Chase Cassia Leo

Larissa Jacobs' financial debt is climbing after a failed attempt at becoming the next big thing in Hollywood- and now her roommate has asked her to come up with the rent by the end of the weekend or she'll be out on the street. But her roommate soon takes pity on her and offers to help her get a job working with him for an escort service. Larissa's first client is Senator Chase Underwood: gorgeous, married, and the current presidential candidate. Will his penchant for sexual domination destroy his prospects of world domination?

This is the first short story in the Power Players Series.

Christine says

Why am I going to continue with book #2??

Each book in the series is 40 pages, so you just hope things will change for the better.

Gina says

I really enjoyed this erotic short. In a small amount of time I was intrigued by the main characters (Larissa and Chase) and I wanted to immediately know more about their background stories. The writing was clean with no typos to be found. I gave it 4 instead of 5 stars because I wanted it to continue!! Hopefully the author has the next part coming out soon!

Heather says

This is the first part of this novella.

A quick hot teaser.

Larissa's first client is non other than presidential candidate senator Chase. Easy first night leads to surprise visitor and a lesson the next day. The date was hot and sexy and it ends with a proposition.

Just enough to make you want more.

Warning adultery but marriage only for show so questionable depending on your views.

This was a freebie teaser so well worth the quick read.

Duck says

I clearly overlooked the fact that this was a short story so I was very shocked when I reached the last page.

Chase is a quick and steamy read from start to finish. It left me wanting to know more about the main characters Larissa & Chase and how things are going to work out between the two of them.

Hopefully there is more to come and very soon.

Marie says

Does this even need explaining? It's just a few pages of smut. Like seriously? It was pathetic and the smut was bad. Not because it was written badly, but because of how things we're just thrown together. I seriously couldn't care less, this was just .

Great I read this book looking for a quick little read that wouldn't necessarily suck me in and it did the exact opposite... Lol.

Larissa has loans stacked a mile high and a job that isn't helping. She seeks out a new position with a high profile escort service and quickly becomes the object of a very important man's attention.

Senator Chase Underwood is a man that gets what he wants, and his eye is currently on Larissa. His busy life preparing for his campaign for presidency has left him very little time to indulge in the pleasures he seeks. With a life planned out before him (complete with a hired wife), Chase searches for a woman that can and will bend to his needs (on a personal and professional level). The search stops when he finds Larissa and she's more than willing to join the campaign as his personal assistant and more.

The chemistry these two share in book one is just the tip of the iceberg. Things move pretty fast between them but the details, heat, and development doesn't suffer in the writing. Chase states exactly what he wants and goes after it, while Larissa stumbles along for the ride. It'll be interesting how their story unfolds, and if feelings will develop on either side.

This freebie offered a glimpse into book two where Chase and Larissa continue their new relationship and now I'm hooked! Again, short stories like these pull me in and then I'm hooked. I can't wait to download the entire series. I only hope that the story continues to get better and not fizzle.

Strange...nothing to be excited about...

This review is from: Chase (#1) Erotic Romance (Power Players Series) (Kindle Edition)

I didn't quite connect to any of the characters, besides, am not a fan of any political corrupt and nonsense drama. This is boring and I don't see any promise of it getting any better on the next books, no strong plot and quite boring...it seems like it's just another way of the author finding a way to prolong this nonsensical story into money making series. Lucky me, I didn't have to pay for it, it was free! So I can't really complain, right? it's like getting free lunch, just didn't enjoy it and now having an acid re-flux :(I definitely would not

be reading the next books.

Beth Evant says

This book is short - extremely short. It has been on my Kindle since January 2013. So, I didn't even remember what it was about. It has been so long since I'd read the description. I read it in one sitting. I will not be moving on to the next book because I didn't care for these characters.

Chase is a senator running for president of the United States. He is married even if it is for appearances, what type of woman will willingly be the second lady in a man's life. That showed weakness to me and made me dislike Larissa. She is going to work on his campaign so that she can get paid, but she is also there to satisfy his sexual needs - WTF. That's prostitution.

Larissa is an escort, trying to make money to pay some debt. They have a sexual encounter as soon as they meet. That turned me off from this book. There was no sexual tension and no build up to their physical relationship.

All, in all, I didn't enjoy Chase and Larissa.

