Haunting of a Witch

Suza Kates

Haunting of a Witch Suza Kates

Her Troubled Past

Hayden Wells deals with plenty of ghosts, but she's never met one who was terrified. Not until now. And the only way to help the dead is to find the living. Unfortunately, the man she seeks is a killer, so she must go to the only ones who can help her, the ones she fears most.

His Ominous Future

Detective Trevor Roch knows Savannah, its streets, its people, and its secrets. At least he thought he did. When a homicide case unlike any he's ever encountered brings him face to face with unfathomable evil, he doesn't know what or whom he can trust. And the golden-eyed woman who's turned his world around is the absolute last person he would put faith in.

An Unexpected Love

When innocent women are endangered, Hayden and Trevor will be forced to work together. She's a witch and he's a cop, yet passion rages between them. Opposing worlds clash as they race to save human lives. And the souls that are already damned.

Erica Lucas says

Good!

great series and easy to read! I buy the next one right away each time I finish one. if you like witch stories, give this a go.

Tracey Murphy says

I loved this story installment because our girl Hayden was so introspective that it was nice to see her character grow and gain more confidence.

Nikki says

I enjoyed this book and am only sad that I read it too quickly and am now forced to wait for more books to come out in the series to figure out what happens to the Savannah Coven next. While the formulaic part of finding a boyfriend for each witch is a bit strange, I like that the witches are strong characters and that the romance just seems to enhance their strength, rather than putting them as dependents to men or fighting back in a too-feminist manner.

Melly says

Another good one from Suza Kates. As always, Suza keeps your interest all the way through as another Cove sister met her trial. Guess I'll put my big witch panties away until book 5. I will definitely be more leery the next time I see crows perched. Thanks Suza!

Gitte says

wow! loved this book. Hayden is one of my favorite witches and she absolutely lived up to my expectations. And her cop? Yummy.

I really think Suza Kates gets better with every book she writes. I have said that I LOVE her stand alone books (She who is hidden and The Penance stone), but the Savannah Coven has sucked me in - more with each witch.

If you haven't read a Suza Kates book before: just do it! You won't regret it.

Stacy says

Another great book in the Savannah Coven Series, romance, suspense and the super natural, tops on my list of good reading!

Erin says

Imagine being a police officer in Savannah, and having some beautiful woman come in to help you on case, that seems like she knows what she's talking about, but then you find out it's because she talks to ghosts. How to wrap your mind around that one?

Now, imagine BEING that beautiful woman, knowing you won't be believed, but knowing some REALLY bad things are going to happen, and you will have even more ghosts bothering you than you already do, if you don't get this officer to believe you. Oh...and at the same time, you're part of a coven that has been tasked to save the world from a really nasty demon.

The complicated relationship between these two is fantastic. And I really love both of them together – even when they SAY they don't love being together.

And as the coven keeps getting stronger, it is truly awesome to see how angry the Amara become (the bad guys that are supposed to resurrect said nasty demon). They thought it would be easy to defeat the inexperienced coven, but are finding out more and more that these women are going to be tough to beat.

The writing in each of these stories continues to get better and better, and I can't say enough about how much I love these women, their matching cats, and their extremely sexy and tough in uniquely different ways men. 5 out of 5 stars! ~Erin

Janelle says

Great Book! Some reference to sex. For adult reading

Raewyn says

Best book in the series yet. Still improving.

Amy says

Loved it! The sexual tension was great! The storyline was great! Can't wait for the next installment.

Anjeanette says

An absolute treat to read! More of the Savannah Coven is just what I needed. Opposites attract and past wrongs are forgivable. Hayden deals a blow to the Amara and there is a huge shift in bad guy arsenal. All I have to say is "What next?" Can't wait for the next installment.

Scott Love says

Well, I'm definitely getting more and more happy with this series as I get further along. The action is getting more intense, the drama is getting darker, and the witches are getting stronger! The books are actually short compared to what I normally read (around 250-300 pages), but Suza says a lot in those pages. There haven't been any pauses in the story. Yes, she has 2 or 3 subplots going but when she changes between them, you really don't mind because you want to know what's going on with them as well as the main story. Definitely gonna look at Suza's other works.

Heather the Queen of (Smut)Books says

My favorite of the series!

Sheila says

Loved it!

Patricia says

Hayden is the covens medium who is contacted by a ghost who was murdered and needs help finding her murder so she can rest. The problem is the murder is was brought in by the Amara so they could collect the souls for their evil purpose (which I will not give away). The body count rises and the coven is determined more than ever to stop the amara and save the innocent souls. Hayden goes to the local police to share the information about the killer and Trevor (a tough cop working the case) believes Hayden is a fraud and refuses to believe her. They end up working together to discover the killer, fight the amara and the intense attraction they feel for each other. These books just get better as the series goes along. Highly recommended!
