The only thing worse than a love triangle? **A love triangle that involves a dead person.**

****Spoilers for book 1 if you haven't read that one yet****

This book was just as messy for me as I thought it would be.

I have wanted to read this one for a long time, but I was wary due to the subject matter: the dead sister thing that we are introduced to in book 1?

Huge obstacle in my opinion.

But I loved Ciara in book one...I thought Spike was interesting and then my friend (shout out ABB) lent it to me so I thought, why not?

And without further ado, please join me and Emma Stone in reviewing this book.

This was me before starting:

...And after starting, while Ciara is shamelessly throwing herself at him (despite him telling her he doesn't want her)...

...while he tells her how much he loved her bitchy fucking sister...

...whom he met THROUGH Ciara...despite being BFF with Ciara...and was supposedly IN LOVE with CIARA...but then dated the SISTER and FUCKED Ciara to get back at said sister?...

...

In the end, I just found all that too much to get over.

If I loved someone but didn't have the balls to tell them - and they loved me but also lacked said balls - but then they just shrug and move on to MY FUCKING SISTER - and then take my virginity to get back at said sister?

I'm sorry but **FUCK YOU SPIKE.**

And the way he waxes poetic about loving the sister and not regretting being with her? Pffffffffft.

If I was Ciara, I would have been so done.

I have a sister. And any other female who does can tell you that that is a no fly zone. A line you just don't cross. You just don't date the sister.

If Spike REALLY had any feelings for Ciara, but didn't think she had feelings for him and didn't want to ruin the friendship, moving on to the sister is not the way to maintain that friendship. Him giving up so easily on Ciara (who he supposedly cared more for at that time) and going for the sister made him soooooo unattractive to me, especially since the sister was supposedly a huge bitch that he knew treated Ciara like shit.

I couldn't get over all that.

The whole time Ciara is worried about being second fiddle to Cheyenne.

Because she was.

And with that...

Oh shit, I'm sorry, did Ryan Gosling sneak his way in there?

You bet your Crazy, Stupid, Love ass he did.

our friendship might not be for everyone, but it's ours, and because it's ours, I love it.

Do you believe in second chances? Do you believe someone can be saved even if they think they don't deserve it? Well, Spike and Ciara are about to find out, all Ciara want's is to make things right, blinded by her anger, she said and did things she never meant, but sometimes the hurt runs too deep and it takes everything to make him see how truly sorry she really is.

“You know what’s so pathetic about this situation?” I rasp, my hands shaking. “It’s that no matter how angry I am at you, no matter how many times you spit hurtful words at me, or how many times I keep telling myself to walk away, I can’t...I can’t walk away, Spike. I hate you, and yet I can’t walk away.”

As the truth begins to unravel, Spike is left with a tough choice, does he put Ciara's life on the line knowing his plan for revenge might blow back, something he doesn't want to live through twice or keep her far away from him as he can? God knows he's tried to stay away, but it's a losing battle. Blinded by guilt, will he make the right choices the second time around?

Can we go somewhere tonight and just be Ciara and Danny again. For one night, can we just get along?”

The problem with revenge is that there is always a risk, and if you don't think things through all the way, you're left facing your worst fears...

“I can’t give you sweet things, and I can’t promise you nothin’. I’ve got a dangerous life, and until that life is sorted, I ain’t takin’ you as my Old Lady. I am gonna take you though, every fuckin’ night and day, ‘cause you belong in my bed.

Ever since Hell's Knight, my heart broke and fell for Spike, so I was really excited to read his story with Ciara. I wasn't sure how it was all gonna play out but I wasn't disappointed at all, Spike was not as broken or lost as he thought he was, he just needed Ciara to make him see what he deserves everything and more. The only thing I had a hard time with was the dynamic between the sisters, it was all so fucked up, there really wasn't any reason for it except for the fact that it was what it was. Happy to see Cade and Addison and the rest of the gang back here, getting me all excited for Jackson's story!

Well this was another wild ride with Bella Jewel's MC Sinners. This time we focus on Spike and his.....erm.....delicately placed spikes. We know most of Spike's back story from Hell's Knights and it's a tragic one and now he is hell bent on avenging the tragedies of the past whatever the cost.

Ciara, his dead-wife's sister and also his first love is still harbouring deep affection for him and she won't let

him close himself off and she attempts to rekindle the fire that once burned so brightly and reawaken those feelings Spike once had for her.

