Secrets are not always taken to the grave with the dead. A woman must unravel the secrets of her deceased aunt when she has to settle her aunt's estate. She will uncover more than she bargain including a murder.

A bit disappointed in the storyline as it lack something.

Patricia Mccammon says

Won this in a Goodreads giveaway. It was not exactly what I thought the book would be. Sad, but this type of book is not my favorite. For someone who likes the occult and horror stories it might appeal

Doreen Ashbrook says

I am always up for a good ghost story. This book held my interest for the first half, but then became a bit tedious after that.
