Star Trek Log Four

Alan Dean Foster

Star Trek Log Four Alan Dean Foster

The fourth in a series of Star Trek: The Animated Series adaptations. Published by Ballantine Books in February 1975. Includes:

- The Time Trap (The Enterprise becomes trapped in the Delta Triangle, an area of space where many starships have gone missing. To make matters worse, the ship also has to defend itself from the Klothos, a Klingon vessel captained by Kor.)
- More Tribbles, More Troubles (While escorting a shipment of grain to Sherman's Planet, the Enterprise encounters three "old friends:" Koloth, Cyrano Jones--and tribbles!)
- The Terratin Incident (When a strange flash of light paralyzes the entire crew of the Enterprise, they begin to shrink. Kirk beams down to the nearest planet, Cepheus, and discovers a miniature race desperate to leave their volcanic homeworld.)

Mirrani says

Log Four is a collection of stories that are meant to be expanded off of the television shows from the animated series. I didn't really find them an expansion as much as a transcript which included action. I guess what I was hoping for was more detail to cover things that the short episodes didn't have the time for. What I got was what I remembered of the episodes. This isn't to say that these books aren't worth reading. For me, having and reading them is a matter of enjoying a tale told in the Trek style, if not in the complete form I had hoped for. Still an enjoyable read, brought back some good memories of watching with friends.

John says

1976 "logs 1 thru 9" average grade B
2017 "Log 4" average grade C+

First two are too long.
C, C, A-

Curtiss says

Another three episodes from the Animated Star Trek Saturday morning cartoon series have been adapted by Alan Dean Foster in novella form. Nearly the only format available of the Animated Star Trek series.

Rich Meyer says

An okay volume in the series, but even considering the scripts Foster had to work with, this is definitely NOT his best work. What saves it is a bit of exposition on Lt. Arex and his people, and some good characterization.

I Lt. Kimberly Landen says

I loved Log Four and going to continue to read the series,After finishing the reading Log Four well I fell in love with those Tribbles. - "TRIBBLES" they adorable I have learned to hand weave Tribbles they are so cute little yarn balls " OH MY They are CUTE- There Be TRIBBLES"

Kenneth says

Being shrunken, lost in the Bermuda's Triangle, trouble with tribbles again.

Chris says

I have a fondness for the Star Trek Log books. I read several of them long before I saw the cartoon. I mean, years before seeing the actual cartoon. This installment is three stories, including one story about giant tribbles.

Yes, giant tribbles. Go on, you know you want to.

Becky says

I never saw the cartoon but these stories in themselves are great, The Terratin Incident in particular is great fun

Robert says

Loved the original Star Trek.

Baal Of says

I'm beginning to think I must have read at least some of these books when I was a kid, because these stories are very familiar, especially the Time Trap story in which the Enterprise is pulled into a zone full of derelict space craft. Then again, this idea has been done a fair number of times, and perhaps I'm remembering one of those other worlds in which this has been done. Regardless, I liked this book a lot. Yes, it's got the expected cheesiness, but it still has the charm that I love about the original series, and the crew always attempt to think their way through situations, rather than resorting to violence immediately.

Rebecca says

I love The Animated Series, and these were fun and well-written adaptations of episodes. Nothing wildly outstanding, just good old Star Trek fun.

Charles says

Based on the Star Trek original series cartoon series. I thought they were pretty good. Good fun.

David says

More novalizations of the animated Star Trek series.
