#### **Love it**

I can't get enough of this crew. I wish you could purchase all the books and they keep going and going. Please ms j for the love of my sanity continue on with this series. They really are the best

Way too little story spread over way, way too much melodramatic dialog. Could have made a nice 75 page follow-on book if the the author had managed to get around to the reason the book exists (to save Cara) before page 165.

And, really, who doesn't have discussions about various types of mothers while escaping over icy-slopes with the entirety of the Russian mafia after them while a blizzard sets in. And let's not forget the idiot child who got captured in the first place because she didn't want her trained guard to be "lonely" and then refuses to escape because it "isn't fair" for the trained guard to protect her without her protecting him.

All of which forces me to ask - who's the real idiot for continuing to read this amalgam of ridiculousness and histrionics?

Garbage. Too much dialogue and not enough story.

SHADOW PLAY, the first book in the trilogy and book 19 in the series was the first book I read by Iris Johansen with Eve Duncan and I was instantly hooked and since then have I read several Eve Duncan books. However, I've been looking forward to reading NIGHT AND DAY, the last in the trilogy after I read HIDE AWAY, the book before this one that ended with a cliffhanger...

I loved this book from beginning to end. Iris Johansen concluded this book so well in this series. I'm excited

to read the next chapter in Eve's life and I have a sneaking suspicion it might be with Cara.

I recommend the Eve Duncan series for its intense scenes, heart wrenching storylines and edge of your seat drama.

The melodramatic dialogue is nauseous at times. I mean really.

- I'll save your Eve....
- ... I wouldn't let you go flying after your Cara...
- But you do have your Bonnie...
- ... your Joe Quinn...
- I've got a good feeling about this, Joe.
- ...think Michael owes him, Joe.

As I read I don't see Cara being 11 years old. The author has mentioned that she was mature for her age, but this is waaaay over the top. I sometimes think Cara and Jock would make out any second.

I dislike the previous book (Hide Away) but since I have read two previous ones I wanted to finish the mini series. This one is still a bunch of non sense but better than Hide Away.

I won't be reading her upcoming books. What would be good alternative, if you are like me is to borrow audiobook from the library, preferably an abridged version.

I enjoyed the forensic sculpture and a little supernatural attributes but those were two books ago in Shadow Play.

Shadow Play had a good story and should have wrap it there. It's a shame, the author has good characters in this series but to write a whole book about hiding (Hide Away) and another retrieving (Night and Day) is silly. If your curious about the treasure.... Sorry to disappoint you maybe next book or one after that.....

I loved this book three of Cara's Trilogy. I know Eve, and Jane are strong female characters, but I give the top prize to Cara. Her ability to adapt to any situation, and to be positive, and feel positive in others was pretty outstanding. I also believed for twelve, that she listened, was determined, and made decisive decisions, for herself, and others. The story was fast paced, and filled with worry, fighting, danger, deceit, and a nice ending. I love that the author, lets us get up close and get a better concept of each character. My favorites keep changing per story. I was drawn to Cara, Jock, and, Caleb. They seemed to be a bit outside, and still step to the forefront, when things are fraught with danger. They both try to fit into the tightly knit family circle, but find it hard. I wish Jane would give Caleb a chance. He has come to her aid numerous times. I love her books, and although partially tied up at the end. She left us a few problems to address. This is not a cliff hanger, but the future about Cara is still undecided. The Eve Duncan books have wonderful characters, and always evil villains.

When a Russian Mafia princess is spoiled - beware. In this latest book in the series, it is a page turner. This starts off right after the last book. This book does need to be read in order. It is best to read *Shadow Play*, then *Hideaway* prior to reading this story because it will make more sense. This three book arc focuses on Cara Delaney and her family. First her sister Jenny appears, then her mother and father's story is revealed. Her grandfather, whom she has never met, is now interested in seeing her. Flown against her will to Russia, Cara walks on eggshells as her mother blackmails her into obedience. Her grandfather is a powerful man who lives by a certain code of ethics. Is it legal? Debatable based on what one consider what is legal and what should not be.

