When Trusting God Is the Only Way Out On an average day, God jump-started her missions in her sculpting studio, revealing the face of the person she would soon meet at the grocery store, bank, or playground. The goal was always the same. Reach the lost, bring someone back to God, restore hope. But then came the tough missions-the ones that thrust Lexie Baltimore into real battle. And she had a few scars to show for it. Tormented that she can't reach the one person she loves the most-staunch atheist and husband Hugh-Lexie finds her own hope waning when the battle comes to her doorstep in the shape of a pastor who represents everything she wants and everything her husband is not-a godly man. Then false accusations and rumors spin her husband and family into a precarious position, and the only way out is to trust God. But how can she convince her husband when she's struggling to trust God herself? This time Lexie is the mission.

He is working longer hours in hopes of receiving a coveted promotion.

What neither of them realize is that something more sinister is working against them. Something dark. Something evil that wants to tear apart their marriage. Something that will stop at nothing to ensure that Hugh never comes to believe in God.

Dineen Miller's debut novel, *The Soul Saver*, is a fast-paced thriller that takes the reader on rollercoaster ride. Best of all, its characters are so very real their emotions are visceral. I was drawn into the story from the first sentence and lost sleep, unable to put it down. An extraordinary word artist, Miller paints a multi-dimensional, almost visual, story on the printed page. Novel Rocket and I give it our highest recommendation. *The Soul Saver* is a 5-star must read.

I met Dineen Miller in person at a MOPS meeting and had the privilege of chatting with her. Her talk moved many to tears concerning her personal struggles as a mother and marriage to an atheist. Knowing MOPS speakers don't really get paid much, I bought her first book. And its been a LONG time since I've read a book that was hard to put down!!! It's one of those books where you just want to take the day off to read. Dineen's writing surpasses Stephanie Meyer's "Twilight" series and the "Hunger Games". This is a gripping read that yanks off the earthly veil blinding so many of us who think we are worthless and unusable to God. It encourages me as a wife, mother, and Daughter of God, that my soul is of utmost importance! Dineen is an incredibly talented and intellectual woman. I was impressed with her talk and now she's blown me away with her writing skills. I eagerly await future writings from her!!!

A modern story of spiritual warfare, this is a battle for one unknowing man's soul that hinges on the decisions of others to engage in the fight for him. When his wife, Lexie, seems to find more in common with a wayward pastor than with her unbelieving spouse, she has to make a conscious decision about the future of her family.

This is a fictional story that is full of much truth, truth that could be very beneficial to readers in similar situations. It deals with temptation, with grief from losing a close family member, with the importance of a mentor, of prayer, of commitment. It deals with being in a spiritually unequal marriage and how that can play out for both spouses. While we follow the Lexie throughout the story, we learn about God's calling, about the spirit world, about the limited power of the enemy and the grace of a loving, all-powerful God.

This book was packed with relevant themes and nuggets of wisdom. I will be looking for more by Dineen A. Miller.

Fun, Exciting Read

Lexie Baltimore is the wife of a non-believer, but her faith is so strong that God speaks to her through her gift. She creates clay busts of unknown people when God sends her on a mission to help them. Then, marital problems begin to crack through her shield and she turns to one of her missions, a preacher himself who turned his back on God when his wife died last year. Rumors and accusations abound, as a demon called Tobias sets the scene to grab the soul of Lexie's husband. Although Lexie hears the voice of God, she still has doubts and fears about her life and her choices, giving her a realistic quality.

Spiritual warfare always grabs my attention, and in *The Soul Saver* Dineen A. Miller, definitely has a hit. The twists of the plot create a depth that keeps the reader looking for the next turn. Great, exciting story.

With her finger on the pulse regarding a delicate and heart-rending topic—spiritually mismatched marriages—Dineen Miller pens a stunning story of temptation, betrayal, and ultimately—redemption. Miller has a penchant for reaching deep past the superficial issues to the wounded heart that lies at the bottom. Beautiful prose mingles with spine-tingling supernatural elements in *THE SOUL SAVER* to create a work of art. Talented Miller surges surges onto the fiction scene with the grace and skill of a true storyteller!

Among my favorite type of novel to read is a spiritual warfare novel. I always feel that stories based on spiritual warfare can have the most profound effect on the reader. The Soul Saver certainly had quite an effect on me, just as I was expecting. It did take a little time for this story to pick up the pace, but Dineen patiently took her time developing her characters and their stories so there would be a greater impact later in the story. That impact is felt throughout the story.

