## **Cheetahs Never Win** R.J. Blain

Witnessing a double homicide dumps Aaron Clinton into the middle of a gruesome murder investigation. To stop the budding serial killer from striking again, Aaron must join forces with a reformed cop and a colony of cranky cats.

Warning: this novel contains cats, murder, more cats, mayhem, cheetahs, mischief, felines, a serial killer, romance, humor, puns, generalized hilarity, and whipped cream used in inappropriate fashions. Proceed with caution.

## **From Reader Review Cheetahs Never Win for online ebook**

### **Bert says**

Fast fun read. Starts off in what feels mid story (but isn't) and gathers speed from there. Bonus while you get the romance (and the shoes) it is safe for PG-13 eyes (no blow by blow). I will definitely have to read more of this fun series!

---

### **Maggie says**

Pleasant enough easy read. I was disappointed that this wasn't as funny as her earlier books. For humor *Playing with Fire* and *Serial Killer Princess* are the go to books of this series.

---

### **Lara says**

#### **An Average Addition**

I really love RJ Blain's Comedies with a Body Count. Typically, they are brimming with droll humor, quirky character development, and an exciting and speedy plot line. The world she has created for this series is well fleshed out, completely original, and fun. Bonus: they tend to be free of pornographic sex scenes. Lovely!

This addition to the series was not her best and not her worst, just average.

I gave this a 5 star rating for originality, humor, and a gut wrenching plotline that kept me reading.

However, it loses 1 star because, unlike in past books, this one had a heroine that reminded me of an overly hormonal 14 year old girl. That's all I really got from her: it was unengaging.

It also loses 1 star for language. RJ Blain always has some cursing in her books, but at one point I counted the f word 4 times on the page. I recognize that there are people that speak this way, but they sound horribly uneducated. When it is in writing, the author loses the opportunity to draw the reader in with enthralling language. It's just poor writing, and RJ Blain usually does a much better job.

So why 4 stars? I added 1 star because I loved that the main characters had sex behind closed doors. I loathe reading porn, and this book was free of it. Wahoo!

If you're looking for a fun urban fantasy series with uncontrollable humor, this is the series for you. Just don't start with this one. Read it after you've read the others and fallen in love with the series. Enjoy!

---

### **Britt says**

**Cute**

I've enjoyed this series. It's cute, funny and romantic. Aaron's dilemma was cute and so was Sassy. The situation they were dealing with was incredibly hard, especially since it's not entirely fictitious.

---

### **Emily Sinclair says**

#### **Excellent**

As always, another excellent read. The world building is complex and interesting, the humour slightly dark and slightly eccentric but always fun. Am hoping for stories with several of the side characters!

---

### **Cory Cravens says**

#### **Purr-fect!**

Wow, another good book by Miss Blaine! I thoroughly enjoyed and recommend this book. You never see a book about cheetah lycanthropes. It accomplished its goal of being interesting and entertaining. Please read and you'll see why I am so happy with this story. Enjoy!

---

### **Gillian says**

#### **So much crazy fun.**

I started this series with Whatever for Hire and then Proceeded to binge read everything the author has written under any name. This series is great fun. Funny. Snarky. Completely outrageous. The mythology is all over the place but consistent while including everything including the kitchen sink. While I usually prefer a more focused mythology these books are fun. Like cotton candy. Sweet, fluffy, outrageous, and probably bad for me but I can't stop reading them.

### **Sue G says**

#### **A little darker...**

The story was a little darker than her usual fare, but the story was spot on. The humor was contagious and found its way in at the right moments. Not an easy story to tell and leaves you a little heart broken even knowing out is just a story, but often art can imitate life.

---

### **Angel Ludwig says**

#### **Great fun**

Love her stories and her sense of humor. Will say the editing on this one needs work. There's a couple places where the mistakes are every other paragraph. Meh. Still funny as heck!

---

### **Shasha says**

#### **Whew!**

Maybe I need a break from this series because the crazy family life and circuitous dialogue was less funny than normal. It took me me three days of stopping and starting and even skimming to finish this.

Typos

---

### **Sarah Nutter says**

#### **Different**

While a bit more serious than the usual MRCWBC books, Cheetahs Never Win still fits in with the others with the puns and humor. I love that we got to see some non hybrid shifters and how they fit into the world.

Also, SPOILER ahead....

But one thing I think I look forward to the most would be triplet cheetah novellas. I mean how adorable would that be!?!

### **William Howe says**

#### **Where's the plot?**

This is a mess. Putting aside the typos that should have been caught before publishing, the plot moves at a random pace while the characters bicker. What's worse is they all end up sounding the same. There was no individuality in their voice. Without names and descriptions to set each person apart they end up being androgynous clones who all share the same love of banter.

The murders get solved as an after thought. Complete 'deus ex machina' except it's an archangel that essentially waves his hand and makes everything good.

Dead horses beaten: (shoes, virus levels, filial hijinks, fire ants,...) at least 7

Avoid this at all costs. I enjoy witty repartee, but I insist novels have more than just banter.

This series has devolved into crap. There are some interesting ideas and a fascinating world trapped under garbage dialogue. I keep hoping the next one will be better. Hope is fading fast.

---

**leslie r orr says**

Weird series total irreverent, unbelievable, and like chocolate you can't stop eating it or stop reading the stories. I started on one to read at the DMV.

Ordered the next one, now I'm up to 4. They are well written, a rollercoaster ride and fun. Please pick one you will buy another you'll see.

---

**Denise Misson says****Disappointed**

Very disjointed. Needs editing and proofreading to the extreme. errors occurred on almost every page. ...like "wolf back" instead of wolf pack, she "say with his mom " instead of sat, etc. it felt as if this was rushed to market unfinished. I enjoyed previous books in series and would revisit this if corrections are completed.

---

**Allyson Williams says****RJ Blain never disappoints**

RJBlain never disappoints. Her books are laugh out loud amusing. There is a love interest. Complications that make me laugh and wonder what is next! This book delivers on all fronts. Love interest. A body count. And a cherry on top!!!
