This Little Piggy Stayed Home: A Pearls Before Swine Collection Stephan Pastis , Jean Z. Lucas (Editor)
Stephan Pastis is rewriting how people think of the contemporary comic strip. In his wildly successful *Pearls Before Swine*, which appears in more than 150 papers worldwide, he shows us just how funny and surprising a sly, subversive comic strip can be.

In *This Little Piggy Stayed Home*, Rat, Pig, Zebra, and Goat - Pastis's own merry band of rabble-rousers - explore the strange and wonderful world around them, a place that looks suspiciously like our own.

Stephan Pastis is an attorney by training and an iconoclast by temperament. A graduate of the University of California at Berkeley and UCLA Law School, he worked as a lawyer in the San Francisco Bay area before deciding to try his hand at cartooning. *This Little Piggy Stayed Home* is his second *Pearls Before Swine* book.

Amanda says

A collection of earlier comics. This book contains one of my now staple jokes: Why did the monkey fall out of the tree? He died. *giggle, giggle*

Polly says

Good comics, but either all or all but one or two of these strips appear in one or two of the treasuries (Sgt. Piggy's Lonely Hearts Club Comic has most of them), which is a bit disappointing.

Steph says

Hilarious!!!!!! Must find more of these books.

Janice says

I just love Stephan Pastis's sense of humor. This is one of the older ones, but you can see how he is developing his strip.

Alex says

this may have been the funniest cartoon i have ever read!

Martha says

Oh Piggie!!!!
