that drew me into the story.

STEAMY WITH A GOOD STORY!

Linda says

Angel's life alters all together when she's in a car crash and scars on her face stops her modelling career. When no one can help her she makes a deal with the devil himself to get back her own self. This deal turns everything upside down again, when her instructor Jacque awakens feelings she forgotten, and the devil starts collecting on the deal. Demons, witches, vamps and smutty fluff. Came across (for me) as a bit immature at times with shouting, tantrums and misunderstandings, but a great start to a series I want to read more from.

WOW! This book was steamy. But REALLY GOOD, amazing actually. I was really impressed. This was a free book from Kindle. So, I tried it... Stayed up ALL night to read it. Any time I stopped to go to sleep. My mind just kept going back to it, so I knew I had to whip my phone off the charger and read till the wee hours, (Like 2 am and I knew I had to get up at 530). But I really hope this book is continued. So if you like the Black Dagger Brotherhood or Sookie.. Read on!

My review of Soul Catcher by Vivi Dumas

Rating 4****

This book was provided free from the author in exchange for honest literary review.

Angel had it all until a drunk driver stole her life. She walked away with her world turned upside down from the accident. Once a supermodel, whose face graced the covers of magazines worldwide, not she is scarred beyond recognition. After talking with every known surgeon throughout the world she decides to make a deal with the devil.

Through her bloodline Angel is a true Voodoo Princess. She conjures up Lucifer himself and asks for a deal....one that lands her in hell literally. While there she runs into a demon named Jacque who is supposed to be her trainer. Jacque makes Angel's blood boil in all the wrong ways. No matter how she tries to escape him, something seems to be pushing them together. But is it possible that her vanity could cost her all those she loves and even all her new friends as well?

The concept in this book is amazing! I love New Orleans and the magical mystery of it. The allure there is amazing to us that loves the paranormal. On that level you will not be disappointed here. There are yummy vamps, demons, fae, demons and even some scarier ghouls and demonic creatures. Angel is a kick -butt strong female who doesn't even realize how powerful she is simply being her. It takes a lot to grow and become confident and comfortable in your own skin. There are several references here to some hip-hop music and that was cool as well. I happen to love all the ones the author picked out! Lastly I loved the humor thrown in, especially those comments by Laurent. He killed me with some of those lines. I would read further novels in this series...they have a lot of promise.

Louisa Bacio says

Vivi Dumas is a writer after my own heart. After I read the description of her latest paranormal romance, Soul Catcher, I knew that I would be hooked. And, she did nothing to disappoint.

A former top model, Angel Dias gets into a car accident that leaves her face hideously disfigured. She loses her livelihood, the respect of her family and her self-confidence. After visiting doctor after doctor without any hope, Angel does the one thing left to help herself: She sells her soul to the devil.

A soul for beauty? Angel soon realizes that her exchange wasn't the smartest thing to do, but is it too late for redemption? Lucifer brings Angel into his dark world for training. Her instructor, Jacque Toussant, is a demon with a prejudice against human women. In fact, after his last love Lilith left him, he's bitter against all women – supernatural or not. Yet, there's something about Angel that draws him, and he's willing to risk just about everything in order to save her.

Add in a pitch-perfect setting of New Orleans, and some Voodoo undercurrents, and Dumas has created a dynamic romance with more than a touch of the erotic.

Romance Novels in Color says

This was such an interesting and quirky story. There were many different people (well, if you can count the Devil and minions, grandmother coming back to life, the fae and others), but not so huge a number that you needed a cheat sheet to keep track. I enjoyed seeing life from such an interesting point of view (not everyone is just normal, if anyone is normal at all).

Angel and Jacque are characters that play off of one another so well. Just when I would get tired of Angel's whining, she would do something to change my mind. Jacque was hysterical, sexy and very funny. The secondary characters will be fascinating to read about in a future book.

To keep a book light and fun to read, yet keep the attention of the reader, is a hard job for an author. I think Vivi Dumas has captured a story that is likeable and worthy of a "I'm going to sit-down, drink coffee and dive headfirst into a world that has other worlds in it". I can truly say I enjoyed this.

