ABC says

Tons of flaps make this book fun. The illustrations are the old-fashioned original ones, rather than the Disney ones. Sweet book!

Flaps may be easily torn by young kids, though.

It was okay. A looked at the bear, Christopher robin and all the other characters but didn't hold her attention nor was it her favorite. Let me come out and say it - A loves the Disney illustrations of Winnie the Pooh.

Erin says

This book has a ton of flaps for children to lift up and look under. My main problem with it is that the illustrations are really small and I honestly don't think my child has any idea who or what the illustrations are. It would have been better (at least for young toddler age) to have bigger pictures with more color.
