The Unbeatable Squirrel Girl Vol. 7: I've Been Waiting For A Squirrel Like You (The Unbeatable Squirrel Girl Ryan North , Erica Henderson (Illustrator)

Collects The Unbeatable Squirrel Girl #22-26 and material from A Year Of Marvels #4.

Squirrel Girl goes savage! When Doreen Green and Nancy Whitehead enter a mysterious programming competition, they don't suspect that the prize for winners will be an all-expenses-paid trip to...the Savage Land! Will Squirrel Girl fight a dinosaur? Will Squirrel Girl fight two dinosaurs?! Will we come up with really excellent reasons why these fights would take place, reasons that both justify the fights while also telling the story of what lead to this dinosaur-punching smashup: a story which, even though it stars dinosaurs and Squirrel Girls, contains within it the chance for us to recognize, perhaps for the first time, our most personal and secret selves? Of course! Plus, jokes and a super villain who's causing major problems - it's the complete package!

The Unbeatable Squirrel Girl Vol. 7: I've Been Waiting For A Squirrel Like You (The Unbeatable Squirrel Girl Details

Christopher says

Best quote:

"I shall dub these lands 'Savage' because I am from colonial times, an era of assumptions both unexamined and problematic!!!"

I'm always happy to have more Squirrel Girl. This edition is full of dinosaurs and the characters' enthusiasm is contagious. Not as good as the last installment, but still great fun as always.

Marianne says

This is the funniest and funnest comic out there right now.

Rod Brown says

[SG on her Wolverine-like knuckle spikes: "Man, I always forget about these things. I never use 'em on account of how I basically never have reason to go around stabbing people?" (hide spoiler)]

Stephanie says

This is my favorite comic/graphic novel series EVER in any genre and it just fills me with joy. And this one has dinosaurs in it! (And the BEST dinosaur-themed jokes!)

I missed a train last night and had to stay up soooo much later than I'd planned on my way home, but reading this made it worth it. It is just FULL of delight! (And this particular volume would work perfectly well as a standalone if you want to jump in with the dinos straightaway - but why miss the first 6 awesome volumes? Squirrel Girl is just WONDERFUL.)

Calista says

If you love Squirrel Girl and Dinosaur's then this is the issue for you. Squirrel girl goes to the Savage lands which is this preserve in Antartica. The villain is a mega metal dinosaur.

This was my least favorite Squirrel girl and saying that, it was still an entertaining read. It's still good.

At the end of the book there is a lot of short extra little silly stories about raising money for a library that was funny. Also Kraven the Hunter also sticks in a page here and there in the novel that's funny too.

Kathleen says

Doreen and Nancy win a coding contest, and so they get to travel to the Savage Land and meet coders from all over the world. Friendships are made, dinosaurs are awesome, and robots are fought. All in all, a perfect comic book, with the extra jokes this title is known for.

I highly recommend The Unbeatable Squirrel Girl for all comic book readers.

Diz says

Squirrel Girl is in the Savage Lands in a desperate effort to save the last dinosaurs on Earth. Nancy falls in love with a Latverian! Squirrel Girl is back on its A game in this volume. Also, you have to give the creators of this book credit for ignoring the Secret Empire event and for even criticizing it. Finally, this book has made Kraven into one of my favorite characters. His short stories in this volume are so funny.

Frankie says

Aaaaah! This was such a great volume! I think it might be my favourite yet!

Dea says

[

1. Did we have to use the word "savage"?
 2. Why did Squirrel Girl wear that skimpy two-piece to fight Ultron? COME ONNNN
 3. Nancy and Doreen are end game, right? Like, they're eventually gonna get together, right? RIGHT???
- Right. So I did NOT APPRECIATE the Nancy/Stefan detour!!! (are they really gonna make a girl seek out Nancy/Doreen fanfiction ugh I'm too lazy just make it canon already)
4. Honestly,
-

eHawk says

too good

Ma'Belle says

SG is still my go-to recommendation for anyone who is curious about what's so good about comic books but isn't keen on the typical superhero story. It feels like Ryan North and Erica Henderson have been making this standout Marvel book for way longer than just a few years, and I'm nervous about the news I heard that Erica is leaving. They've really made one of the best, most consistently entertaining, smart, tender, and all-ages-friendly comics available anywhere. This volume has some great stuff but the main plot is rather forgettable compared to other Squirrel Girl trades.

The real gem in this collection is issue 26, which is a bunch of short stories illustrated by various other artists, including one of my personal favorites, Carla Speed McNeil! We get to see closeup one-shots featuring Brain Drain, Wolverine, Kraven, Galactus (drawn and voiced in classic Garfield style by Garfield creator Jim Davis himself!), Loki, Spider-Man, Tippy-Toe, Nancy Whitehead, and of course Howard the Duck (written by Erica Henderson and drawn by the frequently seen pal of Ryan North, Chip Zdarsky).

The letters pages at the end of each issue are also well worth reading. It's a blessing that Marvel continues to print those in the SG TPBs, unlike most other collected editions of monthly comic books.

Olivia says

This is the first volume of SG that I read digitally. Unless ComiXology improves its interface for this series, it'll be my last as trying to zoom in to get the text at the bottom of the page is a pain.

That technicality aside, I enjoyed this more than I have more recent volumes. This barely requires the reader to know anything else about the series and involves dinosaurs with lots of Jurassic Park references (and a great Scott McCloud reference). SG continues to be a series that reinforces inclusiveness, calls out BS, and is body positive. SG herself has a different uniform in this, I guess for a good reason, but it's kinda a skimpy thing that could be worse but made me make a face.

Rebecca says

A solid volume. Always wanted to see a squirrel themed super hero turn up to a battle on a dinosaur and now I can die happy.

Favour Egbune says

Amazing as usual. I really should write one of those letters so I can see it in the forum place.

Renata says

(read as single issues)

Squirrel Girl + Dinosaurs + Doombots = yessss

also it looks like this trade will include the standalone "zine" issue which was AMAZING, 5 Stars for Brain Drain's inspirational zine alone
