The American Gods:

#3 **Arsen Vasiliev**

The Russian god [...].

As much as he was powerful and rich, he was terrifying. His cool dark gaze and his permanent scowl made him very unapproachable. Not to mention the rumors that ran wild about him.

Gossip about his family running a deadly business, one of blood and drugs and weapons—connecting the rich with criminals. He had been born in America, but he spent his summers in Russia. Because of that, he spoke Russian fluently.

#1 Gabe Easton

#2 James Rhodes

Arsen Vasiliev:

Below his name—and the picture of his steel, beautiful features—was the reason why. As much as he was powerful and rich, he was terrifying. His cool dark gaze and his permanent scowl made him very unapproachable. Not to mention the rumors that ran wild about him. Gossip about his family running a deadly business, one of blood and drugs and weapons—connecting the rich with criminals.