This was another quick and engaging read from Bella Jewel – the story lines in these MC Sinners books romp along at an incredible pace and I always get sucked in and read them very quickly. Spike and Ciara light up the pages with some seriously delicious sex scenes – we learned a little about Spike's predilections in Hell's Knights and we definitely get to follow through with those in Heaven's Sinners. Phew! This is definitely one hot and sexy read.

We get to catch up with Addison and Cade (who I am still crushing on) and see them enjoying their new found happiness and the last few pages also set up the next book nicely which will be Jackson's book. Can't wait for that one.

So, a quick and sexy read but overall my favourite of the series so far as been Hell's Knights.

4.5 I loved Spike's spikes Stars

"When are you gonna see there's no point in fightin' for something that don't wanna be fought for?"

"I won't, because everyone deserves to be fought for Spike. Even you."

I really wasn't sure what I was walking into when I started this. I was not a fan of the first book. At all. And that's putting it mildly. However, I thought that the author had potential once she worked through the kinks, and I was damn curious about Spike and his spikes.

What? The man has spikes in a certain area of his body, and rumor had it he liked his women to remove them...with their mouth. You saying you wouldn't be curious?! Well either way, my pervy little mind was intrigued so of course I had to read it. I'm so glad to say that I was not disappointed with this one. I loved it!

Years ago, Spike and Ciara used to be friends; they were inseparable.

While both had feelings for the other, youthful ignorance, fear of ruining their friendship and mistakes kept them apart. Young Ciara loved Spike, but her inability to see his feelings for her drove him right into the arms of another woman...her sister. Then one night something that was already rocky, takes a turn for the worst and Chey, Ciara's sister, gets killed in the crossfire of Spike's mistake in crossing another MC. Unable to work through her feelings of guilt, grief, and love, Ciara takes out her hurt on Spike and blames him for everything.

Now, having realized her mistake, Ciara is back. She wants Spike's forgiveness but most of all she wants to get back the boy that she knew simply as Danny. And she's willing to fight for him this time.

You know what's so pathetic about this situation?" I rasp, my hands shaking. "It's that no matter how angry I am at you, no matter how many times you spit hurtful words at me, or how many times I keep telling myself to walk away, I can't. I want to save you. I want that friend that I know is in there. I can't walk away, Spike. I hate you, and yet I can't walk away."

Spike is working through regrets and grief of his own. He once loved Ciara with everything that he had, but her ignorance pushed him away, and her blame wounded him deeply. He's no longer the boy that she once knew.

Don't want you to fuckin' save me, Ciara. Don't want you in my fuckin' life. When will you get that through your head? I don't want to be in your life. I didn't chose you, I chose her. You need to fuckin' move on. I am not the same person I was before."

But feelings from their past are not that easily forgotten, and even though Spike does everything he can to drive Ciara away, the pull between them is too strong to ignore.

This book had everything that I found lacking in the first. Emotion, great relationship development, and a story that I truly grew invested in. Spike and Ciara's relationship was filled with angst, emotion, pain, heartbreak, and so much steam I felt like I needed a cold shower and a cigarette after every single encounter.

Come for me Tom Cat, fuckin' come around my cock."
"God, Spike, yes."
"Say my name baby, fuckin' say it."
"Spike," I rasp.
"No, the other one. Say my real name," he growls, thrusting harder. "Danny," I scream, my orgasm tearing through me like liquid fire. "God, Danny."

There are a few things that some might be uncomfortable with. One, is Spike's treatment of Ciara in the beginning. He is incredibly cruel and callous to her at first. You can see that it stems from his hurt and grief, so it didn't bother me too much.

There is also some voyeurism in this book. If that's something that makes you uncomfortable, this might not be for you. My pervy little mind loved the hell out of it, so you will be getting zero complaints from this girl.

This is not a story about perfect love. It's a raw and gritty story about 2 people learning to forgive, move on, and find their way back to each other. Their road was not a smooth one. It was filled with pain, mistakes, and grief; and I devoured it in one day.

I loved that Ciara wasn't some meek little mouse. She had her moments where I wanted to smack her, but I

really loved the way that she fought for Spike and stood up to him. Spike was just sexy as sin, him and his delicious piercings.

This book turned out to be such a pleasant surprise, and I'm looking forward to Jackson's story next. Especially with that ending...

