Mussolini: History in an Hour Rupert Colley

Love history? Know your stuff with History in an Hour.

'Il Duce', Benito Mussolini, was one of the key figures in the creation of fascism. Famed for his dictatorial style, his political cunning and admired – initially – by Hitler, Mussolini led the National Fascist Party and ruled Italy as Prime Minister from 1922 until his ousting in 1943. In so doing, he paved the way towards Italy's defeat in World War Two, and some of the 20th century's most destructive ideologies and practices.

Following expulsion from Italian Socialist Party, Mussolini denounced all efforts of class conflict, and instead later commanded a Fascist March on Rome to become the youngest Prime Minister in Italian history. Thereafter he set about dismantling the apparatus of democracy and initiated what would become known as the one-party totalitarian state. With World War II came defeat, humiliation and his bloody deposing. Explaining his ideologies, policies, actions and flaws, 'Mussolini: History in an Hour' is the concise life of the man whose ideas helped create some of the worst horrors of the modern history.

Kevin Sells says

Quick read... Good information.

I was pleasantly surprised at the amount of info in such a short tome. Lots of facts and trivia in a mix that keeps it from being dry and enough to make it informative in a serious way. Well worth the price and more than enough info to form an independent opinion of the man. Also... Enough info to see parallels to some very recent events.

Aaron Lambert says

A nice summary and an easy read. Definitely learned some new things about Mussolini and made me want to read more about him.

Anna says

A sufficient overview of Mussolini's life and time in power. Like other books from the 'history in an hour' series it is brief and to the point. If you are searching for detailed academic discussion and evaluation, you will not find it here, it is merely a factual overview, which acts as a sufficient text if you are not acquainted with the topic or want to revisit the events discussed.
