Patches is a caterpillar sporting all the colors of the rainbow. Follow along as she tries to decide which shoes she should wear and what she should do today. And find out why caterpillars have so many feet!

The illustrations by Ewa Podles are bright and colorful and full of texture. Unfortunately, the rhyming text doesn't flow very well, and there are a couple of editing errors. Nevertheless, this is a cute book that can help your child learn about colors. The story is followed by interesting caterpillar facts.

I found this book during a free promotion.

I read this picture book to my 2 year old on my Kindle Paperwhite. Even without color he sat for the whole thing, which is really saying something for that crazy kid. The pictures were adorable and he loved seeing all the little shoes on the caterpillar. Shoes is one of the few words he knows and says regularly so this "shoe book" was great for him. It did only show one page at a time, meaning I had to read the word page then swipe to the picture. I was worried that he would lose interest on the word pages, but he didn't. I think we can file it as a success for 2-year-olds.

I thought the story was very cute. I loved the different shoes. And I loved the idea of putting shoes on a caterpillar that has so many feet. Unfortunately this book lost a star because I was not impressed with the rhyming at all. The rhythm was not clear, and it changed constantly. Also, many of the rhymes were a HUGE stretch of the imagination. I am a musician and so rhyming and rhythm problems bother me a lot. I still thought it was a cute story, though. Like I said earlier, my 2-year-old loved it. And for slightly older children there were some really cute caterpillar facts at the end. I liked that those were included. And the book was just so cute, I couldn't drop it down more than one star for the rhyming issues.

This is a beautifully illustrated story book about Patches, caterpillar. She is an adventurous, happy and a fun loving little critter. The pictures are very well drawn and so colorful and fresh. The bright smiling caterpillar shares with us all the options it has for the various activities.

Through a simple choice of shoes she manages to talk about doing what we feel in our hearts. Follow your heart, be free and live free are the simple message this book shares.

I really liked the story line where in our simple everyday choice of attire reflects into our actions for all

things in our lives. The pretty six legged creature represents the many options available to us and is a beautiful book for teaching our kids about choices and their results.

Did I mention the colorful pictures? Yep, I loved them; wanna make a few posters to hang in my kid's room.

Pick the book and share fun and learning with your kids.

Patches, a happy-go-lucky caterpillar, lives in the forest looking forward to new adventures each day. Because a caterpillar has six pairs of feet, one of her important choices is to make the proper shoe selection for her daily explorations. She might choose ballet shoes, sneakers, hiking boots, rain boots, or fluffy slippers at night. What does Patches do when she cannot decide on one adventure?

The illustrations in this book are adorable. They are colorful, bold, expressive and present well on a kindle HD fire. Tale is written in rhymes which are crisp and sharp. What a wonderful choice for a bedtime story or classroom read aloud! Recommended for toddlers, preschoolers and kindergarten readers.

Who can resist a book whose title rhymes with the author's name?

Cute, fun and even educational!

Adorable illustrations show all the possibilities and choices Patches can make for daily activities. Fun rhyming passages stimulate a young one's imagination.

I didn't think caterpillars could wear shoes. But a beautiful caterpillar named Patches sure can.

For me I would think this would be more of a girly book just because it has a caterpillar and her shoes.

Though K did like it, he didn't truly enjoy it. Now my 2 year old A she seemed interested in the story being told.

The pictures are bright and go great with the story. Patches is a fun loving caterpillar who likes shoes. She wears different shoes for different activities, of course she needs a lot of shoes because she is a caterpillar.

The book does seem to rhyme so that may also hold little ones attention.

Overall a fun and enjoyable book to read. The only thing that I would think would be better is to maybe have the words and the pictures on the same page? It wasn't really a bother that the words and picture was separate but I like to have them on the same page.

Patches cute caterpillar, adorable with huge eyes will entertain you with brightly illustrated scenes. The story goes, Patches change of footwear and not just one pair but three pairs to go with her six legs. Yellow sneakers Patches wore to go running, pink ballet shoes to do her swirls and spins, blue flip flops to stroll with and red boots to splash in the rain, brown boots to go hiking with and cozy fluffy white slippers to snuggle with her bear. Each scene so brightly illustrated and oh... so beautiful. You will definitely fall in love with Patches. End of the book a page dedicated with Caterpillar facts. Do I recommend this book, yeah for sure no doubt! Mother Daughter Book Reviews notified me of the free digital download and I thank you, Darlene Cruz
