Fallin For A New York Boss: A Novella Princess Diamond

Korrae's main goals consist of graduating from high school and going to college to be a doctor. She dreams of moving away from Castle Hill Projects and her drug addict mother. Growing up in the Bronx has its challenges with high crime rates and hood dreams. For this reason, Korrae works at a bodega after school and then goes straight home to study. She doesn't socialize much nor does she hang out around the way, refusing to become a product of her environment. Each time she takes one step forward, something knocks her ten feet back. Instead of being defeated, she continues to strive for greatness.

While her father Raemond is in jail, Korrae's mother Kora makes a living being a coke head stripper, valuing her relationships with random men over her children's well-being. She prefers spending all of her money on drugs instead of paying bills or buying groceries. Kora's latest boyfriend Scrub is as shady as they come. He only cares about himself and has his eyes on Korrae. Scrub wants to take over the streets, in addition to making Korrae his future wifey instead of her mother.

After continuously bumping heads with her mother, Korrae finds herself kicked out and aimlessly wandering the streets of New York with nowhere to go. Surviving is made a little bit easier after meeting her savior Cadillac. A bonifide boss with swag, street cred, and long money. He can be ruthless, but he can be gentle as well. He's open to falling in love, especially with someone as beautiful as Korrae. Instantly, they hit it off, quickly becoming an item. However, their happiness is short lived because of the haters who are jealous of them.

Will they survive the manipulation? Or will their love crumble under pressure? Will Korrae be able to escape from generational poverty? Or will the streets hold her back just like her mother? Will Cadillac overcome the takeover plan? Or will he step up and prove why he's a New York Boss? Find out all of these answers in this new enthralling novella by Princess Diamond.

Incredible job

This book was so good! Kori and Caddy got on my nerves at times but I still loved them. This book had me holding my breath at times! Tiki was a true ride or die friend. This book goes to show what Karma can do. Greed will get you every time. I was proud of the mother by the end. Caddy was a real man. Not many would have done what he did. Yeah he messed up a couple of times but Kori was the best either. She was self at times. I can understand why but at the end of the day those were her siblings he didn't have to do what he did. She did an incredible job with this book

Yes

Man If Kora wasn't a mess when this book first started! She was all for self and didn't care anything about her kids! Scrub was a scrub and got everything that he deserved! Gonna just lie on Korrae like she wanted him boy bye! Then when she left home and ol buddy was trying to tape her in the alley! I thought she wouldn't be able to catch a break! But if it wasn't for Caddy who had the dream about her and when the time came he still didn't know until she was up in his arms! What ever happened to tiki she was the definition of a true best friend! I was shocked to see that Avon was gay but it is what it is! Then when Korrae have the baby up I was hurt! But Caddy still wanted that old thing back and he kept knocking her up lol! And daddy coming home was what she needed! Great book

Loved the ending

This book had a lesson that you couldn't ignore. Kori showed that her surroundings and circumstances were not going to deter her from her dreams. I didn't particularly care for the way she abandoned her siblings and kids to pursue her dream, but I do understand why she did it. I'm glad the Kora finally got it together. Caddy is that dude. I love how he stepped up to the plate and took care of his kids as well as Kori's siblings. Not too many men would have done that. I'm glad the Scrub and Lottie got what they deserved. Lottie actually got off easy. She needed to suffer just a little bit. Loved the ending. Kori is back where she needs to be.

A Must Read!

This was a great love story! I love the relationship that Caddy and Korrae had. Korrae was very determined not become a product of her environment and was a great big sister.

Ny Boss

Kori mad me so mad instead of being so smart like she claimed to be she did dumb girl stuff like run away from the problem instead of address it. I'm glad Caddy was a stand up guy and did what he was supposed to do for her sisters and his kids. I'm glad the mom got on the right path she was too old to be acting like that.

God Sent Me An Angel!!!! Korrae was forced to take care oh herself. I couldn't stand Kora for the way she treated her. I don't like any woman whi take the side of a man before their own child. But it only made Kori stronger. I loved the way Caddy stepped in and took care of her and her siblings. Lottie got out easy. I didn't

like her she was always jealous and did anything to get bk at Kori. Scrub and Lottie thought they were smart but they soon found out. I was happy that Avon finally could breath again. Great Job

Jeanida Luckie-Weatherall says

This book was so good and i couldn't put it down. From the first page to the very last it held my attention and it got better and better. Exactly how a novella is suppose to end. Princess Diamond, this was a very well written and flowed really good. Really liked Cadillac and Korrae together; even though, they both got on my last nerves. Korrae and her sisters had been through so much with their mother and so glad the the mother finally got herself together. Caddy was a real man in more ways than one. I loved how he took in the sisters and cared for them regardless, of what was going on with Kori. they booth mess up a few times, but in the end love prevailed. Job well done Princess Diamond.
