### **Missive Maven says**

The bean trees by Barbara Kingsolver (2001)

---

### **Jennifer says**

As always, anything by Kingsolver is worth reading. Read this on a trip from New Mexico to California where at just serendipitously happened to visit Death Valley and the Hoover Dam, both featured in the book. Would also be a great read while driving in Oklahoma if, like me, you like to tie what you are reading to the place you are.

---

### **Tara says**

After reading a slew of mysteries and thrillers it was hard to read a book simply about a woman crossing the states. It was a little more complicated than that, but a little slow. I did appreciate her unfailing need to help and see the atrocities that she saw. And the friendships were real true friendships./

---

### **Janis says**

I thought this book was interesting, but I kept waiting for something major to happen with the story.

---

### **Landon Regalo says**

Home Land by Barbara King solver is a good book so far, it started a little slow. It is interesting to read about an eleven year old girl that travels the path of her grandmother to store her family history about the Cherokee Bird Clan. looking forward to see how it turns out, and hope it picks up some momentum. I liked how the book was full of short stories. If you got board of one story you could read the next. This book was good but is not my favorite.

---

### **Stephanie Berry says**

I enjoyed this sequel to The Bean Trees and felt it brought the story forward in a believable sequence of events that I didn't anticipate, but once into it, I became eager to see how it all transpired. It was a page-turner that I couldn't put down.

---

**Smitha Murthy says**

I picked this up because I liked *The Bean Trees* so much, but I was disappointed in this. The quirky voice of Taylor is gone, to be replaced by a lot of back and forth discordant voices. I lost interest in this...

---

**Rebecca says**

How I loved these, Barbara Kingsolver's earlier books, until I read "*The Poisonwood Bible*," which blew them out of the water!