Grace says

2,5 stars.....The plot just doesn't work for me. She's a first time escort, he's a married senator. It's insta-love, affair, then she's his assistant working for his campaign. I think the character's need better development, and time to build up to relationship/romance part of the story.

SPOILER FREE REVIEW

"I've never met anyone as fiercely loyal and trusting and beautiful as you, Larissa. I want the world to know not just that I love you but that you love me, because that's what makes me the luckiest bastard in the world"

First let me start by saying, the reason I read this was because I just finished the Luke Series by Cassia Leo and I had to read this also. These series are great, they are really quick reads but only because you get sucked in from the first sentence and don't put it down until its over.

LOVE, LOVE, LOVED THIS!!!

Larissa is in her early 20's and moved to L.A. to become an actress. After not getting her big break she picks up small side jobs. After losing her last job as a children's party entertainer, she resorts to becoming an escort for Black Tie Escorts where her roommate worked for 3 year. The only reason she takes the job is because if she doesn't start doing something she won't be able to pay for her student loans, debt and even rent.

She knew her first day at work was going to be someone with a high profile client but she didn't expect it to be Chase Underwood, the 39 year old Senator, Presidential Candidate and MARRIED Chase Underwood!

She quickly finds herself as his new Personal Assistant for his Campaign with LOTS of benefits...and I can't stress the work LOTS enough!

"When life hands you a precious gift, wrapped in a flashy bow, sometimes it turns out to be a boxful of lemons"

With Chase being such a high profile person, their "relationship" has to remain a secret. With reporters and journalists everywhere, someone is bound to figure something out.

Chase and Larissa's odds of being able to stay together don;t look good....is their love for each other strong enough to last??

Chase was so sweet. You want him to have everything and even though you want to yell...JUST GIVE IT UP FOR HER...you know he can't do that. Not just anyone can get the chance to run for president. He deserves to get what he wants and has worked for 10 years to get also. It is all just so bitter sweet!

Also, let me tell you...this book was H.O.T., hot, hot, hot!!! Chase....a VERY generous man!

Oh, I can't forget to mention Drew...He is a secret service agent that is always with Larissa and oh boy, I fell for that man!! YUUMMMMMY!!!

The entire series is told in Larissa's POV. I would have loved to hear what Chase was thinking in a few parts but it really didn't change by opinion at all.

Cassia Leo really captivates her readers from the start! She has a full length novel coming out soon called Relentless and I must say, I will be reading that the day its out, CAN NOT WAIT!!!

I wont be casting this one on my own because all the covers show pictures and I really like them as the characters...they are perfect!!

See, they are HOT!!!!

Dede says

I have to say that i'm a bit disappointed...because IT WAS TO SHORT :((

The story is super great. Even it resembles a lot with Fifty Shades i still love this story. The power and all the actions. I love Chase. I love twisted powerful man. :)) I know.. i'm a maniac, but i can't abstain myself. Anyway, I know that you will read this book, and don't have to tell you how great it is. You will read it and you will became addicted. And will beg for more, even when you will finish reading all the series. :)

Cassia Leo is a master genius. And i'm so in love with her books.:)

***Dee's Reading Time Matters says**

My, my, my a hopeful and handsome presidential candidate, Chase Underwood hooks up with a new escort, Larissa Jacobs and everything goes up from there! No, Underwood is not a "Donald R. Trump!" Chase has class unlike the Trump!

Larissa:

"Money will make a person do crazy things; like standing in front of a hotel waiting to be picked up for your first job as a professional escort."

Arlene says

Larissa Jacobs takes a job as an escort to pay down her student loan debt and try to buy some time as she attempts to make a name for herself in Hollywood. Her first job is with Chase a Underwood who is a high profile politician and Presidential hopeful. He makes her an offer she just can't refuse.

Super quick and fast novella and has me mildly curious where this will lead... So on to book two.

TORI says

2.5 "Meh" Stars

It was okay, but now enough to make me want to continue the series.

Jacque Talento says

This is a very short story that just needs a little more detail.

Larissa is in major debt and needs to come up with her rent. She's been offered a job as an escort. Her first client just happens to be Senator Chase Underwood, the current presidential candidate. He offers a position in his campaign and fireworks could possibly ignite for them.
