Sweet Little Bitch Abbi Glines

Fiona

I had never asked for a break. It had been a small request for space so I could think. Just some time to reflect and search myself. Loving Marty had never been the problem. It was the word marriage that haunted me.

In the end, none of it mattered.

Marty proved to be exactly what I feared. Unfaithful. And he'd fooled me, not once, but twice.

There sure as hell wouldn't be a third time.

Marty

Three long years and the sight of her still feels like electricity jolting me awake from a sleep I didn't realize I was in. Even with plenty of time to mentally prepare for this, being near Fiona reminded me what I'd never managed to find in another woman.

Even if she was crazy as hell. A mixture of hot, cold, funny, brutal all wrapped into a fucking gorgeous package.

When I left town, I was getting away from any memories of her. Protecting myself the only way I could.

But my twin brother and her half-sister were tying the knot. Unlike us, Shay and Mack could claw each other's eyes out one minute and be madly in love the next.

Making it through this wedding weekend was all Mack asked of me. I could do it. I had to.

Even if it took all the whiskey in Savannah.

Fiona wouldn't break me.

Not again.

This is an angst filled drama...about an insecure girl Fiona (a model, above all) who has trust issues cause of her dysfunctional family...

And then, she meets Marty who is almost too good to be true kinda guy...and he's been hurt too in his past but he s willing to give another try at relationships...and Fiona is all and more...

But then this storyline gets filled with 'jumps' into the future where we should have been given 'explanations' of the events that 'suddenly' led towards the 'cold war' between the two lovers who havent stopped loving each other BUT who weren't able to TALK or LISTEN to one another and just let the ASSUMPTIONS and inner fears to ruin what they had going for them...

And then, another jump, and the ending was abrupt where they 'realized' their mistakes in just a few sentences...after they have been 'piling' the grudge and distrust for 4 years...

Gah...the worst kind of angsty shit

"You lit up my world in a way I didn't know was possible. You owned me before I thought it was possible. I fell in love with you over cookies that I couldn't even bite into. You're my perfect match. And although you've never been in love, you are loved. You're the most important person in my world."

Let me start by saying this is the first book by this author that after finishing it I honestly have no idea how to feel. The first half of this book was excellent and I couldn't get enough of Fiona and Marty. Their romance was by no means perfect but they were so adorable together. However starting at 53% all the way up to the end I can't say I feel the same. Everything was perfect then one bombshell is dropped and poof it was 5 years later and it was like I was reading a whole different story. It took way to many pages and chapters to even start getting some sort of answers and even then it was only bits and pieces here and there. I was so confused on what was going on or had even happened that the story would just change so drastically like that. By the time you got all the answers everything was supposed to be forgiven just like that and the story was over!? I have never felt so disappointed in the ending of a book before. It was out of place, as well as entirely to abrupt, and completely rushed. This story had so much potential and such a great characters as well as story line but just fell flat on execution at the halfway mark. After getting the whole story I get why Fiona was upset I truly do. However no matter how in the wrong she was for not allowing Marty to explain no women is going to let those kind of revelations go without some sort of explanation or closure. My mind just truly does not know how to feel about this book.

"Fiona's face in the romantic glow surrounding us made this the most perfect meal of my life. Nothing could ever compare to this moment. I wanted more like it. More of her."

Fiona is one of those vulnerable damaged heroines. I truly did like her character. She was so feisty, and a total spitfire. Fiona also really did have a big heart even if she didn't fully understand how to show it.

However sometimes she came across as immature, and weak to me. Fiona let her fear and insecurities rule her life. I wanted her character to be happy but she just wouldn't let herself accept happiness. It's like the minute she felt happy she was searching for ways to sabotage it just as quickly. I felt bad for the damaged women her past left behind.

"I laughed. Not because what he'd said was that funny but because he made me feel . . . happy. Most people didn't make me happy. Happiness was not a big part of my life."

Marty was as caring and romantic as I thought he would be. I would be lying if I said his character did not have me melting with swoons so many times. He truly is one of the most patient men I have ever read. His devotion and love for Fiona was seriously heart warming. I also loved how raw his character was. Marty definitely was not afraid to show you his insecurities and vulnerability. Yes he made mistakes just like any other alpha, but it broke my heart he never fully got to tell his side of the story.

3 & 1/2 STARS

Sadly I just have too many questions left unanswered with this book. Was that a cliffhanger? Is there going to be another book? Did they fully make up? Are they starting over? Was there a happily ever after? I was so excited for this book but can't help but feel so disappointed after reading it.

Kimberley says

I had not read any of the previous books in the series, and normally I love Abbi, however this book I felt was a little bit jumpy going from between different points of the relationship without any guidance. It was ok but I've read better from Abbi

Kim says

She really needs new material for her books. I skimmed most of the story and it didn't really grab my attention; and the ending could have been better.

Karen says

DNF, It's too chopped up for me to care about MC. Cheating? Or even if no cheating, why is everyone so uncommunicative? What happened here, Abbi Glines???

Alan-Alisha Medeiros says

Good book with too many grammatical errors

I love everything Abbi Glines writes but this Kindle edition had so many grammatical errors that it took away from the mood of the story. Words like know were replaced with now and even a name was replaced with a word that didn't make sense. One or two is normally ok but this edition was loaded with it. I didn't

like how abrupt the ending was but overall pleased with the story.

Fallen says

I'm giving 3 stars because of the first half of the book. Before the 5 years jump, after that totally sucked.

Bobbi says

Typical Abbi Glines story. Girl, you need a new storyline. Not just new characters and a new city. Also, please please please invest in an editor or if you already have one, a better one. Too many grammar errors.

As for the story itself...it could have been much better if the 5 year gap had been written more smoothly. It was too confusing and, in my opinion, not as suspenseful as the author was going for. It was happy and sweet one minute and then the next minute was a real "WTF is happening???" moment. No buildup. Like she just flipped a switch. I almost thought I was reading the start of a different story at first. Too much happened during those 5 years for Marty, Fiona, Mack and Chantel to just jump over it. Nothing made sense when I read the first chapter after the 5 years passed. And even after I figured out what was going on, things were just suddenly ok? Flipped another switch I see.

why do i do this to myself

Marila Pokamisa says

I am so sorry to say that I did not like this book! I cannot pinpoint what bothered me exactly, however it seemed to me as the story was forced! In my opinion, the heroes lacked depth and everything was so fast paced that it didn't leave me the time to get connected with them! It's a pity, because I used to love Abbi Glines' books and devour them...but I've noticed a change in the way she writes. Maybe it's just me...However, I still hope that she returns to her previously glorious-writing self!!

Roxy says

WHATTTTTTTTT??????

What kind of end is that?? Not epilogue, not what apenas after, nothing!! I'm sorry but I don't like it!! I love the story but hated the end!!!

Lili says

OMG It was awful... very much so I can't even describe.

spoiler: that poor girl had to have cancer and die just for a little drama and just like that they spend years apart, then BOOM I love you lets get back together and then the book ends.

Oh, Mrs. Glines....

Milica says

Book ends abruptly .

This was my favorite book in the Sweet series. I really enjoyed the story of Marty and Fiona.

Marty--is the twin that is actually a good guy. His high school sweetheart broke his heart and a year later his still pinning over her until he meets Fiona.

Fiona--is the bitchy model who grew up without any love therefore, she doesn't believe in it. She's her own worst enemy and is constantly questioning herself and Marty. Eventually, the questioning leads to the fall out.

Now five years later Marty and Fiona are forced back together as their siblings get married. Will they be able to move forward together after clearing the air?