*How did Spike get his name?
"He has numerous spikes in his..."*

*"Fuck you, Spike."
"Been there, done that, wasn't memorable."*

Ouch... Spike.. you with your spikey dirty mouth combine that with your spikey cock? Can I just say..

"Don't want you to fuckin' save me, Ciara. Don't want you in my fuckin' life. When will you get that through your head? I don't want to be in your life. I didn't chose you, I chose her. You need to fuckin' move on. I am not the same person I was before."

Spike is broken because he witnessed his own wife being shot.

I didn't like him in the first book, he's a major asshole but the moment I found out how he got his name and that he likes watching other couples doing... *cough!* Well.. I couldn't help myself but get interested. I was curious and couldn't picture what does a spikes cock looks like.. how do you remove that shit? So after reading this book I googled the word "spike on c*ck, pierced c*ck, barbell c*ck" and WOW.. Can I just say I am shocked?! lol. I'm not sure I want that thing in me.. **O_O**

"I want to save you. I want that friend that I know is in there. I can't walk away, Spike. I hate you, and yet I can't walk away."

Ciara has always in her sister's shadow.. She's insecure and you kinda understand where she's coming from. But seriously.. she's way too dramatic in my opinion. She makes everything as if it's a big fuckin' deal. I didn't really get why she needed Spike's forgiveness but I give her props for fighting what she believes in. Gotta love a heroine that doesn't give up easily. :)

“I was never enough for you,” I rasp. “I cared about you. Fuck Spike, I loved you. But you didn’t fucking see me. You just saw her. I was never pretty enough, never good enough, I couldn’t compare.”

The flashback parts where Spike was together with her sister was a little painful to read. You could literally feel Ciara's pain, insecurities and hatred.

Spike runs his hands up and down his cock, and it takes me a moment to realize what he’s doing. He’s pulling off the spikes.

Sex scenes are descriptive and explicit! I'm not sure if everyone will agree on me on this one but I like the part where Ciara was watching Spike with another woman. It was sexy and funny.

I love how the author was descriptive of how Spike removes his spikes. Thank you Ms. Bella Jewel for a small tutorial..

Now I just need to find a man who has spikes/barbels on his dingdong. LOL.

“It was you who took my heart, and you who fuckin’ broke it. She picked the pieces up when I couldn’t find you, and so I stopped fighting. Cheyenne might have had me in the end, Tom Cat, but my heart was always yours first.”

Overall, this was a great read! Spike and Ciara have this love/hate relationship, push/pull moments that made me want to crawl inside the book and just smack the shit out of them! But despite getting a headache from reading this, I think it's better than the first book. I'm not going to summarize everything here but it's more emotional, gripping and arousing!

“It was you who took my heart, and you who fuckin’ broke it. She picked the pieces up when I couldn’t find you, and so I stopped fighting. Cheyenne might have had me in the end, Tom Cat, but my heart was always yours first.”

Spoilers

I went into this read prepared to take one for the team so I could get to Jackson book. A painful bump in the road of this series to get where I wanted which was Jackson HEA. I went in figuring I would hate this book and I would just have to suffer through it. I mean come on a love story where the heroine loved the hero, the hero loved the heroine, but then he turns around after taking the heroine's virginity and marry's the heroine's sister, then the sister is killed while pregnant. Now the hero is going to get with his dead's wife sister. I mean damn that is just a big fucking hot mess. I figured it would be full of drama, and angst and make me want to stab someone and I was right. Drama and angst just poured out of this book, so it shocks the shit out of me to say I really loved this book. I mean I loveddddddd this book. I loved Spike, I loved Ciara, and loved every pain filled, drama filled moment of this read.

Spike was gruff, kinky, damaged, but sexy as hell. I couldn't believe how much I loved him or how much I understood his choices and pain. I didn't feel for a minute that Ciara was second place to her sister, but I felt like Spike settled for Ciara's sister when he thought he couldn't have Ciara. Ciara at times made me want to slap the shit out of her but at the same time I could totally understand why she did the things she did. I wish she would have fought for Spike instead of stepping aside for her sister to have him, but I loved how much she grew into a stronger woman that learned from her mistakes and fought for the man she loved. Not gonna lie it was a bit icky that Spike slept with Ciara's sister, but I got over it pretty quick. I don't know about anyone else that read this book but I straight up hated Ciara's cunt of a sister, and was glad that nasty bitch was dead. I also hated Ciara's parents they were assholes. Spike and Ciara were so dirty and kinky I loved it. Spike's penis omg. I googled penis piercings and found out that what Spike has is called the Jacob's ladder piercing(I think) and wow can I just say the pictures OMFG! That shit looks painful just sayin'! The ending of this book has me looking forward to starting Jackson book. This was a surprisingly good read.

