Teenage Mutant Ninja Turtles: The IDW Collection, Volume 5 Kevin Eastman , Tom Waltz , Mateus Santolouco (Illustrations) , Cory Smith (Illustrations) , Dan Schoening (Illustrations) , Paul Allor , Erik Burnham , Bobby Curnow

The IDW Collection presents the TMNT stories in recommended reading order. After meeting a good-natured inter dimensional time traveler named Renet, the Turtles become unstuck in time and go spinning into the past! Meanwhile, Shredder and Krang finally meet up, but will they be able to overcome their differences and join forces and Old Hob has perfected the art of making mutants! Plus, when a new invention goes haywire, the Turtles are sent to a whole new type of New York City. One with a whole lot more ghosts- and Ghostbusters! Collects *Turtles in Time*, issues #38-44 of the *Teenage Mutant Ninja Turtles* ongoing series, and the *TMNT/Ghostbusters* crossover.

From Reader Review Teenage Mutant Ninja Turtles: The IDW Collection, Volume 5 for online ebook

Patrice says

Wow...just wow. This was great! I really enjoyed their choices of artists throughout most if this which is not always the case the way they switch up art styles as they go. The asides were fantastic, with a fun rump through time and a crossover with the Ghostbusters, both of which tied back I to their primary narrative. And they tied up a lot of important storylines in this one so it was very climactic. But where they left it...I will go nuts waiting for the next one. Just wow.

Jonathan says

The definitive narrative of the Teenage Mutant Ninja Turtles continues in another stellar volume from IDW. If you love the TMNT read this series.

David Lipely says

Better and better!!!!
Donnie!!!! So sad!!!! :(

Zachary Henez says

Volume 5 starts off with the Turtles in Time mini-series which is fun and reminiscent of the old games. The ghostbuster crossover is also in this volume and was fantastic. The main story picks up steam again and ends with one heck of a cliffhanger. The quality has not dipped at all in 40+ issues and I am excited to start volume 6.

Morgan says

Talk about a major cliff-hanger.

Shaun says

The TMNT series with IDW continues to be some of the best Turtles story out there. It has decades of iterations to pick the best tidbits from to weave into a story that is familiar yet unique. The story is relatively deep for a Turtles comic, being more than merely "good vs. evil" with various factions and allegiances all with their own motivations that all come to a head in the conclusion of this collection.

Beyond the main storyline there are also some really fun detours. Things start out with the 4 part "Turtles in Time" mini series, which will absolutely appeal to anyone who played Turtles in Time for the Super Nintendo at home and wished they made a movie out of it... or who saw TMNT 3 in theaters and wished it had been better. Time travel is nothing new for our mutants, but it proves to be a real delight here.

Plus, there is the 4 part TMNT/Ghostbusters crossover. 8 year old me would have squealed in delight and well, 33 year old me kinda did too. I had actually read this before in trade paperback from out of the continuity of the rest of the series, and it held up fine, but reading it here after reading the previous entries of Turtles kind of helped me put it in context.

Simply put, if you have liked Teenage Mutant Ninja Turtles at any point in your life, do yourself a favor and read IDW's comic series of them.
