#### **Good**

I didnt like how advance Zander was. One year olds don't talk like that and I was confused about her fear of sex since there seemed to be a sex scene their first night at the alpha house

---

### **Jasmine says**

Better then the second one!!

Liam and Maddie's story is quite a beautiful one about over coming hard ships and facing inner turmoils.

Liam thinks his siblings are crazy for the way they act around there OTM, but when he catches his mates scent in a crowded restaurant he can't stop until his found her. The thing is, she looks just like the girl he used to love, who went missing 8 years previously.

When Madelyn was horrifically abused at a concert when she was 16, a part of her died. She couldn't face her family or friends and instead started life anew, where no one who she was. But when she catches sight of a man who brings back memories of her childhood she does everything she can to stay away.

I think this story was better written then the first two, and I thought the characters were brilliant.

A slight hiccup in the book was the descriptions of the one year old- I don't know of any 1 year olds that can speak clear words in understandable sentences like 'Tank you unkle leem' on their first birthday ?

This is the third book in the Westin Pack Series. You do not have to read the first two but I highly recommend that you do, they are good stories and give you background on this book. Liam is a younger brother to the Alpha. He is young to be the CEO of the Westin Foundation at twenty-four years old. He had a secret crush on his twin sisters, Lily, best friend years ago. Tragically the friend, Madelyn Collier, went missing as a teenager eight years ago and is presumed dead.

While visiting a restaurant in town, he smells something wonderful and comes face to face with a woman that is his true mate.

Madelyn or Janie as she is known now, knows that it is a risk to come into the Westin Pack area where she might be recognized. She has hidden for the last eight years. She is carrying many secrets. Maddie/Janie has PTSD from a rape and beating then left for dead at sixteen years old. She has a reminder of that in a son, Oscar. Her adoptive parents Jacob and Anna are traveling through the area on the way to a conference. They have no idea that Maddie/Janie is a wolf shifter. Her wolf has been so suppressed due to trauma and medication.

This was a sweet and touching love story. Liam is patient and kind. Madelyn/Janie is fragile and has not come to terms with her assault and rape. They journey toward rediscovery and that they are true mates. Perhaps they can heal the budding relationship. But what if Maddie's wolf is gone, can they bond anyway? Then we find out about the Guardian society of Vendari? Who are these people and what do they want with Shifters? This adds a whole new dimension to the Westin Pack. We already have a Pack War with the Bulari's.

So many wonderful characters, compelling story and so action packed it is a page turner. This is not a story to be missed. Now I am looking forward to the next book.

## **Deb says**

Get ready for another PNR page-turner you won't want to put down! I don't know how this author manages to make each new book even better than the previous fantastic must read but she exceeds my expectations every time! That's why IMHO we need to be able to add a bonus star & if I could, I'd give 6 stars to "Forever Mine" too :D ... This 3rd novel is now my favorite in the Westin Pack world and has some great new characters, plus many returning ones :) These books don't have to be read in order, but I'm glad I did... Always unique plots, plenty of suspense & some hot romance ;) Amazing attention to detail and witty dialogue will keep readers engaged! I highly recommend this to all adult fans of fiction, so make sure your e-readers are charged or plugged in ;) I volunteered to read this without any outside influences, so this is my honest opinion & I absolutely can't wait for more!! But I will of course ;)

### **Good**

Oh sweet Liam! I love these Westin boys! I certainly didn't like Maddie's trauma and story. I'm glad there were no specific details about it because the general information was more than enough. Outside of that part

I enjoyed Liam, Maddie and Oscar. I'm really interested in Cole. I hope he gets a story! He's such a naughty boy but smart, strong and witty.

Also, the plot deepens with the human group kidnapping shifters and obviously we will run into those 6 tigers at some point. I need justice for full closure.

## **Theresa says**

Now that his older brother Kyle has become Pack Alpha, Liam Westin has to take over as CEO of the Westin Foundation. It's not what he expected to do so soon, but he's ready. Then a ghost from his past appears.

Kyle is really a nice guy and Oscar is adorable. They're going make a wonderful family when Maddie gets over her fears.

Just a little too much backstory. I almost skipped a whole chapter of it.

Footnote: 1) Why does the girl on the cover look so emaciated? They need to feed their wolves better.

2) If the members of the Grand Council have given up their own packs where do they live? 2) I grew up in the Bay Area in California and know all the places that they visited so it was great to read about them since I could really see in my mind. The sea lions are especially wonderful.

Fave scenes: the private tour, the swimming pool, Oscar meeting the wolf and riding in the Corvette.