Re-read 1227/18

Well, this was one fucked up story. This review contains some spoilers, so if you don't want to know anything, don't read any further.

I liked all the characters in this book and it was definitely a hot read !! However, I do have some mild issues that pissed me off. The issue mainly being the hero! He claims he loved the heroine first, but because she didn't read his "signs", he figured she was only interested in being friends. How about just telling her how you feel dumbass !!

Then he proceeds to fuck the heroine's sister, who is a conceding bitch... because if you can't be with the love of your love...fucking her sister makes a lot of sense.

Then, when he and the sister have some falling out, he visits the heroine, fucks her and takes her virginity. She thinks it's all real and that they're gonna be together, but she soon finds out she is just a revenge fuck. He goes back to the sister and marries her.....yeah, we've got a real winner here !!

The heroine packs her bags and leaves (good for her) Eventually the sister dies because of club-business and the hero and heroine reconnect. When I say reconnect I mean they fight...a lot.

She felt way more guilty than she should have... I think. As far as I am concerned, he is the one that fucked up. Too bad I love redeemable assholes so much...I just couldn't not love Spike!

Of course, the heroine made some mistakes too, but to be honest...she was fucked over by everyone...even her parents. So you see...all kinds of fucked up...but I still loved the hell out of this book.

Now the other thing I have an issue with is the actual plot. I am very close with my sister and we are best friends. For me it is inconceivable, to ever want to be with some guy, who was with my sister first...that's just ewwwwwww. And he was even married to the girl...they had sex hundreds of times, he dropped her ass to be with her sister...just NO...

That is my personal opinion of course and does it not take away the fact, that I think this book was an awesome read!

It was an emotional roller coaster, you will not want to put it down! This book made me cry and laugh at the same time! Spike and Ciara blew me away!!!

They were friends before Cheyenne (Spike's wife and Ciara's sister) came into the picture... They were in love but neither of them said anything.. Something happens that causes Ciara to take off and never look back until the death of her sister... When she comes back she tries to make things right with Spike again... But Spike is broken due to the loss of his wife... and unfortunately he doesn't want anything from Ciara... but different things happen between them... Finally they let their walls down and they stop denying their feelings they have for each other, Ciara and Spike decide to become friends again... But the attraction is too intense and soon they become more than friends.

"You know what's so pathetic about this situation?" "It's that no matter how angry I am at you, no matter how many times you spit hurtful words at me or how many times I keep telling myself to walk away, I can't. I want to save you..."

"I love you Spike. I don't expect you to love me back, and I'm not asking you to even try. I just want you to know that after everything I still love you. I always have and I always will."

Spike I LOVE YOU <33333 He is so damn hot, sexy biker!!! Wow and he likes kinky sex hahahahaha and this is why I love him so much ;))) Ciara is a badass heroine!! I love her dirty mouth!!! Also she is so strong!!! I really hate her sister and her parents!! The way they treated her was awful! The chemistry between Spike and Ciara was so hot!!! 4 Spiking Stars!!

Spike still's feel guilty for the death of his wife, killed during a car chase that was chasing him and Cade. His whole life after that was lived in function of that guilt, and especially the guilt that his wife wasn't the only woman he loved. She was not even the woman he loved the most. That was another one, her sister. And

the only person we just can't deal with.

Ciara always was the second best. Her sister was the first in everything and she loved it that way. She couldn't take it any other way. And when for the first time her sister got something first: Spike, she had to go and stole him to herself.

Now, years after her death, Ciara still can't forgive her sister for stealing the only man she ever love. She believes she is going to always be second best in his eyes... if only she knew.

But nonetheless, she is determined to save Spike of his guilt. Even if he doesn't seem to want it.

Their road, is not going to be an easy one. But she let him go once, she is not going to do the same twice.

In terms of "hotness" this was WAY hotter than the first one on the series, and it was slightly more emotional and raw.

I really liked it and it was very good to see the slowly redemption of two broken souls and finding their way the each other again.

Really can't decide which one of the books I like the best, they're both pretty damn good.