The pace of this tale moves slow at first. As we learn more about Cara's unknown family ties, it is clear that Cara's mother has only one specific interest. The sheer cruelty and negligence from mother to daughter is laid out in high definition. It is appalling, especially when contrasted with how much Eve wants to protect Cara. The ruthlessness in this book is what made it appealing for me. I like how brutal the different factions fight against each other. There are no safe rooms or political correctness here. This is the world where only might makes right. The power struggles and the backstabbing is as expected and chillingly written.

I enjoyed the character development as well as the multi-thread storyline. Ms. Johansen does a marvelous job of weaving together several story lines. This helps move the story along faster as we learn more about the past, present and what the future may hold. Ms. Johansen's storytelling is captivating and each one of the books in this series just gets better and better. The character growth and development of Eve is a pleasure to see. What is more endearing is all the people she has met and how they become part of her circle of friends. This world of Eve's keeps growing and her life is always interesting. At first I thought once Bonnie's mystery was solved, the series should end. I was so wrong. Ms. Johansen keeps the storyline fresh and exciting. I look forward to every book about Eve and her friends. In this one, whilst it ends a three book arc, it plants a little seed of what will come next. I cannot wait to see what Ms. Johansen brings to life. It will be filled with action, suspense, characters of questionable nature and a bit of romance. She brings it all in this series. This book is recommended to suspense readers who enjoy a little element of romance plus a treasure to be found.

*Night and Day* is the finality of Iris Johansen's trilogy about Eve Duncan and 11 year old Cara Castino whom Eve has decided to take under her wing. The trilogy began with *Shadow Play* and then *Hide Away* and now *Night and Day*. Cara's mother has kidnapped her and now it is up to Eve, Joe and their extended family to get her back. As usual Iris Johansen does not disappoint but I have to say I miss Bonnie. I would like to thank the Publisher and Net Galley for the chance to read this ARC.

St. Martin's Press and NetGalley provided me with an electronic copy of *Night and Day*, in exchange for an honest review.

The aspect of Eve Duncan's character that drew me to Iris Johansen in the first place was her ability to connect with the person she was attempting to reconstruct. Her chosen profession as a forensic sculptor was interesting and the books followed the medical thriller formula for which I am a big fan.

As of late, however, in perhaps an attempt to evolve the character, the aspects that made Eve unique in a sea of female characters are largely missing from the books. *Night and Day* is no exception, as Eve spends entirely too much time on her latest search and rescue mission. Nothing about finding Cara sets this book apart from the ones that have come before. It is my sincere hope that author Iris Johansen will either return Eve to her quiet home near the lake, in order for her to begin her next reconstruction, or will retire the character once and for all. I look forward to reading the next offering by this author and would recommend *Night and Day* only for the purposes of closing out this latest trilogy.

A perfect conclusion to this mini trilogy within the ongoing series. In all honesty the plot is not what gets me about these books. As far as i'm concerned, it's all just an excuse to spend time with these characters and watch them interact with each other. I've said it before, but Joe Quinn is the ultimate man. I don't love him more than the others though, I promise... As the end of this particular storyline, the book did well to tie up loose ends, but still promised a few surprises for the future.

The only thing I must complain about is (view spoiler)

Many thanks to Karen Masnica at St. Martin's Press for letting me know i'd missed this one! And to St. Martin's Press and Netgalley for this copy in exchange for an honest review.

### **Carrie says**

*Night and Day* is the twenty first book in the series by Iris Johansen featuring the character Eve Duncan. This particular story line though began in book nineteen and has been it's own little trilogy within the overall series so I won't give any details directly about this story so I don't spoil it for anyone at this point but just a brief glimpse at the overall plot involved in all three books. This third of the trilogy picks up right at the ending of *Hide Away*.

