Synthesis Leto Spirit Blackman

Jax Stone is stranded on an alien planet, a planet that changes him. He now sees pop up windows and receives quests and is being attacked by creatures. Together with his strange companion Kala, they set forth to explore this mysterious new world. They must learn how to play this very real game, or die.

Joy Ann says

Super cool

Really interesting story. It was a lot of fun to read and I'm very much looking forward to reading the next in the series.

Melissa Jane says

Well written, although a bit short and hurried. A twist on a typical LitRPG genre that was fun to read. Looking forward to more in the series.

DJay says

I'm liking this book. This is the typical LitRPG stories where the user ISN'T locked into a game, but locked into an actual planet that has game like features. It's a pretty nice change for the usual pace of being locked online in a game.

The overall plot of the story does seem to be a bit fast, but not too fast. The characters all top notch. They don't feel flat to me. Even the robot is awesome. There are a lot of quirky references from pop culture, so you'll have fun reading those as they pop up. Looking forward to reading the next book!

Upset says

This story is amazing

The only complaint I have is in hope you have a plan for the mc's stats and fighting style. He is all over the place and doesn't seem to have a plan/build. Kinda underwhelmed compared to his sister etc. I mean he has so many cool skills and items but doesn't seem to use them to their full potential. Mainly the soulskill for one. Why isn't he using it to absorb information from stuff? Like his sword or something? He could learn so much. And that's just one skill that he's ignoring.

Travis says

Interesting execution. I liked it. Hoping to read the next one soon. Some grammar issues, but overall it wasn't too bad.

Renny says

What I think of as "young adult writing"

The length to cost ratio is too low for me. The writing is at a level typically aimed at young adults. Despite this it was well written and quite enjoyable. Worth killing some time with if you came across it on ku.

Over says

Great litrpg ! Favorite new series of the summer.

Great litrpg! I think it's my new litrpg of the summer. Too notch. Can't wait for the next one in this series. The author does a excellent job creating a great world ?with great mcs.

Andy Woods says

Enjoyable if in desperate need of editing

daniel says

Quick, fun read. Probably for more YA audience

Quick, fun read. Probably for more YA audience

A few complaints:

-Epic loot found too eArly

-Obvious no one edited the book. At a minimum please have even a friend read book 2 and catch blatant missing words and obvious errors.

Donald L says

Great story

New Twist on litrpg. Part science, part Thriller, litrpg. Plenty of twists and turns. Great ending and sets up bok 2.

Anthony Bock says

Fells good man

New take on lit rpg I loved it can't wait for the 2nd one look forward to reading it !!!!

Heath says

Good Read.

A LitRPG story. Stranded on a unknown planet with holes in his memory. A path is set before his with his odd collection of friends.

Damien King-acevedo says

Great

Great book. I would have liked it to be longer, and for the background to have been more gradually revealed, but it was still a great read. I can't wait for the next one.
