#### **Great series!**

Great read !

I'm just answering the questions or some:

- 1) justified is not the word I would use in Kat's case, misguided is more like it because of her experiences . Her prejudice against all cops were ingrained bc of the own mistreatment + her brother 's and then other leader ( I don't think she did truly hate them)
  - 2) D'asia wasn't right, however Kat needed the wake up call from a true friend. Tough love and all!!
  - 3) Vic & Dashawn relationship was beautiful and helpful, I wish there could more Vic and Dashawn in this ?.
  - 4) yes we need more programs like UNITE in this country
  - 6) Vic is wonderful human being with a heart of gold, and would die to protect his own as in pp he loves and others. A true blue!
  - 7) I believe he learned quite a bit and still learning
  - 9) I think Sal just made some choices and live to regret it.
  - 10,) yes I'm ready for Reggie
  - 11) The media has twisted the black life matters movement into something totally different than what it means: yes lives matter, however, white pp's lives always matter, it's never an issue... It means : "black lives matters also". Period. But p, the frikkin media has to make it ugly for attention purposes.
- Sorry if I skip one of 2!!

#### **Emotional**

Love Vic and Kat! I bawled when DaShawn was killed....too indicative of what's happening in real life!

I can understand every characters stance because as a woman of color, I've been there, done that. We as a people need to be open minded and willing to listen.

The chemistry was off the chart, the situations were moving and the love and understanding leaped through my Kindle.

I love when I'm taken on an emotional journey....that means the author accomplished her goal.

#### **10 Stars**

Once again, Xyla is NOT afraid to go there in her books, in her discussion of today's hot button headlines

regarding the police and the Black Lives Matter Movement. She presents both sides of the argument. This book really made me think and examine my own feelings and biases.

And, after meeting Victor Ritter -- I was like Ryan (10-80) Who? Victor is the man. I love the words that come out of his mouth!

#### **Wow & then some...**

What an amazing, unlikely yet perfect pairing. Sometimes the universe just works its magic and if you're lucky it lands right on you. Kat & Vic are opposite sides of the same coin and made for each other. This tale is full of some heavy duty real world drama and handled perfectly. The author goes there so if you have a weak stomach give it a pass. Intelligent, insightful .... and definitely on time. Well done!?

Another great story. Talk about opposites attract. Vic and Kat is a prime example. A white cop and a strong black nurse who hate cops. Their story is very touching. Looking forward to Reggie's story in this series.

I love a story that pulls you in and gets you invested into what the characters are going through, and this was definitely one of those stories. Vic and Kat are two very opinionated strong-willed individuals who were determined to make the other see their point of view, which made for some very passionate love scenes between the two. The issues that they have with each other will make you think and then rethink what you originally felt in the beginning of their journey. Life's circumstances shape who we are and how we think, which also holds true for Kat and Vic, and can possibly make you miss out some wonderful adventures that may cross our paths. The key is to listen and be open minded to others views, and what you thought you knew for sure, you may not have known at all. I loved this couples journey and the awesome background characters that made this story a great read. I loved 10-99 and give 5 well deserved stars!

Not a bad read. Author dealt with current events OK. Just when I was about to throw it aside because of some of the "I can't be with you because.." B, the author maturely presented a reasonable pov that allowed me to continue to the end. I do understand the heroine's concerns and how traumatic past events shaped much of her view. Glad that she allowed herself to grow and recognize what the universe had to offer her....

This series sparks great conversation. I also appreciate the discussion questions the author poses at the end of the book.

Another good read from Xyla Turner. I also enjoyed catching up on Ryan and D'asia. From the first book.

### **Not everything is black and white**

Vic and Kat's story is more than BWWM, it's an American reality that makes you look passed the skin and to the character of the person. The story touched on a current narrative where it seems law enforcement and people of color are at odds. Where right and wrong are blurred based on what the person looks like. Xyla sought to tackle this story from different points of views while love being the core for Vic and Kat. You'll find yourself recognizing that you make hAve some biases that need to be addressed. That it can be an uncomfortable truth. Yet with friends like Ryan and D'Asias Kat and Vic were able to work through and see things from different lens

### **A great read!**

3.5 stars!

Vic & Kat's love story makes for a lovely read, pushing all those romance buttons : Alpha male, check, stubborn female, check, sizzling hot smexi time, check. I also loved seeing characters from the first book in this series. The only detractor was the presence of few editing quibbles.

### **All Lives Matter**

This was a great love story, but the aspects of the story that caught my attention was the commentary on black lives matter and blue lives matter. A few of the arguments I've heard but this book gave me some food for thought.

Once again this author take you on a ride. I loved the fact that the author take issue that we are dealing with today and present from all side. I loved me some Kat and I totally get where she coming from. Then she met Vic and realize that you can't hold everyone for something that someone else did. I look forward to read more of this author work.

I dont think Kat was justified in her hatred towards an entire occupation yet once she explained I understood why she would feel that way.

D'asia was right in telling Kat she couldn't get down with her stance. D'asia experienced both sides of law enforcement. After all D'asia experienced with Ryan I understood that she couldn't hate an entire occupation. Vic's relationship with Dashawn was helpful. It helped both of them. It helped Dashawn get on the right track and it helped Vic later on when he most needed it. Damn u #XylaTurner u played with my freaken emotions!!!!

I believe any program that helps the community unite is important and needed. It should be given more funding and be apart of sentencing for criminals looking to be rehabilitated.

Police officers should be more visible in the community . We need to remind people the people in blue are not our enemies..... more here <http://bit.ly/2egg4y3>

I enjoyed this book. I think this series is a great example of why I like Xyla Turner's writing. She deals with topics that most tread lightly over. She dives in and causes you to question yourself. In this book, it was dealing with bias and prejudices, those unspoken rules that plague our society. I like that she gave a clear picture of both sides. This book had me reeling during several parts. I liked how the main character, Kat, is called to rethink her stance and ideals. I liked that despite her stance, she was compassionate, but didn't take any mess. I liked Vic's character as well. He was strength and honor wrapped in a hot package. I enjoyed the questions Turner wrote for discussion at the end of the chapters the most. Further promoting the need for us all to talk about these very real issues. Great job Xyla. Caution: this is written for adults (language and situations).
