Christina says

I thought this book was bitter-sweet because Diana has a fairytale marriage but at the end she dies in a car accident. I enjoyed this book because Diana is a nice person who helped others. She sold some of her most precious dresses to raise money for the less fortunate. Diana was also charitable because she helped people with AIDS and cancer. I like to read Who Was books because the people are interesting. I like to read the books about powerful women.

Rachel says

If anything this was definitely interesting. There was some stuff about her childhood that I hadn't known.

Heather Shembarger says

This is an enjoyable quick read biography on Princess Diana. The book does an excellent job making the reader realize what a quality person Diana was. She was kind and compassionate and a very good mother. I did not realize she was only 20 when she married, and I also did not realize what an age difference there was between Princess Di and her husband Charles. Even though the story ends sadly, it was interesting to read about just how many people attended her funeral and how her ex-mother-in-law even had good things to say about her. Different charities she started or supported still exist today and continue to do humanitarian services.

I loved this book. To me this is the best book out of the who was series. My favorite part in this whole book is princess Diana has her royal wedding. I also liked how Diana spent as much time as she could with her two sons to me that shows me how much she loves them.

I thought it was sad that she died at such a young age. This book gives you tons of information about Diana, and Fun facts too. I rate this book 5 stars I recommend this book if you like biographies princess Diana.

Good short bio. Wish it would have had some real life photos, though.

Who was Princess Diana? By Ellen Labrecque is a book level 6.0

Summary: This book highlights Princess Dianas life and her tragic death and how much it affected everyone.

Classroom Integration: This book does a great job of displaying conventions, they have short sentences and long sentences. It has great punctuation, dialogue and so on. Since students could already be doing a piece about a famous person that has influenced them this could align with that learning piece quite well. I would read this book aloud giving students an idea of another person they could use to research and a different way to highlight someone. Since they are already creating a piece I could point out the conventions and how well they did with it to make the book more interesting. Students could then go back and edit their own writings to make it more interesting for the reader to read with great conventions.

Susan says

Great book, my princess obsessed 5 year old loved it as well. I was young when Princess Di passed away so it was great to hear about the people's princess as an adult. My daughter loved reading about a real princess and said "she's a very nice princess." I loved how the book focuses on Diana's charitable causes and the outreach she had with ordinary people. Great read

Angie says

What I loved about this series is the simplistic way each person's story is told. Especially this story which ends in a tragedy. I really adore this series

Title: Who Was Princess Diana

Author : Ellen Labrecque

Rating: 8/10

Pages: 112 pages

Genre: biography series

Content: This New York Times Best-Selling Series goes into the life of the famous people Princess Diana from birth to her tragic death.

What I liked: I loved the cover, the drawings and the simple language .You get to know the shy 20 year old princess and experience the real life fairy tale up close and personal. You get to find out about the inspiring humanitarian and care giving Diana and how she used her fame to shed light on causes close to her heart. I cried and laughed with the heart warming anecdotes. I fell in love with Lady Di. Her humbleness, simplicity and kindness is so inspiring and touching. I felt a deeper connection with the princess on that level. I am at a loss of words to how amazing she is. The world has lost a Diamond but her love and presence surpasses any existence, time or place and that is the IMPACT of a HUMANITARIAN.

what I disliked: it was very short. simple . It omitted necessary information about her personal life . I wanted to know more gripping details about her.

lesson learned

Treat everybody as an individual and never throw your weight around
