Vampiric Assignations (The Protectors)

Sara York

Vampiric Assignations (The Protectors) Sara York

Vlas Von Heildvic sets his sights on Amber Black and will stop at nothing to take her. She is the key to his future, one where he rules the world. The Protectorate can't let her fall into the wrong hands, but Maverick's structured ways mangle the operation, leaving her vulnerable. Once bitten, Amber runs off, scared of what she is becoming. Maverick has to change his ways to save Amber and keep her from altering the balance of power in the vampire world. If he loses Amber to the forces of darkness, the world will forever change, leaving humans under vampire control.

Anais919 says

I believe I won this on LibraryThing. I love vampires and romance. This is a bit of both! Hope there is a series. Maverick is part of the Protectorate which keeps the paranormal populous in order. Vlas is reckless Vampire who want's to rule the world. Amber is trapped in the middle of these to volatile men. She is beautiful, brilliant and wants more. She wasn't expecting to be turned into a vampire to give the world more.

Suspenseful, sexy and scary! Great read.

Alexa says

I love vampire stories and it is a great book. I can compare to an action movie, it hasn't got the most original storyline, but it's well paced, such difficult to put it down, full of action, spiced with some erotics, some bloody parts, great fights, just ideal to escape from the reality for a time.

Ioana says

1.5 stars

*read in super fast forward mode

-hated Vlas

-for someone who supposedly knows how to fight, Amber plays the role of the damsel in distress a lot

-Maverick was ok...ish :))

-the writing style wasn't that incredible either (too many 'awesome' and 'cool')

Kasey Cocoa says

While not the most original plot this was well written with engaging fleshed out characters. I enjoyed reading this and would recommend it to others who enjoy this genre. Read more reviews, author interviews and enter giveaways on my blog.

Jonel says

With this story we see the same brilliant storytelling and captivating writing that we`ve come to know and love from York. This story is uniquely exciting with a well-developed plotline that keeps you on your toes and guessing. Although this story is quite fast paced, it`s never rushed. York has a well put together world of the supernatural that she presents gradually to the audience. Her descriptions vary from dark to light, the contrast highlighting the battle of `good vs evil `going on within the story.

York has created a host of well-developed and unique characters to carry this story forwards. You get to know them quite well and form intense relationships with the major characters in the tale. Some you will love, others you will hate, some you will root for, and some against. There is a character for everyone to identify with in this tale. The character development in this story is also quite unique in that there is no middle ground. The characters are firmly on one side or the other.

Overall, this was a brilliant story that could easily be read as a standalone or as part of the Protectorate series. It was a quick yet enjoyable read.

Please note that I received this novel free of charge from the author in exchange for an honest review.
