Audience: Grades 1-4, kids who like spy stuff or mysteries

Appeal: lunch lady is a spy with kooky gadgets like taco-vision night goggles. gym teacher disappears. would be good for beginning readers or students new to graphic novels. Would be fun to make up your own food-related spy gadget.

This was a fun/funny read. Oh, the innocent flippy bunnies that are actually evil;) Hilarious. I also love how Lunch Lady gets a new gadget in each story and sometimes incorporates the ones from previous ones.

My 10-year-old son has been devouring these books, so I thought it'd be wise to read one or two. Color me surprised when it turned out to be clever and funnier than expected (even for an adult)! The author's antics (the one in the book--not the series' author; though I suppose his count, too) are ridiculously silly, but the kind which I can easily see appealing to that middle grade student, and which give a good-humored chuckle to the reader. And no obnoxious humor or intentionally poor grammar/spelling/word choice (lookin' at you, Dog Man...). Huzzah!

After not being very impressed with book 1 and slightly enjoying book 2, I must say book 3 here has left me feeling much better about this series. After a rather curmudgeonly kiddy author visits to sign books, the school's coach disappears. Lunch Lady and the gang do some research and it seems school coaches have been disappearing for a few years back now coinciding with this author's school visits! Lunch Lady to the rescue! Lunch Lady is still a bit over the top with the kitchen gadget spy tools. Here she receives hamburger headphones that let her listen in on conversations going on all around her. The plot is still rather unbelievable. How can a common author have the power to hypnotize men into being his servants for years on end? But I like the repartee between the kids and how they take on the problems they are faced with plus their quick thinking and sensible, realistic solutions. Even though the Lunch Lady series continues to be over the top, I can honestly say I found this one fun, it had its humorous moments and I have finally made a connection with the kids, if not LL. Hopefully book 4 will continue in the same vein.

Spent my lunch period reading Lunch Lady, an excellent choice! (I've never read them all in order, so this is my week.) Our Breakfast Bunch are annoyed when a visiting author is tool cool to sign Hector's beloved copy of Flippy Bunny. But it's worse than that - soccer tryouts are canceled, because the coach is missing! Lunch Lady is investigating . . . and the Breakfast Bunch are determined to get Hector's book signed. (Could the two be related? :))

12/13 I have just finished reading lunch lady: the author visit vendetta, by Jarret Krosoczka. It is a graphic novel about a lunch lady with cool gadgets that help her stop evil people. In this book, she stops a evil author from trying to capture all the gym teachers in the world!!! I like this book because it is exciting, for example, when lunch lady tried to get into the evil author's house, she get's captured by evil hypnotized fluffy bunnies!This book is a action packed book, even though it is not that long, every page has something exciting!! I remember, when the author caught the gym teachers, he hypnotized them to do his bidding!!! that part had me laughing for hours!!! If you like funny graphic novels, such as Zita the space girl, and bone, this is the book for you!

A bitter author causes havoc that includes attack bunnies and dodgeball. One of my students' favorite Lunch Lady comics.

Lunch Lady, book 3.

For fans of Captain Underpants who suspect that their school lunch lady just might be a secret superhero.

An author visit with a creepy twist.

Alyson (Kid Lit Frenzy) says

Lunch Lady, the kids, attack bunnies, coaches being hypnotized, even an author visit...what more can you ask for. Loved this one.

Lunch lady by Vendetta is a great children's book that can be fun for young adults to read. In this book we find out that a famous author Lewis Scribson is going to go to Hector's school to give autographs. When Lewis gets there he denies the autograph to Hector. Hector was a big fan of his books Flippy Bunny books.

Hector ends up sad because he got denied by the author to autograph the book. The lunch lady who is mysteriously acting different tries to investigate things behind this author that acted up like that to the poor child. She begins to investigate him to the point that she ends up following him to his house. Lunch lady tries to help Hector as much as she can to get the author to apologize and sign the book he had. This book is great and I am pretty sure young adults will love reading from the things the lunch lady helps people with

I am a fan of Lunch lady. (read from book 1-9). Really like spy gadgets in this series. This book makes my sons, a bit struggling readers, read. So it helps my kids improve their reading skill. Take my 5 stars!

I finished reading Lunch Lady and the Author Visit by Jarrett J. Krosoczka. Dee,Hector,and Terrence are excited about the author coming to school the reason Terrence and Dee are excited because they miss math,Hector is excited because he is a fan of the author in the end when you could get your book signed. When it was Hectors turn he didn't get it signed because his cover was ripped up. Lunch lady and Betty are getting suspicious that he hypnotized every gym teacher he comes to see so they try to put a stop to it will they succeed or will they fail find out if you read the book. Jarrett did a flashback unlike other books its about how bad he was in gym and the coach and students laughed at him every time he messed up in something. Another thing she did is she used two stories and twist them together. My favorite part is when Terrence punts the soccer ball that Coach Birkby held and it flew towards the helicopter that the author was trying to escape in he made it blow up.

Reading to my son. He loves this series!

I finished this book series around 4 years ago and still enjoy the plot line. Who doesn't love a fighting lunch lady? I think while I was 9 years old this was my favourite book out of the book series just because of the fighting bunnies. But now I feel like I have a deeper respect for lunch ladies because who knows, they could be saving the world!