This was my first time reading anything from Vivi Dumas, and she did not disappoint. I will have to see what else I can find from her and make sure they become part of my TBR pile, as well as my very-soon-to-be-already-read and "dog-eared" pile.

Angel was a supermodel, an epitome of beauty. She was living the life of the rich and famous until she had a terrible auto accident which has marred her for life. She has lost everything she knew: her life, her fiance, her family. Then... one day she calls upon the Lucifer and makes a deal. She gets her beautiful face back but at what cost?

This is the story of Angel and of Lucifer's nephew and Commander of his legions, Jacque.

I liked the originality of the story and of the characters, especially having an underworld demon as a love interest. I also liked the setting of Hades as much of the story takes place there.

There were multiple well-written sex scenes but the characters seemed to agonize about them too much. This is definitely not a YA book.

It took me a good while to get involved in the story. Once I did, I felt that the story dragged off and on - especially as the characters agonized over their past and future sex scenes. I was involved enough to read the next book in the series.

3 Stars!

I could not get into this story. This was a free book one of a series to nowhere.

The Pen & Muse says

What I liked: She threw the fiery liquid down her throat. "I used to be a model until I got in the car accident last year. Now, I look like something from a carnival freak show."

Out of options, she was running into the arms of darkness, risking her faith, sanity, and life, but nothing could be worse than the nightmare she currently lived.

There was no turning back after it was done, and there had to be a hefty price to pay.

Marta Cox says

Angel Dias is a Supermodel who has spent most of her life trading on her good looks. Always getting what she wants and used to being treated like a queen but what would happen if she lost those looks? Could she make a life that didn't depend on her looks? Can reality trump a superficial lifestyle? Or would she literally trade her soul to keep them?

Wow a fantastic idea from this very talented author. This magical tale starts with a bang quite literally as the heroine is in a car accident orchestrated by Lucifer in order to do what he does best! Cause trouble. Yes I do love a bad boy! Mayhem ensues as Angel quickly has to learn to work with Hells minions and meets the sexy demon Jacque who she finds herself increasingly drawn to. We meet vampires, witches, weres ,gods and even Voodoo priestesses as the story progresses and did I say it's hot?

This the start of a new series and is a fantastic ride. Lots of interesting characters and very polished. I can't wait to read the sequel which will feature Jacques brother Xavier and would love to see the sexy were Damon get his own story.if you like a paranormal story you will not be disappointed. It may be hot in Hell but this book definitely set my kindle on fire!

I received a copy of this free in exchange for an honest review and loved it!

The author gave me this book for an honest review.

What a nice start for a paranormal romance series! I didn't know what to expect from this book when they contact me to ask me if I wanted to review it, but I am so glad I did it because it was a very nice read! Really,

it has it all: demons, vampires, werewolves, magic, gods and goddesses, pain in the ass mothers, great siblings (and not so great!) and amazing friends! The story is fast-paced and it kept my interest from the beginning until the end!

Angel was a supermodel when she had a terrible accident that left her with many scars in her face. So, she decided to deal with the Devil so she can have her beauty back. Soon, she realized her mistake and with the help of many supernatural beings, she's ready for a war with the Devil himself. By her side is Jacque, a demon who wants to win her heart.

I liked Angel a lot because she found the true meaning of beauty. All her life was controlled by her idiot mother who was telling her all the time that she had only her beauty. After her accident, she realized that her mother didn't truly love her at all. Yes, at the beginning she thought that if she had her good looks back, everything will be great, but soon she understood that good looks aren't important if you are ugly inside. She realized that there are people who love her not because she's beautiful but because she's a good person.

And what can I say about Jacque? He's a demon but he acts like a normal man and that's what I liked more about him! He's strong and he knows that beauty is not only what it's outside but what is inside also. And he's not afraid to try something new if it's going to make him happy!

I really liked the plot in this book and the fact that there are many secondary very interesting characters! I so want to read more about them! This is a very promising start in a series and I recommend it to all the fans of this genre!
