Favorite Quote: "Ride me, cowgirl."

Tanna Barker was at the top of the rodeo world with three world championships under her belt and an endless supply of willing cowboys to ride. That was until a rodeo injury sidelined her and she lost everything. With her family gone and her reputation in shreds, Tanna heads to Muddy Gap, Wyoming for a chance to lick her wounds and regroup. When her sexy one night stand shows up in the daylight looking for something more permanent, Tanna wonders if she can handle everything this sexy cowboy wants to give her.

August "Fletch" Fletcher is all about working hard and playing harder. As one of the only big stock veterinarians in the area, Fletch knows his job leaves a lot to be desired and finding a woman willing to put up with the long hours and constant emergencies is hard. He has had his share of one night stands and sees nothing wrong as long as everyone knows the score. That all changes when a sassy rodeo queen takes him on the ride of his life, only to sneak out before he was done. Fletch wants Tanna for more than a night, but Tanna has plans of her own. Plans that do not include staying in Muddy Gap and playing doctor with the local vet.

When a forced vacation has Fletch staying at the same resort where Tanna is working, the sparks fly and emotions go wild. Fletch and Tanna spend time getting to know one another and connecting in ways they never imagined. When an offer of a lifetime comes Tanna's way, can she have the best of both worlds or will she have to choose between the love of her life and her lifelong dream?

Turn and Burn is the fifth installment in Lorelei James's Blacktop Cowboy series. A wild and steamy erotic romance adventure that pits strong willed heroines against sexy alpha males in a fun often raunchy battle of the wills that leads them straight to bed. Well written with witty dialogue, strong characters, and emotionally stirring storylines. Plenty of humor and sex made this story a joy to read. Though the story centers strongly on our protagonists and their journey, we do see some small sub plots that intertwine and reveal slowly throughout, giving us clues to future books.

Tanna Barker is a delightful woman. The perfect blending of strength and vulnerability, she was a joy to get to know. Strong, intelligent, funny, and soft hearted, she'll do anything for a friend but don't expect her to roll over and expose her throat. She's only submissive when she chooses to be. She learned the hard way that life as Queen of the Hill can be taken away in a single moment. Her accident and the death of her racing horse has left Tanna incapacitated around horses. Celia, her best friend and former Rodeo Queen herself, convinces Tanna to come to Muddy Gap and work with Eli, a renown horse whisperer. If he can help Tanna overcome her fear and the guilt over the accident, then Tanna plans to head back to Texas and barrel racing. One night with August Fletcher leaves Tanna confused and hungry for more. Tanna knows she isn't in Muddy Gap for long and doesn't want to start something she knows can't last, but Fletch is charmingly demanding. He is infatuated with her smart mouth, crazy attitude, and zest for life. He knows she is leaving but he can't let her go without seeing where their attraction can lead them.

"That is so not fair," she hissed.

"What?"

“Looking at me with those sexy bedrooms eyes, stripping me naked like you’re deciding which part of me you want to devour first.”

Fletch is the perfect blend of arrogance and charm. A sexy delicious alpha who challenges and encourages Tanna without attempting to control her. He sees her strength and determination and it only increases his attraction for her. He’s a workaholic whose inability to delegate is the reason he hasn’t had a committed relationship in years. Meeting Tanna has him reflecting on his personal life and what he’s willing to give up to have her. His loneliness is felt and I couldn’t help but cheer for him as he slowly worked his way into Tanna’s heart. He has no serious baggage to overcome but he does have a problem with communicating his feelings. His fear of Tanna leaving has him unable to let her know how he really feels and this causes some problems.

Tanna and Fletch are good together. VERY good together. In and out of bed. Some characters just click and you can feel that in here. Heavy chemistry and tension gets your heart pumping as these two begin the age old of dance of love. They have a strong sexual connection that is apparent from page one. Fletch has an attractive dominant streak that comes out in the bedroom and that leads to some very smexy scenes with explicit detailing and a strong dose of fun and romance. I enjoyed the fact that neither of them played games or were ashamed of their sexual appetites. Both Tanna and Fletch had no problem telling each other what they wanted and getting down and dirty to get it.

“Ever been sucked off in your office?”

He shook his head.

“Seriously? A hot doctor like you never had a veterinary assistant follow you in here, lock the door and get on her knees?”