Eve Duncan is a forensic sculptor, she gives a face to children who have been found murdered in an effort to try to bring justice to their killers. When she gets a phone call from a sheriff in California she agrees to work on the skull of a 9 year old who begins to speak to Eve as she works. Jenny can't remember much at first but she insists that Eve was meant to help her find out what happened to her. Eve becomes determined to find justice for Jenny and help bring in her killer.

While I've enjoyed reading all three books in this story line the first was definitely my favorite as it was the one that dealt with the forensic side of the case. But all three have been a high intensity action packed ride all involving that first case that Eve started working with. There's a paranormal element added to each of the stories with the first and the third seeming like that was more prominent in the books.

Overall, 3.5 stars, Iris Johansen is definitely a great writer and while I haven't read everything by her I'd

definitely recommend checking out her work from what I have read. If interested in this book you should really go back and start at book nineteen to get the start of the story.

I received an advance copy from the publisher via NetGalley in exchange for an honest review.

### **Rachael Uponen says**

This was, honestly, the worst Iris Johansen novel I've read yet, and that's saying a lot.

Poor, poor Eve Duncan just can't catch a break. She's found Bonnie's remains, survived being killed God knows how many times by now, and had to endure a terrifying kidnapping and near-death experience. Now, in this book, she has to deal with a woman who's determined to kill her and steal Cira's gold (yes, that old song *STILL* hasn't been played out yet).

Now, as a reader, I know that Eve is invincible. No way in hell is she going to be killed at this point in the series. And through most of the book, she's pregnant, so she's got double immunity to death. This killed any sort of suspense I would have felt reading it. And that's just one item on a long, long list of reasons I hated this book.

### **1,5 stars**

I have read the entire Eve Duncan Series by Iris Johansen since the 1st book and Eve Duncan, forensic sculptor extraordinaire has become one of my all time favorite characters.

Hide Away is the 20th book in the series and to be truthful...a somewhat boring and disappointing offering!!!

I am really struggling with this series. I have been reading Eve Duncan series from the very beginning and it's become one of my favorites but lately.....I can't understand where the author is taking the series to next!!

Night and Day is the 21st book in the series and the 3rd in some kind of trilogy that deals with Eve and the young girl, Cara. I debated reading this book after the disappointing previous two books...

<https://www.goodreads.com/book/show/2...> and

<https://www.goodreads.com/book/show/2...> but I can't resist Eve Duncan.

No, No, No!

Now we have the Russian mafia....yes, the Colombian drug cartel has been "bumped" off by some evil beings - running around trying to "bump" off Eve and her family and friends!!! Hell, can we give poor Eve a break and get her to have some fun and good times!!!!

Anyway - Jane is on and off with Caleb.....can we get these two to make up their bloody minds for a change!!! Carla, the 11 year old but an old soul is still trying to save everyone around her.....are you sure that she's only 11??? Because let me tell you, I haven't met any 11 year old like her.....and PLEASE how many times do we have to be told that everyone and I mean everyone wants to SAVE and PROTECT Eve!!!! Give me a break!!!

The dialogue is so boring and repetitive rules here again...let's rehash the entire two books here again please!!!!

Ms Johansen, can you get Eve back to working with her skulls and getting closure for dead people instead of dealing with all this hocus pocus!!!!

And yes, after the HUGE cliffhanger here.....I see no other option but to read book #22!!!!

So here I am...going to wait patiently for Eve and Joe's next ADVENTURE!!!

I love the eve Duncan series!!!and after all these years and 21 books later im still hooked!!! Eve is one of my favorite characters of all time.she's smart,tough and has a earthy quality that makes you like her from the beginning. In this 3book in this trilogy she's going head to head with a woman who will stop at nothing to get what she wants.Natalie castino has plans for her daughter and being a loving mother isn't one of them.its up

to eve and her team of characters to save cara before all hell breaks loose.jock,Joe,Jane and my very favorite bad/good guy Caleb are back!!!
