**The Throne of Fire: The Graphic Novel** Orpheus Collar (Adapter) , Rick Riordan

In this exciting second installment of the three-book series, Carter and Sadie, offspring of the brilliant Egyptologist Dr. Julius Kane, embark on a worldwide search for the Book of Ra, but the House of Life and the gods of chaos are determined to stop them. This non-stop thrill ride is adapted and brought to life by Orpheus Collar, who developed the first Kane Chronicles graphic novel and worked on *The Lightning Thief*; *The Graphic Novel*; *The Lost Hero*, *The Graphic Novel*; and many other titles including *The Amazing Spider-Man* and *Ultimate X-Men*.

## **From Reader Review The Throne of Fire: The Graphic Novel for online ebook**

### **Nhu says**

Carter is wearing a camp Jupiter t-shirt. I like this more than the first graphic novel.

---

### **Sriya Mudumba says**

I prefer the novel better

---

### **Katie Kaste says**

These stories have taken me longer to get into not because they aren't good but because I have to work harder to remember or Google Egyptian mythology. I am loving that the graphic novels have come out, they are so helpful with the visuals of the story. The Egyptian mythology isn't necessary to understand the story but it does help. I love learning new things and these books lead me down new paths. What a great story and wonderful examples of heroes for today's kids.

### **Ivy says**

5 stars

Nice to see Sadie, Carter, Amos, and Bast again. Also nice to see the new characters including the initiates. Glad they were able to find Ra. Hope Bes will be better soon. Also hope Amos will do well as the new Chief Lector.

RIP Michael Desjardin.

Can't wait to read more graphic novels of Rick Riordan's books!!!!

---

## Helen 2.0 says

The art in this book was even better than in the Red Pyramid. The plot had a very similar structure as the last book, with conflicts arising and being solved rather conveniently. Nevertheless I was entertained the whole way through and laughing for most of the chapters.

Here's one thing that really bothered me. The initiates Sadie and Carter gather up for magic training in Brooklyn are all very young, 9-15 years old. Where are these kids' parents? If I were a mom and two teenagers showed up at my door, asking to take my kids off to an invisible magic academy in New York without parental supervision, I would say, "Ha. That's funny. You're funny. Now get the hell off my property." Then I would slam my door and promptly look up whether you can get a restraining order against a minor. So again, *how did Sadie and Carter convince these parents to give up their kids?* If they used some kind of mind-warping magic, I'd have to call them out on their less-than-wonderful moral standards.

Another thing I didn't understand was Walt's family line. His family has been cursed since Tutankhamen to die as teenagers. So either every single one of Walt's ancestors had children at an appallingly young age, or the curse is complete bullshit.

Despite my ranting I did love the book. I just like calling authors out on their plotheoles.

## Zohal says

I am just not a fan of the art and the story is something that I loved when I was younger but it does not have the same effect on me anymore unfortunately.

## Kiran ?? ?? ?? ?'?\????\?= ( ? ?????) =ε/????/'?? ? ?? ?? ?? says

This book was great especially since I read the whole series and I love to see it with pictures.

---

## Grace says

I love this series even more than I did when I first read it last year! These characters are awesome and it's so fun to read! I loved every moment of it!

The illustrations are great too! This is a book-to-graphic novel adaptation done very well!

2.5 stars

Being as I am not a graphic novel fan, I wasn't expecting to enjoy THE THRONE OF FIRE, therefore, I

wasn't let down, but I also wasn't surprised it wasn't appealing to me.

I have not read the original *The Throne of Fire* by Rick Riordan, so I did not have any prior knowledge to base my opinions of this graphic novel on, however, I will say the following positives:

- The characters were easily distinguishable
- Each character had their own unique quirk that made them stand out from the others
- ACTION-PACKED!
- Quality illustrations I found engaging nonetheless
- Conflicts are solved in a convenient, yet hard to predict way

Now onto the cons:

- Why the hell is Sadie so young?? And Carter, too??
- Mediocre writing -- I've seen better, but I've seen worse. Nothing about it stands out to me in a positive or negative way, ya know?
- I would've liked it a bit longer, to be honest, although I understand the whole point is to condense the novel and show the storyline through a different lens
- I'm just off the mark of the age group this graphic novel is target towards, and because of this, I thought the humor was childish, immature, and boring
- There is just a lot happening on each page its hard to keep up with, especially because it is mostly dialogue
- While I found the illustrations engaging as I stated above, it was difficult to find the motivation to continue with *THE THRONE OF FIRE* as it wasn't holding my attention for more than a few pages before I had to stop reading (It took me like two weeks to get through this when it should've taken me under two hours)
- Character development is hardly existent (I understand its the second book in a series, but still)
- Pointless romance

All I really have to say about *THE THRONE OF FIRE* is *eh*. Would I recommend it? Yes, if you are someone who has a.) read the original book, b.) likes graphic novels and c.) is interested in being filled in on some of the details glossed over in *The Throne of Fire*. A pretty specific group, I know, but what can I say? This is definitely one of those *It was for me!* or *Nah, I'll pass* books with no middle ground, I can tell you that much.

---

## **Allie says**

The writing felt a little more childish in this one and some of the art was a little weird, but I still really enjoyed this one! The ships are finally beginning to sail and it makes me happy. ? Really excited for the last one! It's nice being able to revisit this world!

## **Montzalee Wittmann says**

*The Throne of Fire: The Graphic Novel* by Orpheus Collar, Rick Riordan is another great graphic novel for kids. This follows Carter and Sadie on an adventure on their own, with a little side help. Exciting and fun to read. Kids will love this series. Great illustrations and lots of action. I got this book from the library.

---

## **kim hannah says**

Again - read it while I was reading the novel.

---

## **Dolly says**

This is the second book in the graphic novel series adaptation of The Kane Chronicles by Rick Riordan.

The story is a condensed version of the novel and the illustrations are very boldly colorful, filled with dramatic scenes and scary-looking monsters.

The narrative is comprised mainly of dialogue, and with so many characters, it is nice to be able to put a face to each one to help keep them all straight. Overall, it's a fast, entertaining read and I'm looking forward to reading the next book in the series.

## **Anna says**

So good!!! I keep remembering why I loved Kane Chronicles so much!!

I like the way these Graphic Novels have been made and they include everything necessary for the story to stay the same. Of course I miss the humorous parts like chocolate Lenin etc. This series woke my interest for Egyptian mythology and it never died after, so thank you! This is fast paced and action filled but also easy to keep up. I love the characters and just love the series.

I can recommend this to anyone who likes Riordan's work and would love to experience it differently.

One thing that bothers me a little is that Sadie and Carter are so young!! Sadie is thirteen! But no matter that. This is amazing and can't wait to start the third one.
