Sterek

"So this is what Stiles does. He lies in Scott's bed and waits for Melissa to say she's found someone to get it out of him, to cure him of the wrongness and the bad, and he dreams.

God, he dreams.

He dreams of fire and swollen bellies and that scene in Alien, of giving birth to jackals through his urethra, the whole horrific nine yards. His head is a terrible place to be, he can't imagine his stomach is much better, why anyone would want to put a thing inside of it."

I was honestly scared to death to read this one. You give me a mpreg Sterek and my brain sees this.

This wasn't that. At all.

*"The thing is, aside from all the violence and glaring consent issues, Stiles would have done it willingly."*

I was warned about the beginning and the beginning was why I didn't want to read it. I was actually ok with the beginning.

I think I was prepared but I also can deal with bad stuff when it is out of your control. No fault.

This story has so much. I don't even know where to begin with any of it. So much struggle and time and conflict and pain. So freaking well done. So much hurt.

And then healing for the right reasons.

And then healing for the best of reasons.

Magic. It happens and, *"It's not inherently evil, you know. There has to be...something."*

Brilliant, brilliant, brilliant Sterek.

### 4.5 Stars

Stiles and Derek find themselves the victims of a magical spell that just so happens to result in conception. There's hardly a moment of fluff that isn't overlaid with fear, exhaustion, and bittersweet longing. This does not romanticize the situation that many Sterek mpregs often do, and it is gritty, harsh and realistic in portraying it as the unnatural thing it is.

I've got to say that this is one impressively well written fic that allows Stiles to truly shine in all his

wonderful, spastic, smart, snarky glory. What hits especially hard is Stiles's vulnerability; the shit situation that he finds himself in with really no support from Derek (which to be honest, is both their faults). He is acutely aware of his shortcomings, knowing that though he's mature beyond his years due to supernatural circumstances, he is in no way prepared for the teen parenthood *smackdown* of epic proportions.

So I did hurt mostly for Stiles here. I'm not saying Derek didn't go through his own emotional anguish but we only get impressions of Derek - his anger and hate (understandably) at being used as a pawn for someone else's agenda. We can only draw upon what Stiles sees or interprets. So Stiles's pov is particularly painful and potent, highlighting his insecurities, desires, jealousy, and hope. That "want" is so very palpable as he tries to be a good dad, tries to make something of himself, and to be a family with Derek.

Again I can't expound enough what great writing this was. As the story unfolds, it is written so perfectly that one experiences each and every emotion Stiles has as he goes through it. Is that cliché?? If it is, then this was one of the best at evoking such feels from me, and though it wrung me dry, the journey was definitely well worth it.

*Thanks Rosa and Otila for the BR support!*

**4.5 stars** *[edited to increase star rating as I am still thinking about this one today]*

Ok, full disclosure, I am not a wuss, but I almost couldn't read this after reading the beginning - it was so painful and awful and terrible to read - seriously, that's some heavy shit right there! BUT at the same time, really well written and compelling...so after asking around to see if the heart-wrenching stuff at the beginning is worth it for the story, everyone told me to carry on.

So I plunged back in, and although for a while there it was really quite angsty, it was always interesting and kept me reading...gradually the tone changed through the story to become more and more hopeful and whilst there isn't actually romance through a lot of the story, there is a definite deepening of friendships and relationships, actions showing caring and a slow build towards something more.

There's also a pretty good ending that wraps everything up without being TOO neat, and it leaves you knowing there's a HEA in store. This was definitely one of the better-written sterek fics I have read, with a well thought out plot and everyone is nicely in character.

It wasn't perfect, there are quite a few things I can think of that I perhaps would have liked more of, but somehow they are not important in the overall scheme of things when thinking about my enjoyment of this fic. This is a definite sterek favourite of mine now.

I have a few other things to write, but I will come back and edit this a bit when I have had a chance to think it over, as I am literally typing this straight after finishing. This is also probably closer to a 4.5 stars - I will think about it overnight and might change the rating.

#### 4.75stars but it basically might as well be 5

This fic just gets so much win from me you don't even know! I was so worried going in to this because in all the time I've watched the show (currently in the very beginning of S3b + so much rewatching of S1-2) Sterek shipping hasn't been high on my list. Actually, scratch that. While I've seen the appeal, it's barely been on my radar this whole time. Until now.

I can't even express how much I just love this fic (although I think the fact that it helped me to really appreciate the Sterek says a lot), so I'm just going to make little lists of all the win things and the unimportant reasons why it falls just barely under a full 5stars.