Watching Tanna learn to get back on her feet is heartwarming. Her journey is and emotional experience as she has to learn to grieve, let go of the past, and forgive herself. I can’t imagine fearing something that I loved all my life and that is the position Tanna is in right now. With the help of old and new friends, Tanna begins taking baby steps and finds her own way out of the darkness she’s placed herself in. Though the ending is predictable, the path to it is anything but. Ms. James doesn’t give her lovers an easy HEA and you find yourself crossing your fingers and toes as you watch these two stumble through some pitfalls.

I feel Turn and Burn is one of the strongest in this series to date. A sexy, erotic, funny, and engaging romantic contemporary that will have you laughing, sighing, and begging for more once the last page is read. I look forward to the next one in this series.

Rating: C ... Heat: Sizzling

Former barrel racing champion Tanna Barker is looking for a fresh start. After a bad accident on her horse, Tanna is afraid to get back on the saddle. Tanna’s afraid of a lot of things really—horses, men, relationships, her former life in Texas. So she’s packed up and is temporarily moving to Wyoming to work at the Split Rock, a resort that’s owned by one of her friend’s husband. And what does Miss Tanna do her first night in

town? She hooks up with a random (and totally sexy) stranger she meets at a bar. Once her wild night of fun is over, Tanna does what she usually does—splits—expecting to never see her handsome hookup again.

A few days later, however, there he is. August Fletcher, an overworked veterinarian who also happens to be one sweet talker. Even though he may not have a lot of suave moves, he gets you with his honesty and directness. He says what he means and then acts on it accordingly. But falling for Fletch, who never has a day off and might be the hardest working man in Wyoming, isn't something Tanna wants to do. Too bad Fletch is resilient and stubborn. Even more so than our super stubborn heroine.

These two have, oddly enough given their initial hookup, a very slow build. Tanna takes a lot of convincing. Nearly one third of the book goes by and she wouldn't even agree to a date. I never really understood the hold up on her part and it really bogged things down. Once she finally relents and Fletch gets a long and much needed sabbatical from his practice, well, that's when things heat up. And up and up.

James is known for writing a certain kind of rough and gruff and dominant hero and Fletch is no exception. He's quite the beast in bed. And since he has to handle large stock seven days a week, he's also really well built. Plus there's the fact that he's a true gentleman on top of all that? Heck yeah I'd want to lick him from his neck to his... you know... too.

Which is why I just did not get Tanna at all. There are a lot of things I liked about her, don't get me wrong—she's sassy and smart and she's got quite the mouth on her—but I simply did not like *her*. She pussyfooted around forever. She refused to show almost any real emotions without sarcasm. There were other small things that annoyed me but, as a whole, Tanna and I simply didn't gel. Which is unusual, as I have loved every other heroine Miz James has written, but it happens.

Turn and Burn starts out white hot and, though it slows down for a period, only manages to get even hotter. August Fletcher is the heart of this book for me, with his straightforward methods of seduction. For a man who doesn't have a lot of free time, he knows how to make the most of his nights off. I wish I had grown to love Tanna too but it just didn't happen. Still, if you're in the mood for sexy cowboys who get down and dirty on the job and off—no one beats a Lorelei James hero!

◆ 4 "Sugar twang" Stars! ◆

So a few days ago I decided I was on the mood for a western romance, and who is the best chance for a good erotic western romance? Lorelei James, of course! I loved her *Rough Riders* series and now, I am enjoying this one as well (but maybe not as much!).

The fifth book in this series is called *Turn and Burn* and it tells the story of Tanna Barker (a kickass world

champion barrel racer who unfortunately has suffered a riding injury) and August Fletcher a.k.a Fletch (a hot on-the-road vet).

“You are trouble,” she murmured, unable to look away from him. Something about this man pulled her in and revved her up.

“No more trouble than you are, spy girl.” He held out a twenty for the bartender without breaking eye contact. “You wanna grab us a booth and we’ll talk about what kinda trouble we can get into together?”

I don't have a lot to say about this book. I mean, if you have read anything by this author and if you enjoy a smokin' western romance, this is a good book to choose and read! Always, my favourite thing about her writing is the good relationship between the main couple and also with the secondary characters. It's good to see glimpses on the other couples and their families. Also, it is amazing the chemistry and the sexy times between our two protagonists.

“Look at me.”

She opened her eyes at his soft command.

