This story was very interesting now I'm excited to see what part 2 will bring. I'm so surprised with Khari and Cue, who would have thought they had something in the past. I really don't like Aubrey and his motives at some point you have to realize the better man won, now with his manhood shot down this can lead Ali to be seriously hurt or worst. I hope Khari mom is okay and I can see now that Leah will be a big problem. Kylie really needs to give up this thing she has with Jamaal because he's going to cause her to self destruct, and Paige is no good to be a friend. As far as Starr and Shane they both just disgust me. Until next time

I was able to finish this read rather quickly as it was definitely entertaining. The character differences were refreshing; it ranges from characters you love : Khari and Cue, characters you might not necessarily like or dislike: Kylie, and characters you hate: Aubrey, Jamal, and Starr. Khari and Kylie are twin sisters whose mother too kin their cousin Starr to avoid her going into the system. Khari grew up crushing on Starr's boyfriend, Cue but eventually gets over this teenage-love-affair-crush as she gets older and finds herself engaged to her son's father, Aubrey, who is locked up. Kylie cant seem to let go of her klepto ways or her childhood sweetheart Jamal, who robbed her savings account and left her pregnant. Drama brews as shocking secrets are revealed. Just as I was declaring my "book-love" for Cue, this author hits us with a "to-be continued".

Wow

You did your thang in book 1 can't wait to read book 2. I have enjoyed all the twist and turns. I was also glad that everything came to light throughout the book and not just in the beginning. Great read!!!!

Couldn't get into this one because all the characters seemed to be fools. Kylie's supposed to be the good girl who just so happens to hookup with someone she didn't know was in the streets. We find out all that is pretty much a lie because not only did she know what Aubrey was about she was willing to live with it as long as it benefited her, but she held a secret of her own from jump from Starr. Starr was the worst of the females with what she'd been up to after Cue, especially at the nail salon, she deserves whatever happens with her.

Khari was a dang fool up and down the board, pretty much skipped all of her parts because all the stealing and low life mess was just too much. Hopefully she'll get at-least ten years for what she was doing. Overall the book was messy and not really in a good way or a way to really make you want to read it or the next one. Without being able to connect with the characters and actually want to see them make it, it's just a waste of time.

'I Fell in Love with a Real Street Thug' was a story with lots of twists and turns. It portrays the lives of twins Khari and Kylie, as well as their cousin, Starr, and the men that they are all involved with.

There was drama, there was romance, and there were a lot of secrets that shocked the characters to their core.

I think that the story was pretty good until the part where Cue's true identity was revealed. After that point, the story seemed to disconnect from itself, with different twists being added in that didn't seem to fit with the overall flow of the rest of the story.

I definitely think that the author is a good writer – it's just that this story seemed to need a little more editing just so it could tie together more smoothly. That being said, I will be reading the next book, because I did enjoy the story and was genuinely surprised at some points, which is not usual for me.