#### All the Win:

- That title? Perfect!
- The characterizations? So good and very believable (the first TW fic that made Stiles feel *in character* from what I've read so far ~~one of them sorta doesn't count as he had literally 2 lines throughout, so not much to go off of~~)
- love the writing style like wow gimme more of this author now
- well done Sterek slow-burn is fantastic
- I now totally ship Sterek
- brief hints at possible (view spoiler)
- Scott/Allison = total Romeo/Juliet and I forever ship them and love fics that show them off well, however briefly (omg why they so cute?)
- great dad Sheriff Stilinski
- that thing inside Stiles from the summary? CUTEST THING EVER OMFG!!!
- this story gave me so many smiles all throughout omg it is just so cute!
- Scott's reactions alone gave me so many smiles
- current fav TW fic is fav
- edit: Peter's role in this fic was imo really well done and I won't say a thing more but I loved it

#### Unimportant not-full-5stars reasons:

- Lydia gets no screen time and is only mentioned for past stuff ~~seriously? Lydia so could've helped Stiles with all his tough times~~
- I don't care about Sterek's negative feelings toward him, I *want more Peter!*
- sequel, gimme!
- biggest reason of all: (view spoiler)
- I still had so much tension for the second half after (view spoiler)

#### Notes:

- I really want more from this author now but she hasn't written any more TW and that makes me sad
  - there are two fanmix soundtracks for the fic by Birddi and sk\_lou that I totally need to go listen to
  - ~~ties in to first spoiler marker~~ (view spoiler)
  - does anyone have any really good Sterek (or even non-Sterek, but esp Sterek right now plz) mpreg fic recs? I could really do with some more after this
-

Sterek, and finally an mpreg that I really found worked in the details, that wasn't stereotypical and never lost sight of the fact that they were both guys. I enjoyed this story of what happens when Stiles magically, unwantedly, ends up carrying Derek's werewolf baby. There is non-con, a lot of non-communicating (this is Sterek, after all) and a few loose ends, but it was very well done and pulled me right in.

## **Lori says**

I adored this story, I'll review soon when I'm thinking coherently again.

**"Stiles was a scrawny eighteen-year old scrawny virgin who takes strolls up and down the kinsey scale like it's a strip mall, whereas Derek is a twenty-five year old werewolf parading as an underwear model. So yeah."**

Okay. Wow. The beginning of this fic is possibly one of the hardest I've read. The moment we all want, Stiles and Derek 'getting together' is *so* far from how we imagine it. When Derek accuses Stiles of manipulating him and Stiles says

"Then forcing you to bend me over this bed to use me like a convenient hole would really be at the bottom of my list of fun ways to lose my virginity."

what should have been a beautiful moment of love and trust is anything but...and that was only the beginning.

Even in this darkest of times though, there were glimmers of light. Derek helping bathe Stiles and taking some of the physical pain brought tears to my eyes. They were both struggling with the ordeal, both bearing their own guilt for what had happened. Then, in true Derek fashion he promises to get whoever had done this and tells Stiles to stay away and stay safe. And of course, in true Stiles fashion, when he realises he's pregnant, he deals with it himself.

Though at first this is dark and hard, true love shows through. Of father to son. Of fathers to daughter. Of pack, of friends, the love of a baby girl...and of course of the love between man and man.

I absolutely loved this fiction. I really, really did.

### **OH MY GOD.**

That was draining and (thankfully) hopeful (by the end). This is dark, and gritty, and I was *on the edge of my seat* for most of it. The hope? Doesn't come easy, and it doesn't come until the very, very end.

TRIGGER WARNING: Rape/Non-Con.

The first part of this is *so freaking hard* to get through. Especially if you hate to see Stiles hurt. But if you power through, and keep sticking with it, it's such a good read. But, wow. It's really, really, hard to get through some of it. Really hard, but so worth it.

**Kudos to you ohmyjetsabel. You sucked me in and didn't let me down in the end. Bravo!**

My first Sterek Mpreg!

I loved it. As other people have said, it's a realistic look at mpreg. Or at least as realistic as a story about a guy getting knocked up by a werewolf can get.

I felt Derek's and Stiles' reactions fit their characters and I loved all the nail biting-angst. Great fic with great writing.

**Thanks Rosa and R for a great BR.**

### **Sandra says**

**4.5 stars** It's a little funny to have this on my 'dub-con' shelf as well as my 'little-or-no-sex' shelf, but it'll make sense once you read. I thought the dub-con was handled *very* well and done in a way that isn't *too* painful for the reader. The book starts with Stiles waking up sore the-morning-after, not quite sure what happened. This allows for the dub-con to be explained in bits and pieces as memory, which makes it a little easier to swallow. Besides that, there isn't any sex what-so-ever until the very end.