“Fletch? What’s wrong?”

“Nothin’. Everything is right for once.”

So, short review but my rating for this is 4 STARS because I enjoy a good western romance but I also know better works by Lorelei James. Also, because I am excited to read more about these characters. Recommend if you are into western and hot romance ;)

Spoiler Ahead This was book 5 in the *"Blacktop Cowboys"* series. Tanna Barker is a world champion barrel racer. After her mother's unexpected death, her father has remarried, and sold the Texas ranch she called home. After she is injured she is left broken and at a standstill in her life. August Fletcher is all about his job. Being a vet for large animals in a farm town means he works all hours of the night and was always on call. Fletch has never even taken a vacation since he started his practice. He only wished he could find someone who could handle his ridiculous schedule. When a one night stand turns into something more they leave without getting each others names. When they run into each other again, Fletch saw it as a second chance with Tanna, but she was not one for anything long-term. Fletch would have been okay with that himself except he felt that there was something special between them. So he proposed that they keep seeing each other until she leaves town. Fletch, who soon started to really fall for Tanna and wanted something a little more permanent with her hoped that he can convince her to stay. Since Tanna's terrible rodeo injury she had developed a debilitating fear of horses. She couldn't go near a horse much less ride one without having a panic attack. This may be a career ender for the three-time world champion barrel racer unless she pulls through it. Fletch, despite knowing that if she can get over her fear and race professionally again he'll lose. So he worked with her and pushed Tanna harder than any one. Both were very stubborn and don't want a long-term relationship I really liked both of these characters. I love reading this series the sex scenes in this book were hot. This book was well written with no errors in grammar or spelling. I am looking forward to reading the next book in this series.

Ok I'll admit it.. I'm totally fangirl crazy over Lorelei James. I may even have a small girl crush on her. She totally sucked me in from the first novella I read by her, and this latest release Turn and Burn is beyond freaking fantastic. I literally sat down to read it and could not put it down till I finished. I was so drawn into the lives of both of these two people. I have to say one of my biggest reasons for loving the Blacktop Cowboys series is the fact that with each book you get has such different characters and story. From book one to now book five each man and woman is so different from the others, and yet still able to relate to the others in the series. While Lorelei's books in this series and in her Rough Riders are all cowboy related, you never get the feeling of damnit I've read this before.

August Fletcher (my new book boyfriend, that's right ladies I've claimed him as MINE!! Hehehe) has one priority in life and that is his veterinary practice. He hasn't taken even a day off in the years since he got out of college. He isn't so happy with his life these days. Most of his friends have now paired off and started families, and while he is happy for them sometimes being around them points out the emptiness of his own life. Until the night he meets the one one-night stand that throws his whole world for a loop.

Tanna Barker life has been in total chaos for the last two years since the death of her mother. She suffered a life altering injury, and now wrestles with a fear that could end her career. She is going to be spending the summer in Muddy Gap, because her closest friends got her a temporary job at the Split Rock. After a chance meeting with Fletch, Tanna fights tooth and nail not to give into the powerful pull of lust and attraction between them. Try as she might she is no match for the sweet sexiness that is Fletch. But can he break down all the walls that she has built up??

These two brought out every emotion I have. I cried with them, laughed, and lusted too. I think I related most to Tanna than I have to any female character I've read. I have been in her shoes where an accident jacked up my knee and gave me a fear that I still wrestle with today. I absolutely adore the way that Lorelei didn't gloss over her healing. Every day is a struggle when you have an irrational fear, and it takes lots of work to get past it. It would have been too easy to have her better in a matter of chapters, but this is a truly realistic beautiful journey!!

4.5 Kickass Blacktop 'Cowgirl' Stars!! Another winner in this awesome series! August Fletcher...YUM!

Tanna Barker finds herself in Muddy Gap Wyoming, after a devastating accident and the traumatic events that followed. It's left her with a paralyzing fear of the animals and the sport she loves so much, horses and

barrel racing. She finds herself back with her friends, and is temporarily employed at the Split Rock lodge while she decides what to do with her life. August Fletcher, the local large animal vet, runs a successful practice and his professional life is full, his personal life is another matter. It's nearly non-existent, other than an occasional meaningless one night stand...until that one-night stand involves a feisty cowgirl from Texas.

