A PERFECT book to explain what love is. It is a little on the small side so it might make a better one-on-one story.

Though this is a board book great for sharing during cuddle time between parents and their little children, I would love to buy this book as a gift for anyone I love. It would make a really cute anniversary or Valentine's Day gift for a special love. The unlikely friendship bond between a mouse and a dog, combined with the lovable little rhymes on each page, makes this book read like a longer version of one of those big cards couples can buy that show a cartoon animal couple's loving antics play out to some silly but endearing poetry.

Kailey (BooksforMKs) says

This sweet little board book, told in rhyme, is all about what love means, what it looks like, and how it works. With adorable illustrations of a dog and mouse who care about each other and express their friendship and love, this book is perfect for a parent to read aloud to their child, or even for a gift to any loved one.

Love is smiling together. Love is fun and free. Love holds us together. Love makes us belong. Love wipes away tears. Love means sharing. The book tells these and many more with colorful pictures and rhymes that trip off the tongue.

The pictures are lovely, some are a little bittersweet, and some are so funny they made me laugh! I love the art style and the expressions of the dog and mouse. They really captured my attention and made me look closely.
