Hebrews MacArthur New Testament Commentary John F. MacArthur Jr.

A trustworthy, practical guide through one of the Bible's richest, most challenging books

The theme of Hebrews is simple: Jesus Christ is superior to and preeminent over everyone and everything. His absolute supremacy overshadows all else and demands the worship and allegiance of every individual. With eternity at stake, how one responds to Jesus Christ is the most important decision a person can ever make.

Join John MacArthur as he explains each verse in a way that is both doctrinally precise and intensely practical.

The MacArthur New Testament Commentary series comes from the experience, wisdom, and insight of one of the most trusted ministry leaders and Bible scholars of our day. Each volume was written to be as comprehensive and accurate as possible, dealing thoroughly with every key phrase and word in the Scripture without being unnecessarily technical. This commentary will help to give a better, fuller, richer understanding of God's Word, while challenging the reader to a vibrant personal spiritual walk.

A great resource for pastors, teachers, leaders, students, or anyone desiring to dig deeper into Scripture

Boring

Eric Nelson says

A particularly skewed look at a very difficult letter. There are no signs of careful exegesis here, as MacArthur not only goes for quick answers to tough questions (MacArthur suggests the author of Hebrews must be switching audiences even though there is no internal evidence for this) and makes sloppy mistakes (MacArthur highlights six warnings for believers, even though four are in sections he later identifies as directed towards a different audience). In short, MacArthur's interpretation of Hebrews allows for little grace, instead preferring an interpretation that encourages people to focus on their good works instead of the sovereignty of God's Word--the opposite of what the author of Hebrews intended. The best example can be found in MacArthur's summary of chapter three where he suggest that the rest the author speaks of can only be found in rigorous self-discipline and examination and Pharisaical way of following the Law--the very thing New Testament writers, like the author of Hebrews, is trying to liberate Christians from.[return][return]The word study is helpful, though.

Once again, MacArthur does an incredible job of explaining and applying the scriptures! It was wonderful and challenging to read and study. God willing, I will use this volume as a resource to come back to for years to come!

Just wrapped up leading a Bible study using this excellent guide. I enjoyed how MacArthur would cross reference other scripture passages that related well with the Hebrews passage we were studying each week.

Also, he has thorough notes on each passage printed within each of the twelve lessons. A great tool for leaders and participators alike!

Joyce Wheeler says

A deep and informative study on Hebrews, and also easy-to-understand explanations and comparisons of old

and new testament scriptures. It gave me new understanding and appreciation of the writing ability of the author of Hebrews, and also, a great appreciation of John MacArthur's diligence in research.

Bible Commentary *I learned so much!*

My goodness, I had no idea I would enjoy this study so much.

I've read Hebrews many times before, and sat through more than one sermon series on it. But this commentary opened up so much more of the meaning to me.

My new bible, which I promised myself would not be covered in notes like my last one (making it hard to read), is now covered in notes. Or at least Hebrews is!

I did this one as a personal bible study, not in a group.

Highly recommended!

Todd Bryant says

Really outstanding commentary on the Book of Hebrews. I used a number of books when preaching through the book. But, this was definitely my most utilized book. I enjoy the classics for sure. However, this one had solid exegesis and I didn't have to fight the language. Considering Hebrews is a deep book, this is an easy read.

I didn't really have any major disagreements with the book at all. MacArthur is strongly sovereign grace and always backs up his points with other Scripture. He is good about sticking with the text and he didn't skip any of the hard passages.

I doubt I'll ever preach through a book without reading his commentaries if they are available.

Used this book for a women's bible study at church. I truly enjoyed this thorough biblical study and look at Hebrews. I learned so much!!! I really like John MacArthur's research and commentary!!! Jesus is the New Covenant!!!!