Wow...Tanna and Fletch were **burning up the sheets at every turn!!** They were quick to hop in the sack, but once they get to know each other, their connection was real. They commit to each other short term, and although there are one or two misunderstandings, the relationship is not wrought with angst, something this reader appreciated.

Aside from the hot steamy stuff, which Ms. James writes so well, what I loved most about this book was the real life situations that Tanna and Fletcher were facing. Tanna overcoming her fears, and getting 'back on the horse', so to speak, and Fletcher letting go, finding a way around his demanding schedule, allowing the possibility of a permanent relationship and maybe a family someday. This is what is at the core of this book, and reading how they both compromise and support each other, was the beauty of this read.

For the most part, I enjoyed the read except for two things. I love terms of endearment, most of the time, but Fletch's pet name for Tanna, 'sugar twang', had me rolling my eyes. Okay, it was cute at first, but then it got on my nerves.

Also, we are hit with the news that Liberty, Harper's sister, has a traumatic event happen in her life. I have no doubt that she will become a main character in a book in the series, but I didn't like that we are left hanging with nothing to pacify us in the meantime.

The addition of all the characters from the prior books was a sweet little extra, especially since I enjoyed reading about them in their own books. The families are growing; lives are being built in and around Muddy Gap, I look forward to seeing all of them in the books going forward. I enjoyed the Mud Lilies again, and I love how the men, particularly Tobin, look after them when they hit the town!

So where does the series go from here?! If I had my guess, it's going to be Hugh and Harlow, and Tobin...the yumalicious Tobin...and Liberty. Just my gut feeling. Devin...he's a mystery to me, and I can't wait for him to find love. No matter who ends up being partnered, I'm in it for the long haul! This series is a winner and I have no doubt that the talented Lorelei James will continue to bring the goods!

Love barrel racing! Fast paced and exciting! It requires a tremendous amount of skill from both the horse and the rider!

Handsome Hottie ~ Dr. August Fletcher! I like to imagine him doing his rounds just like this!!!

Annie (Under the Covers Book Blog) says

Tanna Barker experienced a disastrous injury that has manifested into a full-blown phobia of horses. She has

lost her love for barrel racing as the rest of her world falls apart. Unexpectedly, her mother dies, then her father remarries and has sold the ranch, leaving her feeling adrift with no real purpose.

She stumbles on August Fletcher, a veterinarian in a hot one-night stand but after that explosive night of chemistry, both of them are wondering if this could be something more. Fletch soon finds out that Tanna is staying in Muddy Gap and makes it his personal goal to convince her they should be together. However, Tanna's spit-fire personality will definitely put up some barriers that Fletch needs to go through first.

As expected, Lorelei James provides readers with a singe-your-eyebrows hot romance that delves deeper than ever before. TURN AND BURN is not simply about overcoming the fear of falling in love; it also deals with facing your fears. Loyalty and courage are two things addressed in this novel, making it universally relatable for all readers. Both characters turned out to be more than I expected. James creates such richly nuanced characters that are multidimensional and shockingly real.

In addition to that, James provides updates on past characters, creating a bigger picture while also solidifying the familial aspect to this series that has made it so successful. I loved the way James integrated the past characters into this storyline. Romantic love isn't the only kind of love you get in this book. There's also friendship and family that strengthens this series.

James has another winner on her hands. With clever dialogue and endearing characters, there is no question that readers will fall both in lust and love for TURN AND BURN.

It is not a secret that Ms. James writes some of the best contemporary western romances to grace the erotic genre. Her heroes are swoon worthy, and her heroines are more than likable.

If you are not a newbie to Ms. James' work, Turn and Burn will not disappoint you. August "Fletch" Fletcher and Tanna Barker's story starts out with a bang and will leave you grinning throughout the entire book.

From the beginning of the book tall, dark, and sexy Veterinarian Fletch knows what he wants, and that is the one and only sassy, outspoken, two time world champion barrel racer Miss. Tanna Barker.

I really liked Fletch and Tanna. They were a perfect match and their chemistry was off the charts.

If you have not started this series yet, I suggest you start with Corralled the first in the Blacktop Cowboys series. But hurry up because you have a lot of catching up to do!

Lorelei James writes amazing stories about flawed people who have amazing sex lives and work it hard to get their happily ever after.

the Review...

