REVERSAL Paul Levine

Justice Sam Truitt comes to the Supreme Court with high ideals. Lisa Fremont, his stunning law clerk, is under orders to win his vote in a plane crash case by seduction and extortion. If she fails, she'll be killed. Truitt, who's always followed the rules, and Lisa, who never has, must battle those who live by no law at all. "A relentlessly entertaining summer read." -New York Daily News

Susan Moore says

Paul Levine spins a great tale.

I really enjoyed this book, even though this is a reread for me. Great characters, plot, and subplots. I love it when the bad guy gets turned into a smoothie.

Gil Herman says

A great read.

One of Levine's best. The way he spun the tale brought out many emotions. All in all, quite thrilling and a point for justice.

George Stewart says

Paul Levine Vs Supreme Court

It's not Paul but his story takes twists and turns that would shake the court to its core. There is a slow building of the story to a climatic ending. The butler didn't do it. Did the heroine get her man in the end? You'll have to read it because I'm not telling.

Tim Marsh says

It's crap.

clm says

.

Not a bad choice for the day Scalia died. Levine's formula continues to work, even though there are predictable repetitions.

Anne says

Currently reading under the new title of IMPACT.

Kathy Elliott says

What is justice?

A plane crashes and all is not as it seems. Three years later, the families of the victims are seeking answers and a chance at their day in court. All the evidence points to a bomb, but the families believe that willful negligence was the actual cause. The Supreme Court of the United States must decide whether law or justice is their mandate. The search for truth takes a lowly law clerk and a Justice on a wild ride.

This book was interesting and exciting. An enjoyable trip behind the scenes of the Court and the seamier side of an airline on the brink.

Abbie says

Tragedy or murder?

The airline industry is strictly regulated to test all aircraft engines and moving parts regularly. What if a plane crashes and the truth is buried at sea with all passengers and crew, lost. A lawsuit ensues, trying to get to the truth, but is blocked from going to trial for insufficient evidence. The appeal is denied and the case then gets kicked up to the supreme court.

Is it possible to fix the ruling? What is the airline hiding, and why?