I think the thing I like best about stories like The Soul Saver is how real they are. Sure, the character Tobias may be a bit of a stretch, but really he was not much of a stretch because the Bible tells us that demons are real and the devil will do everything he can to see as many souls perish for eternity. Tobias was a very scary and realistic representation of that very real evil. This book should be read by everyone, and not just Christians. Dineen Miller has written a fantastic and life changing book that should not be missed.

There is a lot of biblical truth in this book, but Dineen wrote it in such a way that I never felt like I was being hit over the head by scripture. That, combined with a story that was real and relatable, mad The Soul Saver one of the best spiritual warfare books I have read, and I read a lot of them. I highly recommend this book!

I won this incredible book during a blog tour. After letting it sit for 2 weeks, I picked it up one evening could NOT put it down. Brilliantly written and riveting to the last page, Dineen weaves a story certain to challenge and strengthen your faith. Spiritual warfare is a scary topic, but Dineen's precise depiction of its process reveals her personal faith walk and knowledge of the raging battle we'd all rather ignore. If you struggle in a spiritually-mismatched marriage and the spiritual warfare that rages therein, this book needs to be at the top of your list. I'm lending my copy to a friend on Sunday in a similar situation because I know it will give her hope, courage, and inspiration to stay the course and follow God wholeheartedly. Containing compelling characters and masterful plotlines, this debut author hit this one out of the park ... for Jesus. Very well done!

Temptation exists all around us. Waiting in the shadows and in the dark to lead us astray if we are willing to open ourselves up to it. That is just what The Soul Saver by Dineen Miller is all about.

Hugh Baltimore has been striving for the very best life has to offer for the last seven years at the Stanford University where he is working on his tenure. After the loss of his daughter, Mandy, he has found solace and peace in the answers science can offer him. Whereas, his wife Lexie has clung to her faith in God to help her move forward in her life with Hugh and their remaining child, eight-year-old Jeremy. This has created a huge divide in their marriage and as long as Lexie keeps her faith to herself and stops trying to win Hugh over to God, maybe they can agree to disagree with where their futures are headed.

By it's Hugh's soul that is the ultimate prize and one that Tobias wants. He has made a pact with the former pastor of Freedom Church, Nate Winslow that he will save his daughter Sam, a recent heart recipient if he will help him in his evil plans. Knowing that God didn't help him save his wife in the accident that almost claimed Sam, he was willing to do whatever it took to ensure that he didn't lose Sam as well.

Lexie Baltimore has an extraordinary gift from God. It's a vision he has given her to sculpt a bust of whomever he wants Lexie on a mission. Whenever she sculpts their face, Lexie knows that God will place that person in her path and she will listen to whatever promptings God places on her heart to intervene and right now that person is Nate Winslow.

I received *The Soul Saver* by Dineen Miller compliments of Christian Fiction Blog Alliance for my honest review and LOVED it. This is a very different look at how temptation can affect the believer and the unbeliever alike in the most astonishing ways imaginable. Let us never forget how truly real this can be in our daily battles with the enemy. Spiritual warfare is an ongoing battle and the souls that God wants to save may be the very ones we are the closest to! I highly recommend this book and rate it a 5 out of 5 stars. This truly shows us just how powerful our God is, and how effective our spiritual armor and prayer can be in winning wars.

As the wife of a former unbeliever, this novel touched me in ways I hadn't expected. I felt the pain and heartache of the main character Lexie as if it was my own, as if I was reliving my past. I remember those days of crying out to God, of yearning for my husband to know God and to be someone I could share my faith with. It's a lonely place to be and Ms. Miller captured it expertly. Of course she would. She's in the same position and understands the sorrow and pain first hand. I loved this novel! I loved the symbolism in the sculptures God led Lexie to make... how each person was someone God wanted her to help! I loved the angst between husband and wife. It was so real, so heart rendering, that I just wanted to reach out and hug them both! But most of all, I loved the spiritual warfare! Ms Miller showed so skillfully how the enemy battles us on all fronts when a soul is at stake. At work, at home, with family...always trying to pull husband and wife apart using every tactic he can: personal failure, career problems, sexual temptation, etc. This is something most people rarely acknowledge or remember when they are going through tough times. We have an enemy and he is powerful and evil and wants to drag us to hell! But Gods' love always wins out in the end. The spiritual lessons woven through this novel will benefit many wives in similar situations, but you don't have to be in a mismatched marriage to enjoy this novel and to learn powerful truths about the battle between good and evil and how God wants us to look inside ourselves before we can truly look out.

