## **Dharia Scarab says**

Since I don't normally write reviews unless I have something specific to say, here's the break down of how I rate my books...

1 star... This book was bad, so bad I may have given up and skipped to the end. I will avoid this author like the plague in the future.

2 stars... This book was not very good, and I won't be reading any more from the author.

3 stars... This book was ok, but I won't go out of my way to read more, But if I find another book by the author for under a dollar I'd pick it up.

4 stars... I really enjoyed this book and will definitely be on the look out to pick up more from the series/author.

5 stars... I loved this book! It has earned a permanent home in my collection and I'll be picking up the rest of the series and other books from the author ASAP.

### **Hugo steals the show**

Amy's writing is clean and smooth. Her characters jump into your heart and become a part of your imagination. This is the 3rd series of hers I have fallen for...now I will impatiently wait while she does her magic and writes another chapter in the lives of those characters I love!  
If you haven't read any of her books, I highly recommend you do!!

**Still fun.**

Still a fun series. Jellybean fetish may be getting to be a bit much for me but I can get over it. Betty, Peppers grandmother is a hoot.

Mystery is a simple fun one.

I will say, Come on train her in some magic already.

Warning this book ends a bit more cliffhanger-ish than previous books.

### **I love Sweet Tea Witches**

Another great installment in the Sweet Tea Witches. Book 3 is the best to date. Pepper gets a familiar. You won't believe what it is. He is going to be a great asset to the Witches. I don't want to give anything away, it is a must read. I do have to say that the ending of this book has me pretty upset. Defiantly ready to read book 4.

### **Love love love this series**

I adore Pepper and her family, the Cove and all the stories of the Sweet Tea Witches. The only thing bad is the sleep deprivation I get from reading them cover to cover!

### **I am hooked!**

I am hooked like a worm on a fish hook. This series has a great mixture of mystery, humor, and romance. I can't wait for the next book to drop. When it does I will have my popcorn and sweet tea ready!

## **Michelle Randall says**

When a baby Dragon arrives at the pet store, Pepper is in shock and wants nothing but to get rid of it. Having been raised in the human world, all she knows about dragons is that they are huge and breath fire and destroy things. It never occurs to her that she is living in the witch world and that having a dragon might be a good thing.

Too bad that Mysterio, the magician that she sold the dragon to turns up dead just as she is getting him back, and now she is on the suspect list once again. Good thing she has her cousins, Axel and Grandma Betty to help her figure out what is going on, as well as teach her a little about the dragon that is to be her familiar.

This is the third book in this series and I am enjoying the cute nature of the book, the fun feeling of the story and the place. Magnolia Cove is where I want to live!

### **Getting a little old**

While the first two were just enough silly to be fun, this one started to get old. The inconsistency in the main character (it was a good plan...it was a bad plan...I like the dragon....the dragon is scary...) are starting to get old. Unfortunately this one ended on a cliff hanger so I guess I will give at least one more in the series a shot.

### **Fun Read**

This series gets better with each new book. Book 1 was a little juvenile but the series gets better and becomes fun and addictive! The characters are likeable and the storyline is entertaining.

### **Great Read**

Now we have to find out if Hugo saves Pepper. This is a fun series to read. Great get away for you. Be sure to start with book 1 , so you can have more fun. The characters are well developed and continue to grow as the series grows. The southern slant made it that much more fun for me because I love in Alabama.

## **Babs says**

An egg has been delivered to the shop. Pepper and Axel watch it hatch. A baby Dragon which Pepper has no intention of keeping. A traveling magician named Mysterio takes it off her hands.

Mysterio's show has Pepper seeing her dead mom with a mysterious message. Before she can hear what it was Mysterio's cape kills him.

Left with the baby dragon and a murder to solve can things go any better?

Pepper is always finding trouble and Axel is there to help along the way. Hugo, the baby dragon was given to her by her dead uncle. It is nice to see these two getting to know each other. Axel and Pepper are getting closer ad it scares her. Funny moments keep you turning the pages to find out if she will know what the message says and if she can keep Hugo out of trouble. Loving this series.

### **Y'all read these books now, you hear?**

Love the quirky characters. Cute, fun and exciting! Being from Alabama, I can identify with all the food and drinks. Mmm sweet tea! My favorite.

### **The trouble with dragons is..**

An egg, an escaped prisoner, a death and the whole town up in arms are all mixed into a plot that will amuse and entertain you. Alright part of the answer was obvious from the start. Can she build a bond between herself and her new familiar? Why did the murder occurs? Why is her boyfriend acting weird? A fun plot but please be warned that this does end on a cliffhanger, so you might want to wait for the next book. The characters are as wacky as ever and the love interest of the cousins is starting to heat up. For a quirky, zany read - this is perfect.
