Sara Sherzad says

Don't like short subjects especially not deep ones!

Don't know the author well so I didn't trust everything said though nothing new!

There were parts which I liked, sort of reminder for me! But if our Religious men and sheikhs remain this way they will change nothing!!!!

I get that he was talking from heart to heart but for God's sake when will we stop trying for ordinary and go for excellence! I don't want to judge anyone but there is so much pain in my heart for my religion that those sort of books make it worse!!!

Again I am confirming I don't know the author so I don't judge him it's just the book didn't meet my expectations.