Couldn't put this down, I loved how Miller wove in an intriguing what-if with spiritual warfare. And the conclusion was a bit of a twist, making the entire journey worth-while. Can't wait for more from this gifted writer.

Not everyone wants to talk about demons. Certainly nobody I know wants to encounter one. Many people, even within the Christian church, don't believe they exist. But Lexi Baltimore does, and she's been called by God to fight one.

Debut author, Dineen Miller, explores two important issues in *The Soul Saver*. One being the demonic forces that are at work behind the scenes to lure God's children into temptation, and the other being the issue of a

Christian being married to an unbeliever. In church circles, its called being 'unequally yoked'. Imagine if you will, the dinner conversation where you need to tell your husband who refuses to believe in God, that he's being stalked by a demon. Yeah. I wondered how on earth Dineen was going to pull this off, but she did it. The plot has just the right number of twists and turns to keep you flipping pages, desperate to know what will happen next. I wasn't altogether comfortable with the attraction between Lexi and Nate, but it was presented in such a way that you could totally understand how it happened, and it proves just how easy it is to fall into temptation if we don't fight against it. I have not seen many Christian Fiction books that tackle either of these subjects, so this story was rather refreshing. I wouldn't call it a light read, but Miller's wonderful writing will draw you in from start to finish, and like me, you won't be able to put this book down. Well done, Ms. Miller!

Lexie Baltimore is a loving wife and mom who also happens to be a devoted Christian woman married to a man she loves deeply, but does not share her beliefs. She is also a woman who God has been sending on missions, using her talent as a sculptor to guide her to those in need of His Hope. Then one day Lexie meets a pastor who appears to be everything she has ever hoped for in her own husband. As Lexie's efforts to bridge the gap between her and her husband begin to fail, rumors and accusations rear their ugly heads regarding her husband which threaten to tear apart their family. Both Lexie and her husband are faced with temptations they never could have imagined. Unbeknownst to both of them, there is an evil power working against them, orchestrating things behind the scenes, which will stop at nothing to tear apart their marriage and their lives.

This books is very well written. From the first chapter I was hooked and on the edge of my seat waiting to find out what was going to happen next. Not only is it a good read and entertaining - it deals with the very real issues of temptation, trust and faithfulness in marriage. It also is a very well portrayed view of the frustrations, confusion and hurt that is often felt by someone who is a Believer married to someone who is not. You love the person you are married to deeply, however you are unable to share a very important part of your life with them. Others who are not in this situation are many times well meaning but they don't truly understand the situations and emotions you are dealing with.

Dineen accurately conveys these emotions in her writing. As I read I was so overwhelmed with just how accurately she was able to express on these pages some of the things I've struggled with personally over the years. I hope it will help those who are not in this situation understand a little better where we are coming from - while enjoying a really good book.

While this book is most definitely a Christian book written from a Christian perspective, I believe anyone can enjoy the story Dineen tells. I would recommend this book to all of my friends - Christian or not, married or not, spiritually mismatched or not. Great read!

There's so much to love about this novel.

I found Dineen's debut novel really hard to put down. It moved along at great pace plus a series of well

managed conflicts (yes, there a few) made me want to get to the next page quickly.

The main storyline is powerful and compelling. And then Dineen overlays a spiritual battle to intensify the drama. It's this spiritual side that particularly grabbed me. Starting with Lexie's spiritual gift (you'll have to read the novel to find out what it is) which I discovered is Biblical, I was fascinated how Dineen seamlessly wove the spiritual in and out of the 'natural'.

The depiction of evil, both in the form of subtle influence and violent interruption, was very believable. In addition, Dineen demonstrated how easy it is for us to deceive ourselves when we take our eyes off God. This self-deception isn't necessarily caused by something evil, rather it's a reflection of the fallen nature of our hearts.

I was often cheering for Lexie and the Holy Spirit as they battled each conflict.

A great debut novel that demonstrates the power of God's grace and the faith the size of a mustard seed.

If you enjoy supernatural suspense powered by a beautiful love story, you'll enjoy *The Soul Saver*.
