Sailor Moon, #2 Naoko Takeuchi

One of the most-beloved of all Japanese manga titles, Naoko Takeuchi's Sailor Moon has enthralled millions of readers worldwide since its debut in book form in early 1992. When Usagi Tsukino adopts a stray cat, she gets more than she bargains for. The talking cat, Luna, informs Usagi that she is actually Sailor Moon, a magical princess from the future and protector of the Solar System. With the help of her new friends, the Sailor Scouts, and the mysterious Tuxedo Mask, Sailor Moon embarks on a quest to save us all from the evil powers of the Negaverse.

I might have to revise my star ratings as I go. I'm still currently torn between thinking this a skilfully written and fun romp and a somewhat averagely written and fun romp. I haven't worked out where the problem lies - the story is swift, maybe too swift. It's light of heart but for some reason I'm craving more depth from it. It's probably doing all you could ask from a manga primarily aimed at young girls, Usagi is coming to terms with being a magical girl, she feels emotions of fear, laziness and lust that she must contend with and overcome if she's going to beat those pesky dark forces and that's definitely an interesting angle. But it just keeps leaving me wanting more; more story, more depth, more Usagi time. Maybe I'm asking for too much?

One of my all-time favorite series. The gateway series to getting me into anime and manga! The artwork impressed me so much, and the story was fun. It is still one of my favorites both because it's well-done, and for nostalgia reasons.

Welp, my Christmas gift to myself was buying allllllll the Sailor Moon mangas. Ya girl is R E A D Y for a marathon read.

Lainey says

Honestly allllllll the feels with this one. Darien and Bunny were my original OTP.

*Disclaimer for this series: The nostalgia is so real. I'm reading the '98 English translation versions because that is what I grew up with. So as I re-read this, essentially all of them will be 5-star because 7 year old Lainey won't allow me to rate them any less. So if you're looking for a critical review on these volumes, lol, you will not get it.

Even though I enjoyed this, I think I preferred the first installment, on the whole. This one for me, just seemed too fast paced, and that resulted in a half developed plot. I'm not sure, maybe I expected a little more from this.

The cover to this book is beautiful. The colours are rich and vibrant, and the artwork on the cover and throughout the book are wonderful. It is obvious such care and skill has been taken.

Even though the plot is thickening in this book, I don't think the individual characters are receiving enough attention. There were new characters introduced in the story and now I'm eager to learn more about them.

Overall, this was what I expected, light-hearted, cute and great artwork.

I never knew how Mamoru showed his true identity to Usagi so it was interesting and I never knew sailor Venus posed as Princess Serenity as a bait so they could buy some more time.

It was a very pleasant reading and reminded me of how much I loved it when I saw Sailor Moon for the first time when I was just 6 years old.

Wrenaria says

No one can accuse these books of moving too slowly. In this book we discover the history of the scouts, the identity of the princess, and Tuxedo Mask's role in the story. I'd forgotten things progress so quickly in this series. I found this book to be much more interesting than book 1.

I feel like there's always something missing and unexplained maybe it's just me but the manga is pretty confusing sometimes.
However I love the drawing and the story as a whole.