I liked the reality of this. I liked that Derek wasn't an Alpha-in-shining-armor who ran in to rescue Stiles. They were both dealing with shit, and not always well. And I liked that there wasn't insta-love. It took a while for feelings to develop, and even as they did develop it was slow and fragile. I liked the way it finally resolved, and felt that was true to the characters typical behaviors and actions. (view spoiler) So sweet and *vulnerable*.

What I didn't like was the reveal of the villain. Wham-bam-thank-you-HUH? Out of left field. There are good twists in books and movies, like *The Sixth Sense*, where once you get the reveal the pieces all start clicking into place and it seems so obvious in hindsight. And then there are bad twists, where it turns out the creepy neighbor that's never been mentioned before was the murderer! This villain was an easy cop-op, they appeared to explain their motives, and then disappeared again into the night. Lame. (view spoiler)

## **Adrianamae, Marco's fan says**

Well though-out, pretty complicated story where Derek and Styles find themselves the father of a child that they didn't want or plan because they were compelled and forced into it.

There's angst and pain here.

There are decisions to make that are not easy, repeatedly.

There are also threats and power struggles with another pack.

But at the end, our favorite couple struggle through and make it because there is good communication. Thank you for that, author.

4.5\*

I loved this fic. The first half of it is fucked up and gave me heart palpitations and I loved it even more because of it. It felt real to me. Stiles's emotional turmoil, Derek's emotional turmoil, Scott's situation, even Isaac's bullshit--if teen wolves were real and witches could cast spells to impregnate young men then this is the way it would happen.

My only minor complaint is that after all of that angsty goodness the end seems a bit abrupt. I would've liked a few more scenes showing Derek and Stiles as a couple. However, this fic is supposed to be the anti-fluff mpreg so I'm probably just being greedy. And what there is is pretty fucking awesome: (view spoiler)

I really, really liked this.

So here is the thing, I just can't wrap my head around mpreg. It should be a lot easier for me to suspend belief given the genres I read but for some reason mpreg is the hardest of all the things for me to accept. The beauty of this fic is that Stiles feels the very same way. This is not all heart and flowers and 'Yay, I'm gonna have a baby!'. This is some fucked up magic that causes non-con sex for both boys followed by 'Get this thing the fuck out of me!'. That made sense to me and because of that all that followed really made sense to me.

This wasn't actually as angsty as I thought it was going to be. It was dark but it wasn't in your face trying to slap you up the side of the head with all the feelz all of the time. Stiles and Derek's lack of communication was kind of frustrating but I got why that lack was there and seeing all the bonds form was very lovely, even when it was sad. (view spoiler)

Again, I really enjoyed it. Tragic and hopeful.

## **Lilia Ford says**

Well I was specifically looking for a non-fluffy m-preg and this absolutely fit the bill. Instead of the usual cutesy, humorous picture of overprotective pack-mates who do nothing but pamper the lucky pregnant person, this story depicts an unwanted teen pregnancy, the result of a form of magical rape, giving it the vibe of a horror story. It's extreme and at times disturbing, but pregnancy can be a time of deep personal crisis for some women, of alienation and fear and utter loss of control over your body. And contrary to all those warm pictures of pack-life, it can be incredibly isolating. This story also came a lot closer to an honest picture of life with a newborn: as anyone who's dealt with colic can attest, it's not all wonder and miracle of life stuff--it's also helplessness, and exhaustion, and at especially low points a sense of utter worthlessness. The joys of parenthood are profound, but for a lot of people they come from a place of intense struggle and personal doubt. I can't help but feel like the fluffy fantasy versions cheapen it. At any rate, I really admire how far this author was willing to go to imagine a different experience of pregnancy. It was brutal, but it was honest.

*4th read: 26-09-2015 (I need more Sterek mpregs.)*

**4.5 stars.** This was so good.

It's not one of those mpregs where Stiles and Derek go happily through the pregnancy together. First of all they didn't have sex because they wanted to, but because they were forced to do it. Then Stiles goes through the pregnancy by himself. He has all these suicidal thoughts, he's hurt and depressed for a long time.

The story is dark and angsty, but it becomes sweeter with time. I don't think it's super angsty, but there are different strokes for different folks. It's also a slow burn and it's really satisfying at the end. I didn't even want it to end. I want more!

Read it!
