The Letter

Emma Wildes

The Letter Emma Wildes

Jared Warren is a wealthy duke, a peer of the realm, and he cannot have his young wife recklessly embarking on one escapade after another--no matter how charming or passionate she might be. However, trying to rein in his beautiful bride proves to be both a challenge...and a pleasure. Patricia is madly in love with her handsome, autocratic husband, but somehow can't seem to stay in his good graces. Behind closed doors they find erotic fulfillment in each other's arms and Jared is a wonderful, inventive lover, but he is also a stickler for propriety in all other situations...

Sensuality Rating: SIZZLING

Genre: Historical / Regency

Length: Novella (23,500 words)

5 Flags: "Emma Wildes has once again penned a vibrant Regency story. Each word appears to be carefully chosen to develop the characters of this story as well as the atmosphere of the time period. Patricia's teasing and wry sense of humor in one so young as well as her ability to let go of her innocence and take pleasure in her sensuality make her an endearing character while Jared's sexual experience and devotion to his young bride make him an ideal husband. Ms. Wildes' terminology and mastery of the English language immerses the reader into the time period. The possessiveness and depth of emotion shared between Patricia and Jared is heartwarming. This story is very sweet and it brought tears to my eyes. *The Letter* is a definite must-read as is my experience with all of Ms. Wildes' books!" **-Kerin, Euro-Reviews**

5 Stars: "*The Letter* contains several very hot and amazing sexual encounters between Jared and Patricia, but it also boasts a truly interesting and exciting plot. The characters are well developed; we are privy to their thoughts which show growth through their conversations with confidants who are described only well enough to show their loyalty. Jared asks his mentor to query his own wife as to what a woman desires most as a gift from her husband. Patricia determines to use her newly discovered sexual power to ensure her husband not only falls in love with her, but recognizes her as his closest friend and confidant as well as the only sexual partner he'll ever desire. There is intrigue in the guise of a spurned lover from the distant past determined to do away with Patricia. When the result changes Jared in the most delightful ways, his new attitude and actions cause the plot to develop in the most delightful ways also. The storyline is clever and enticing, very well written, with sex scenes that are interesting as well as arousing, making *The Letter* a book that stands out far above the rest and a pleasure to read." **-Karen Haas, Just Erotic Romance Reviews**

4.5 Blue Ribbons: "With her captivating prose, Emma Wildes intimately describes the sensual awakening of Patricia, Duchess of Tellbourne. Though for Jared's part, nothing can quite prepare him for the overwhelming pleasure that he gains from tutoring his wife. It would seem at times, that both our heroine and hero are being awoken to new experiences and intimacies. However, as the Duke and Duchess revel in their newly found passions, a dark specter looms over them in the form of the Duke's former mistress, Lady Alicia Black. Consumed with raging jealousy, Lady Black sets out upon a course of action that is destined to change forever the lives of all those involved. After reading just two of Ms. Wildes' ebooks, I am already a huge fan. *The Letter* contains a rich and vivid style of writing, with intimate descriptions that are the signature mark of this talented author. Ms.

Elaine says

A really well written sexy read. I thoroughly enjoyed reading this book. Although it was a short story, the characters were very likeable from the beginning. I, also, would have loved it to be a longer novel.

Tara says

This was a novella and a short, easy read. It seemed like I had just gotten into the book and bam, it was done. Jared and Patricia were likeable characters and it was a sweet story. I can't help but wish it had been a full novel.

Sune_friends4ever says

too much info for me!!!!

Maura Rossi says

Opening scene, soooo hot.

Rachael says

It was short, although a good story. It was very steamy. However, I wish it gave more background...prologue anyone?.

Lisa says

A true "romantica"(romance/erotic). The story is good-a duke who wishes his wife to act properly in society and his young beautiful wife who is unconventional for that time. The sex scenes are wonderful and hot without any of the disturbing cross-the-line stuff that is often in typical erotica (nobody is chained up, degraded, no third parties are invited into the bedroom) and they are clearly a loving couple working through the early getting to know you period of marriage.

Cheesecake says

Patricia and Jared and his psychotic ex fling.

It's mostly a cute bit of fluff. I liked both MCs and they were fun together. He's kinda stuffy and full of his consequence being a duke and all. She's a bit silly but she is young and has a warm heart. She finds a forbidden book in a bookstore about how to seduce your man. So she starts taking the courtesan-author's advice much to her husband's surprise. The crazy ex OW was way too OTT though. But that was just the last bit of the story.

Nunung says

I think this is not a full story, only a part of it.

No prologue... no setback scene how Jarred met Patricia and their courtship, who was Patricia and why she was ignorant to society, such things like that.

Maura says

Jared is a Duke and his recently acquired Duchess, Patricia, is a little on the wild side, stirring up gossip and being all hoydenish. He's pretty taken with her and he at some point assumed she would make a good duchess. Up til now they've had a pretty standard sex life - darkness, gentleness, pleasure but not passion. So after hauling her away from the theatre one night, he spansks her in the carriage, sees how much she likes it and decides to initiate her into some serious passion.

Patricia in the meantime is in love with her husband and determined that he love her back - so she decides to use her newly taught lessons to make that happen. Jared was kind of a controlling ass, but he wasn't too bad. Patricia was blah. I couldn't understand why he would be so taken with her when he basically never paid attention to her outside of the bedroom. And while I understand that this was a borderline erotica/romance, it really emphasized the romance and love between the characters. My problem however was that their interactions never felt romantic...only sexual. When two characters do not kiss during a sexual episode (repeatedly) then it's just sex to me. Maybe it was the fact that they were already married, the author felt that the kissing part of the wooing was unnecessary, but it just felt like everytime they were going to have sex he rucked up her skirts and laid into her without ever kissing her. That bugged me a bit.

Maxi Bolongaita says

I am in awe of this book.
