Lauren says

The characters are fun and entertaining throughout the book. There is tons of humor that kept me thoroughly entertained as a child. I love whodunit books and trying to figure out the various mysteries and this collection of tales certainly doesn't disappoint.

I'll never get tired of these books. I wish there was more.

I like how at the end Mr. Boddy always, always ends up almost murdered by one of his guests.

The one about Mrs. Peacock dying was my favourite one out of all of them. Like the other ones that I've read, some of them stumped me, I guess I need to be more observant. Some of those clues are really tricky.

Samantha says

Clue comes to life in this book of ten short mysteries which the reader must solve. Mr. Boddy loves when his six guests come to stay at his mansion, but the guests do not get along very well, and often steal from each other, and even go so far as to kill one another. The suspects: Mrs. White, Mr. Green, Mrs. Peacock, Professor Plum, Miss Scarlet, and Colonel Mustard. Who did it, and who is innocent? Mr. Boddy is counting on you to put the facts together and get to the bottom of this mess.

The mysteries, for the most part, are set up well and require some thought and some looking back over the text. However, the writing is so poor I find it hard to be motivated to figure the mystery out. The answer is on the next page, so I'm not left wondering. I did notice one of the answers they had didn't work with the facts given, but the rest all seemed fine.

I still can't believe how bad the writing is. It's geared towards younger readers, yes, but that's no excuse. I won't be reading any more of these books, nor am I keeping a copy of this book.

I LOVED these books when I was younger... and I still do. :)

Lindy says

Apart from the last mystery, which I still don't quite see how it is solve-able... this is great fun! I loved these books as a kid and have really enjoyed revisiting them!

Musiquevie says

Always fun little mysteries to figure out although the last one still leaves me hanging because the answer doesn't match up with the story. Otherwise, the other nine short mysteries were great to solve.

Josiah says

Some of the mysteries are kinda hard to solve, but most are at a level that you need to put effort, but you can still solve them. Love this series!

T.J. says

The title mystery, one of ten, is bizarre, and simplistic, but totally appeals to my completely bizarre sense of humour. The rest of the lot are above average too, and you really appreciate the absolute insanity of the series by this one.
