Extra Nutty! Even More Letters from a Nut! Ted L. Nancy , Jerry Seinfeld (Backword)

New heights of hilarity are exhibited by the man who can't stop writing--the author of the bestselling Letters from a Nut. Nancy skewers institutional and corporate America large (Macy's) and small (the Visitor's Bureau of Helena, Montana) as his deadpan letters elicit responses that are post-modern humor at its best.

I had started this after reading the first one, Letter from a Nut, but it got put on the shelf and forgotten... Now I remember why. The first book was very funny! This one, not so much. Had I not read the first book, I probably would have enjoyed this one more. But even on its own, this book became really repetitive very quickly and I got bored long before it was over.

I loved the Book Extra Nutty! Even More Letters from a Nut! This book is by Ted L Nancy. This Book is even based on true life! The book is about a man named Ted L Nancy and he is a COMPLETE NUT. This book is a very interesting. The story is about these INSANE weird letters that Ted writes. The people who ted is sending letters to ACUALLY WRITE BACK! This is a VERY FUNNY book that is 224 pages. Anyone that Likes A good Laugh should Read this Book!!!!!!

This book is hundreds of pages of the equivalent of crank calls, but actual letters that were sent to actual businesses by an actually funny person. The usual formula is "Dear [Hotel], I need a room at your place for [actual date]. I am a person with [bizarre habits]." The return mail is also printed.

It sounds like it would get old, and it does a little, but you will also probably cry with laughter and feel sort of ashamed of it at the same time. The one that got me the worst/best:

"Dear Oscar Meyer,

I want to inject ham into me."

And it goes on.

Michelle says

Not as funny as the first.

Phil says

not as good as the rest, but that's why its the third installment

As the title makes explicit: this book is a collection of letters. The format of the book divides the letters into subject-matter, and the letters are presented from written to reply. The idea of these books (there are more) is interesting: write letters complaining or pointing out non-existent issues and see what happens; there is a bit of chance, and it is this chance that makes the book interesting.

However, Barry Marder (Ted. L. Nancy) seems to lack some imagination. The letters are short as are most of the replies, and the issues range from interesting to lack-luster. The book reads like a reality show about nothing (Seinfeld) on paper, but unlike Mr. Seinfeld, Marder did not seem to pull off the stunt.

There are a few moments of interesting comedy in a few of the letters, but they seem to come at the cost of frustration and even anger of those being abused; Marder seems to find joy in causing others frustration. Perhaps if this is your cup of tea, this collection will be up your alley. However, I think that there is enough frustration and irritation in the world, and this book does nothing but fuel the fire.

Low-brough humor done at the expense of others.

Silly letters to businesses. Funny read.

Kristina says

One of the funniest things I've ever read. I was literally crying as I read some of the letters to my students.

Ted Nancy (rumored to be Jerry Seinfeld in disguise) send whacky letters to companies and prints both the letters and their replies. His imagination is nothing short of genius.

Favorite letter? A letter sent to a grocery store chain complaining that the sponge he purchased from their store is haunted. Brilliant.

This is another nutty book by Ted L. Nancy. It's full of crazy letters that he has written and some of the answers to those letters. My favorite one from this book is the one where he tells a hotel he wants to bring 1,000 butter pats and crank up the heat in his room while he's there. That one really cracked me up!

Kate says

I think my favorite was the letter to the grocery store chain complaining about the haunted sponge he bought there....and they forwarded his concerns to the manufacturer!!! The serious responses are the best part of this whole gimmick he's created. Some of the letters are a bit too ridiculous, but most are perfect gems of casual craziness. He makes it look so easy!!!

Don Murphy says

The letters written 'by ' Nancy can be pretty funny. The inquiries are pretty odd and the requests, outrageous. However, the responses from the companies tend to be stock letters, so why bother reading those. There is a series of exchanges which is pretty great, but for the most part these are just one-time letters.

Extra Nutty-Ted L Nancy

Captivateing, Unlike any other, And most of all Hallarious!

This book of comedic post letters is a break from the stress of daily life. The author Ted L Nancy can really keep it fresh with his jokes every letter. He writes to businesses, famous people and advarage joes, product publishers, hotels and gives outrageous requests. By far the best part of the book is when such people and establishments reply to his letters. His letters topics range from aquatic tater tots to gnomes, so who wouldnt love this book

I think the age range for this book is about 11-15. The way it's written isint chalangeing, but some of the references get a little dated, witch is expected from a book that was published 1998. This so one of my favorite books now and I'm very glad I have read it, it's my kind of humor.

Suleman Ali says

'Extra Nutty' is more of the same from the author of 'Letters from a Nut'. Once again its more of the same and again it was funny and enjoyable.

However I didn't enjoy it quite as much as the previous books and i suspect this is simply because its a little too similar and hence i may be getting a little bored. Maybe I shouldn't have read it so soon after the previous book.

Kasey Wilson says

I have had this book since high school. I remember thinking it was the funniest thing I had ever read. I once thought the same about Heathcliff comics.

There are some very funny letters, but as a whole, not as funny as I once thought.

Kinda like Facts of Life.

Like the Funny says

So funny at first. Getting repetitive now.
