Top shadowrunner and street samurai Argent meets with a potential client only to be caught in the middle of a deadly corporation crossfire that leaves corpses scattered across the streets. It turns out the meeting was arranged by Argent's former lover, who is trapped in the Pueblo Corporate Council lands. On the run, and hunted by assault teams, she knows that Argent's samurai code of honor will drive him to protect her. But in order to save her, he must confront the secrets of his past, and assemble a rag-tag team of mercenaries to elude the three corporations that have decided everyone involved would be better off dead.

**Todd Landrum says**

A decent popcorn read with a standard, stoic, angst-ridden hero. The bad guys are reasonably dastardly, the action fast & furious. The hero was near-invulnerable though which drained most of the tension from the story.