If you're in the mood for sexy bikers... go read this ;)

Review

I cringed and felt totally devastated during the first half of this book. My heart broke for Ciara and I so wanted her to just tell Spike to "fuck off" and give up on him. I'm so happy that she didn't though - because when Spike finally gave in to his feelings - he was like a totally different man!!

I was leary about picking this book up to read it because I wasn't able to get into the first book which made me scared to give this one a try. I was so pleasantly surprised when I not only was able to get into the story...but I ended up LOVING it!! I felt the pain Ciara was going through - over and over being rejected by

Spike and it wasn't just Spike that hurt her...it was her parents and also her sister in the past.

See, Ciara and Danny (Spike) were friends years ago and they did have more than just "friendly" feelings for each other but neither one would open up about it. It was then that Ciara's sister Chey wanted what Ciara had and went after Spike. Chey started a fight with Spike and told him she was interested in someone else, so Spike and Ciara ended up having sex (it was also Ciara's first time). Ciara overheard Spike telling Chey it was just a "revenge fuck" and didn't mean anything. Ciara takes off devastated and it turns out that Spike and Chey end up marrying. During the last book, Chey gets shot while driving Spike away from his enemy, Hogan and dies along with his unborn baby.

Ciara is still carrying hurt feelings about the past and ends up testifying against Spike in court and he vows to himself NEVER to forgive her for that. This book opens up with Ciara trying to gain forgiveness from Spike along with saving him from self-destruction.

Spike doesn't want to have anything to do with Ciara and just wants her to stay away from him. He isn't so nice to her and repeatedly bashes her with nasty and hurtful words. Ciara doesn't give up and continues to try and break down Spike's defenses.

Will Spike ever forgive Ciara? Will Ciara finally tell Danny how she really feels?

Wrap Up

This book grabbed me from the very beginning and had my heart breaking for Ciara and my mind so pissed off at Spike for his attitude.

If you are a fan of alpha males in an MC but didn't like the first book, then give this book a shot. It was so much better than the first. I can't wait to read the next book in this series.

Jessi says

Ciara and Spike have been friends for years. They both had feeling for each other, but were too afraid to say anything for fear of ruining the friendship. Then Ciara's sister, Chey, comes into the picture and whisks Spike away from her. In a terrible tragedy Spike loses Chey and his unborn child leaving him in ruins and her family placing all the blame on him. The friendship broken beyond repair, leaving only hate and pain.

Now years later Ciara wants to put the past to rest and try to patch up her friendship with Spike. Only Spike is not ready to forgive Ciara for turning on him. These two cannot even be in the same room without yelling and screaming at each other, every conversation turns into fighting. At first Spike simply refuses to talk to her, but Ciara is persistent and will not back down, and finally gets him to come around, a little.

"You told me to go and die last month," I point out, crossing my arms. He flinches. "I was fuckin' mad that you came back tryin' to get my forgiveness."

These two are an explosion waiting to happen. Both are broken and too stubborn to admit they need each other. Ciara can't get over her betrayed feelings that Spike chose her sister over her. Ciara has been in her sister's shadow her whole life. Even her parents would choose Chey and treat Ciara like shit. Though, threw

all the BS she has put up with and being treated like she shouldn't exist, Spike's betrayal is what cuts her the most.

“We were never friends!” I bellow. “I was just a way to get to Cheyenne. You fucked me, to get to Cheyenne. “That’s fuckin’ bullshit!” he roars. “It’s fuckin’ bullshit! I cared about you long before she came into the picture.”

My only dislike was her parents. They are complete jackasses!! When they showed up towards the end and totally freaked out, I was glad she told them off. Only she should have really slapped them both, since they had no problem slapping her. I can't believe people would treat their child like that! Woohoo to Spike for standing up for her and treating to put them both on their asses!

But it’s my happiness and you know what?” I get to my feet, my legs shaking. “I fucking deserve it!”

Can these two finally put aside years of hurt feelings and finally admit they love each other?? I mean the chemistry is explosive if they'd stop trying to fight it.

I really enjoyed this book. The romance aspect is great. It was hot hot hot! (Gotta love Spike and his kinky fetishes) And through in some sexy bikers and shoot outs, yes it was hot. ;)

“What is it exactly we’re doing here?” I dare to ask as he moves his lips down my neck. “We’re lettin’ life take us where life is gonna take us, and this time, we’re not gonna fuckin’ fight it.” That sounds fine by me. Just perfect.