Two amazing people, both broken and bareback...welcome again to the Blacktop Cowboys series. I loved Tanna in all the other books. She was the no holds barred, take 'em hard and leave 'em wanting kind of gal. She won championships and lived fast. Why not? She had her momma's love, her grand-daddy's ranch and her winning horse.

Now, nearly two years after losing it all, Tanna has no identity and even less money. Desperate, she turns to her friends for help. On her first night in town, Tanna vows to end her carousing ways with one last fling. The target...any man that will buy her a drink. After about 8 free shots, Fletch calls her bluff and the two get down and dirty. I loved their honesty and their steam. But like all of the best one-night-stands, Tanna was gone in the morning. The upshot was an amazing night for Fletch...the downside was that for the first time ever, he wanted the woman there in the morning.

I loved how these two, who didn't even know each other's name, grew to be friends, then lovers and finally

I received a free copy of Lorelei James' new book Turn and Burn as a Goodreads first reader giveaway. YUM YUM! I consumed this book in two days. I am no cowgirl but I enjoyed the story and characters so much, I would gladly move to Wyoming and live on a ranch if there was a chance of even meeting one of these smoldering men. The sex scenes are incendiary...I was sweating just from reading. The story is touching, funny, insightful, and human. The writing is superb. The only complaint I have is that it had to end. I will certainly buy more from this author.

Auntee says

It just gets better and better..

I didn't realize how much I enjoyed this one until *after* I finished it...and then kept thinking about it!

World champion barrel racer Tanna Barker (36) had been introduced in a previous book in the series, as well as the hero, veterinarian August "Fletch" Fletcher (I always wanted him to get his own book!). I wasn't that enthralled with Tanna at first (seemed a little too slutty for my tastes), but boy did she grow on me by the end of the book! It's a testament to LJ's storytelling skills that she got me to empathize with Tanna and all that she was going through (with her rodeo injury and her absolute fear of horses) and to root for her "sex only" relationship with Fletch to turn into something real.

Tanna...

Fletch I loved from the get-go. Loved this 6'5" half-Native American stud every time he made an appearance in the previous books, and I was dying for him to get his own story. Tanna matched up with him perfectly sexually (was there nothing that they wouldn't try/do?) and they were one...hot...couple. I absolutely loved the inner dialogue that they both had, as well as their actual dialogue. Tanna had "no filter", and was quite raunchy at times, which was kind of fun. And Fletch had no trouble keeping up with his "sugar twang" (kind of a silly nickname for the native Texan)--this guy could dish it out as well as take it.

Fletch...

I enjoyed the whole emotional journey that Tanna went through--trying to get her nerve (and confidence) back so she could resume her career, and finding a place where she belonged. My absolute favorite scene had to be when Fletch took Tanna riding with him, forcing her to get on a horse again and being right there beside her, (sweet) talking her through it...*swoon*.

I also enjoyed Fletch's journey from a guy who never had a lasting relationship and only knew a dedication to his career, to becoming a man who wanted something more, but didn't quite know how to get it. I love seeing him falling in love with Tanna, loved how he could be flirty, silly, laid back and charming; loved his modesty and his dedication. Loved when he finally knew Tanna was "the one", and loved how he was willing to sacrifice to get her.

I wanted these two to find a way to be together permanently, and to realize they loved each other. And LJ made it happen (even though it played out a little differently than I imagined).

So yeah, this one was a winner for me. Plenty of plot, backstory and juicy details, and not just a sexfest (although LJ certainly *did not* skimp on the hot sex). And LJ also revisited (or spoke of) most of the characters from previous books (and there must be something in the water in Muddy Gap, Wyoming, because the women seem to be reproducing at a rate to rival the McKays!)

This series has certainly found its groove, and I can think of a few more characters (like Tanna's brother, for one) who need their stories told. It's nice to know that when the **Rough Riders** series finally dies out, there's another equally fascinating one to take its place. 4 1/2 stars

**Warning: This book contains explicit dialogue and sex, including oral and one anal scene. Not for the faint of heart.*

Did not keep my interest.

I read the first 200 pages and the last 4 chapters. Not enough story. Characters not interesting enough. I've really enjoyed some of her other books but this one felt like she had nothing to write about. If you've not read this author before, note that her Cowboy books have erotic and graphic sex scenes.

The books I liked were Cowgirl Up and Ride, All Jacked Up, and Raising Kane.

I read an Uncorrected Proof - Not for Sale.
