kids summer reading

Asho says

I don't find these World of Reading/Marvel books particularly interesting and left to my own devices I would only give this a couple of stars but in fairness to my son S (age 6) I will give this 5 stars because he LOVES all of these superhero easy reader books. Every time we go to the library lately he looks for more of them. He can just about read these completely independently. The girls are less interested (the baby is not at all interested, being only 3 weeks old), but L will still listen to these if S picks one out at bedtime.

Read this to my 5 year old son and he loved it! He loves these books. They are not very long books. Simple reading to help him with his reading skills.
